Edmund Burke s Reflections on the Revolution in France is considered by many to be a masterpiece of political analysis and a compelling rationale against the French Revolution Originally written as a letter in response to a young Parisian and later expanded upon and published in book format in January 1790 the work has greatly influenced conservative and classic liberal intellectuals and stands as a powerful argument against violent revolutions lawlessness and unrest Prior to 1790 Burke was a well known member of the British House of Commons and a vocal supporter of the American Revolution His condemnation of the French Revolution shocked many of his peers and supporters Burke viewed the French Revolution as a violent and chaotic war without any guiding ideology or respect for the rule of law and feared it would lead to a situation that was both dangerous and corrupt Many of Burke s predictions came true as the Revolution devolved into bloodshed and anarchy with

the Reign of Terror beginning in 1793 and then leading to the eventual military dictatorship of Napoleon Bonaparte Burke's work stands as an enduring statement in support of tradition hereditary power property rights duty and the monarchy

Reflections on the Revolution in France, Edmund Burke, John Fowler Dove, 1813 **An Analysis of Edmund Burke's Reflections on the Revolution in France** Riley Quinn, 2017-07-05 Edmund Burke's 1791 *Reflections on the Revolution in France* is a strong example of how the thinking skills of analysis and reasoning can support even the most rhetorical of arguments Often cited as the foundational work of modern conservative political thought Burke's *Reflections* is a sustained argument against the French Revolution Though Burke is in many ways not interested in rational close analysis of the arguments in favour of the revolution he points out a crucial flaw in revolutionary thought upon which he builds his argument For Burke that flaw was the sheer threat that revolution poses to life property and society Sceptical about the utopian urge to utterly reconstruct society in line with rational principles Burke argued strongly for conservative progress a continual slow refinement of government and political theory which could move forward without completely overturning the old structures of state and society Old state institutions he reasoned might not be perfect but they work well enough to keep things ticking along Any change made to improve them therefore should be slow not revolutionary While Burke's arguments are deliberately not reasoned in the rational style of those who supported the revolution they show persuasive reasoning at its very best
