Kojo-The Monkey

Kojo the monkey lived in the rain forest. There were lots of monkeys in Kojo's part of the forest. Kojo had many brothers and sisters. That was good, because Kojo had many monkeys to play with. But Kojo liked to get attention, too. That was hard to do with so many monkeys around. One day Kojo decided to play a trick on the other monkeys. "Leopard!" Kojo cried. "A leopard is coming!" The monkeys scrambled. They climbed up to the highest tree branches. They shook with fear. Leopards like to eat monkeys. Kojo laughed. "Ha! Just kidding," he said. Kojo's Aunt Ama scolded him. "Nobody likes a liar, Kojo." Kojo felt bad for a little while. But he soon got bored. A few days later, he did it again. "Leopard!" Kojo cried. "A leopard is coming!" The monkeys scrambled again. Kojo laughed. "Ha! Just kidding again," he said. Aunt Ama shook her head. "Be careful, Kojo. Nobody will believe anything you say if you keep this up." The monkeys were all pretty upset with Kojo. They ignored him. Kojo sat in a tree branch, bored and lonely. Then he saw a shadow on the ground below. A hungry-looking leopard padded across the rain forest floor. "Leopard! A leopard is coming for real this time!" Kojo yelled. None of the monkeys paid any attention. The leopard was headed right for them. Kojo knew what he had to do. "Here, Leopard! Over here!" he yelled. The leopard chased Kojo. Kojo climbed up to the highest branches. The other monkeys now saw the leopard and they climbed into the trees, too. The leopard could not climb as high as the monkeys. She gave up and walked away. Kojo was relieved. The other monkeys were glad that Kojo had tried to save them. They forgave him for lying and played with him again. And Kojo became someone they could trust.

Effective Programs for Latino Students Robert E. Slavin, Margarita Calderon, Margarita Calderon, 2012-11-12 Latino or Hispanic children are one of the fastest growing groups in U S schools today On average these students perform worse than Anglo students on measures of academic achievement and other measures of academic success and their drop out rate is high There are schools of excellence among those serving Latino children but the majority of these children are placed at risk by schools and community institutions unable to build on the cultural personal and linguistic strengths these children are likely to bring with them to school Schools serving Latino students need programs based on high quality research capable of being replicated and adapted to local circumstances and needs The purpose of this book is to present the current state of the art with respect to research on effective instructional programs for Latino students in elementary and secondary grades Surprisingly this has not been done before there are many books on the situation of Latino students in U S schools but none so far have reviewed research on the outcomes of programs designed to enhance the academic achievement of these students The chapters represent a broad range of methodologies from experimental to correlational to descriptive and the solutions they propose are extremely diverse Each examines in its own way programs and practices that are showing success Together they present a rich array of research based effective programs that are practical widely available and likely to make a profound difference What binds the chapters together is a shared belief that Latino students can succeed at the highest levels if they receive the quality of instruction they deserve and a shared belief that reform of schools serving many Latino students is both possible and essential This is a book filled with statistics description and reviews of research but even more it is filled with optimism about what schools for Latino students can be and what these students will achieve It is a highly relevant and useful resource for educators policymakers and researchers who want to use research to inform the decisions they make about how to help Latino students succeed in elementary and secondary schools and beyond
