Reading And Discrimination:

Reading and Discrimination Denys Thompson, 1949 Reading and discrimination Denys Thompson, 1948 **Reading and Its Difficulties** M. D. Vernon, 2010-06-24 Originally published in 1971 this book constitutes a scientific enquiry into the basis of reading and dyslexia Professor Vernon considers visual perception reasoning motivation and outlines work in psycholinguistics in order to define the basic psychological processes involved in learning to read She also discusses the problem of specific developmental dyslexia and concludes that the basic deficiency may lie in the processes of conceptual reasoning between the sequence of printed and sounded letters A fundamental disfunction of the brain is also seen as a possibility She stresses the importance of early recognition and remedial treatment of reading difficulties since these may be alleviated if not entirely overcome by suitable treatment **Making Race Visible** Stuart Greene, Dawn

Abt-Perkins, 2003-10-26 Grounded in classroom experiences this volume opens new territory on a critical but rarely addressed topic the intersection of race with literacy research and practice **Research in Education**, 1974

Developmental Psychology Jacki Watts, Kate Cockcroft, 2009 Offers a theory driven approach to understanding human development from two perspectives the psychoanalytic and the cognitive This book presents thoughts on the South African context and the impact it has on development It is suitable for undergraduates postgraduates and health professionals

International Review of Research in Mental Retardation, 2003-11-14 Language and communication problems have long figured prominently in the definition of mental retardation Volume 27 of the International Review of Research in Mental Retardation focuses exclusively on these language and communication issues The pace of research on language learning and use in mental retardation has increased in recent years and taken new direction This revitalization has been fueled by three factors 1 advances in genetic technologies allowing investigation of the behavioral phenotypes of well defined syndromes 2 an increased emphasis on maximizing abilities of individuals with mental retardation to live and succeed in a broader range of contexts and settings and 3 theoretical debates concerning the mechanisms of language development and the nature of the human mind Contents in Language and Communication in Mental Retardation include syndromes e g Down syndrome Williams syndrome domains of language skill e g reading and intervention strategies Contains the most current research on genetic syndromes including Williams syndrome Down syndrome and fragile X syndrome Outlines the most current research on language and communication intervention for persons with mental retardation Authors consider the implications of the research reviewed for both theory and clinical practice Authors bring state of the art knowledge of cognitive science developmental science linguistic and behavioral genetics to bear on important questions about language and mental retardation Includes new research on long studied conditions e g Down syndrome and disorders that are of only recent interest to child language researchers e g fetal alcohol syndrome Includes a consideration of nonverbal as well as verbal communication **Cognitive and Brain Plasticity Induced by Physical Exercise, Cognitive Training, Video Games**

and Combined Interventions Soledad Ballesteros, Claudia Voelcker-Rehage, Louis Bherer, 2018-07-05 The premise of neuroplasticity on enhancing cognitive functioning among healthy as well as cognitively impaired individuals across the lifespan and the potential of harnessing these processes to prevent cognitive decline attract substantial scientific and public interest Indeed the systematic evidence base for cognitive training video games physical exercise and other forms of brain stimulation such as entrain brain activity is growing rapidly This Research Topic RT focused on recent research conducted in the field of cognitive and brain plasticity induced by physical activity different types of cognitive training including computerized interventions learning therapy video games and combined intervention approaches as well as other forms of brain stimulation that target brain activity including electroencephalography and neurofeedback It contains 49 contributions to the topic including Original Research articles 37 Clinical Trials 2 Reviews 5 Mini Reviews 2 Hypothesis and Theory 1 and Corrections 2

Principles of Classroom Learning and Perception Richard J. Mueller, 2017-09-13 Originally published in 1974 this introductory text has been designed specifically for teachers in training and it presents the basic psychological principles governing learning perception motivation and the retention of knowledge at the time The text is carefully tailored for would be teachers in its clear and informal style and in its selective aspects of psychology which the teacher can use to advantage in his efforts to assist the child The book has an eclectic approach to psychological theory drawing upon the insights of behaviourism perceptualism and the Gestalt school as well as the developmental theories of Jean Piaget The author discusses in some detail theories concerning the nature of intelligence and the relationship between creativity and intelligence and he investigates the dynamics of social adjustment introducing the part that may be played by meditation in helping to solve some of the problems of emotional stress within the learning situation In his consideration of the management of learning the author lays much emphasis upon the importance of individual cognitive styles individualizing instruction and independent learning In one chapter Dr Mueller is concerned with factors in the measurement of personality and of performance in the classroom and he reflects upon the specific problem of objectivity in such assessment Finally some consideration is given to the problems and characteristics of the socially disadvantaged child and to the role of the teacher in helping to solve some of the learning problems of these children

Research Report , 1996

The Impact of Learning to Read on Visual Processing Tânia Fernandes, Regine Kolinsky, 2016-01-26 Reading is at the interface between the vision and spoken language domains An emergent bulk of research indicates that learning to read strongly impacts on non linguistic visual object processing both at the behavioral

level e g on mirror image processing enantiomorphy and at the brain level e g inducing top down effects as well as neural competition effects Yet many questions regarding the exact nature locus and consequences of these effects remain hitherto unanswered The current Special Topic aims at contributing to the understanding of how such a cultural activity as reading might modulate visual processing by providing a landmark forum in which researchers define the state of the art and future directions on this issue We thus welcome reviews of current work original research and opinion articles that focus on the impact of literacy on the cognitive and or brain visual processes In addition to studies directly focusing on this topic we will consider as highly relevant evidence on reading and visual processes in typical and atypical development including in adult people differing in schooling and literacy as well as in neuropsychological cases e g developmental dyslexia We also encourage researchers on nonhuman primate visual processing to consider the potential contribution of their studies to this Special Topic
