Rethinking Psychological Anthropology Continuity And Change In The Study Of Human Action:

Rethinking Psychological Anthropology Philip K. Bock, 1999 In this introduction to an important field Bock provides a critical account of the ways that anthropologists have used and misused psychological concepts in their studies of various societies He argues that we must be aware of these past efforts and errors if we are to develop culturally sensitive ways of understanding the relationship of individuals to their societies Starting with nineteenth century studies of primitive mentality the book examines the school of culture and personality including cross cultural correlational studies and continuing on to recent work on sociobiology shamanism self and emotion Relevant psychological concepts are explained as needed and each approach is presented in its own terms before critical examination publisher **Rethinking Psychological Anthropology** Philip D. Bock, Philip K. Bock, 1995-03-01 The author provides a critical account of the ways that anthropologists have used misused psychological concepts in their studies of various societies [The Critical Phenomenology of Intergroup Life](#) Evandro Camara, 2020-12-04 This book is dedicated to a critical analysis of race relations and inequality through the prism of Schutzian social phenomenology which focuses on the world of intersubjectivity and the complex of meanings that orient the conduct of individuals and groups The phenomenological approach provides a more intimate look at how the societal imposition of negative racial meanings on racialized persons crucially determines the construction of the minority subjectivity as essential otherness thus becoming a pivotal support of race based inequality [Can precision medicine be personal; Can personalized medicine be precise?](#) Y. Michael Barilan, Margherita Brusa, Aaron Ciechanover, 2022-02-10 People have always sought medical care that is tailored to every individual patient Alongside with the historical development of institutions of care the vision of personal and holistic care persisted Patient centred medicine interpersonal communication and shared decision making have become central to medical practice and services This evolving vision of personalized medicine is in the forefront of medicine creating debates among ethicists philosophers and sociologists of medicine about the nature of disease and the definition of wellness the impact on the daily life of patients as well as its implications on low income countries Is increased precision also an improvement on the personal aspects of care or erosion of privacy Do precise and personalized approach marginalize public health and can this care be personalized without attention to culture economy and society The book provides a multidisciplinary and interdisciplinary discussion of the ethos and ethics of precision personal medicine involving scientists who have shaped the field in dialogue with ethicists social scientists and philosophers of science The contributing scholars come from all over the world and from different cultural backgrounds providing reflective perspectives of history of ideas critical theory and technology assessment together with the actual work done by pioneers in the field It explores issues such as global justice gender public health pharmaceutical industry international law and religion and explores themes discussed in relation to personalized medicine such as newborn screening and disorders of consciousness This book will be of interest to academicians in bioethics history of medicine social sciences of medicine as well as general

Nitecki, Doris V. Nitecki, 1993-01-01 This volume analyzes the biological and philosophical disagreements in evolutionary ethics and points out difficulties with the interpretations The book is divided into four sections The first is an historical introduction to the origin of evolutionary ethics showing how different evolutionary ethics was a hundred years ago and how distant Huxley is from most of us now The second section argues for a sociobiological interpretation of evolutionary ethics The third section presents the view opposite to that of the second section and rejects the sociobiological interpretation The fourth section deals objectively with many complex and fundamental issues from diverse perspectives *About Psychology* Darryl B. Hill, Michael J. Kral, 2003-03-27 A critical and historical overview of psychology **Lies that Bind** Susan Debra Blum, 2007 This provocative book explores the ideology of truth and deception in China offering a nuanced perspective on social interaction in different cultural settings Drawing on decades of fieldwork in China Susan D Blum offers an authoritative examination of rules expectations and beliefs regarding lying and honesty in society Blum points to a propensity for deception in Chinese public interactions in situations where people in the United States would expect truthfulness yet argues that lying is evaluated within Chinese society by moral standards different from those of Americans Chinese for example might emphasize the consequences of speech Americans the absolute truthfulness Blum considers the longstanding values that led to this style of interaction as well as more recent factors such as the government's control over expression But Chinese society is not alone

in the practice of such customs The author observes that many Americans also excel in manipulation of language yet find a simultaneous moral absolutism opposed to lying in any form She also considers other traditions including Japanese and Jewish that struggle to control the boundaries of lying balancing human needs with moral values in contrasting ways Deception and lying the book concludes are distinctively cultural yet universal inseparable from what it is to be a human being equipped with language in all its subtlety Reconceptualising Conversion Zeba A. Crook,2012-08-09 Die Studie nimmt die bisherige Diskussion der Konversion in der Antike neu auf durch eine Verknüpfung von klassischen epigraphischen und biblischen Quellen mit einer sozialwissenschaftlichen Methodologie Der Autor hinterfragt dabei die bisher vorausgesetzte psychologische Kontinuität zwischen antiken und modernen Menschen und bietet statt dessen ein Modell welches an den Denkvoraussetzungen der Antike selbst gebildet wurde Die griechisch-römischen und mediterranen Religionen und Philosophien also auch das hellenistische Judentum und das Christentum orientierten sich an den Modellen von Patronat und Loyalität Das Verständnis der antiken Konversion muss also hier ansetzen In diesem Zusammenhang wird auch die Bekehrung des Paulus neu gedeutet **Cultures Under Siege** Antonius C. G. M. Robben,Marcelo M. Suarez-Orozco,2000-09-14 Collective violence changes the perpetrators the victims and the societies in which it occurs It targets the body the psyche and the socio-cultural order How do people come to terms with these tragic events and how are cultures affected by massive outbreaks of violence This book is a groundbreaking collection of essays by anthropologists psychologists and psychoanalysts drawing on field research in many different parts of the world Profiting from an interdisciplinary dialogue the authors provide provocative at times deeply troubling insights into the darker side of humanity and they also propose new ways of understanding the terrible things that people are capable of doing to each other **Evolutionary Competence** M. Montuori,2023-07-31 *Human Motives and Cultural Models* Roy G. D'Andrade,Claudia Strauss,1992-05-21 Why do people do what they do The authors attempt to show how shared cultural knowledge comes to motivate or fail to motivate individuals *Anthropologists in the Field* Lynne Hume,Jane Mulcock,2004 An excellent introduction to real world ethnography this book covers short and long term participant observation and ethnographic interviewing and uses diverse cultures as cases *The Challenges of Cultural Psychology* Gordana Jovanović,Lars Allolio-Näcke,Carl Ratner,2018-09-28 This book considers cultural psychology from historical theoretical and epistemological perspectives building an understanding of cultural psychology as a human science and moving beyond the nature-culture dichotomy The unique collection of chapters seeks to advance the field of cultural psychology by reviving its historical legacies and arguing for its social responsibility in future historical developments It considers European legacies for cultural psychology as developed by leading figures such as Giambattista Vico Wilhelm Wundt Wilhelm Dilthey and Ernst Cassirer in order to provide insights into a long tradition of thinking from a cultural psychology perspective The book discusses historical pathways in the rise and repression of cultural psychology and its different historical forms arguing for the necessity of

decolonizing psychology securing a place for culture in it and developing an epistemology suited to humankind's meaning making processes in mutual shaping of psyche and culture. It provides an integrative and historical understanding of the subject and uses the diversity and heterogeneity within the field to offer critical reflections on its achievements. The thoroughly international group of contributors brings diverse analyses of self, body, emotions, culture, and society and considers the future of cultural psychology. The volume is a stimulating read for scholars and students of cultural and theoretical psychology and related areas including philosophy, anthropology, and history.

The Chinese National Character Lung-Ke Sun, 2002. This unique survey of the evolution of the modern Chinese national character incorporates a rich blend of history and theory as well as nation, gender, and film studies. It begins with the dawn of the concept of nation in China at the end of the Imperial period and follows its development from early Republican China to the present People's Republic, drawing on themes of national identity, Orientalism, racial evolution, and purity, cultural and gender roles, regional animosities, historical impediments, and more. The book also takes up the changing American perceptions of Chinese personality development and gender using materials from American popular culture.

Betrayal of the Innocents Timothy J. Mitchell, 1998. A pathology of sexual repression and Catholicism in Spain.

The Play of Mirrors Sylvia Caiuby Novaes, 2010-06-28. Focusing on the Bororo people of west central Brazil, this book addresses the construction of self identity through interethnic interaction. By presenting the images the Bororo have of themselves as well as the images of others who have interacted with them, Brazilian anthropologist Sylvia Caiuby Novaes argues convincingly that Bororo self images are constructed with the aid of a peculiar looking glass: it is in the images of others that they see themselves. Incorporating contributions from psychology, psychoanalysis, linguistics, and semiotics, *Play of Mirrors* focuses on symbols, images, discourse, and meanings rather than solely on the problem of acculturation. It thus reflects the thinking of a new generation of Brazilian anthropologists who have shifted their focus from native communities as isolated entities to an examination of their embeddedness within broader national and international arenas.

Cross-Cultural Explorations Susan B. Goldstein, 2015-10-14. This activities workbook is designed to facilitate students' understanding and application of major concepts and principles in the study of culture and psychology. The 90 activities in this workbook feature a wide range of engaging case studies, self-administered scales, mini-experiments, and library research projects addressing topics such as culture, race, ethnicity, gender, age, sexual orientation, disability, and social class. Background material is included for any concepts not commonly addressed in introductory texts. In addition, the workbook is supported by a substantial Instructor's Manual that includes discussion questions, video recommendations, variations by course level, and suggestions for expanded writing assignments.

Sport, Dance and Embodied Identities Noel Dyck, Eduardo P. Archetti, 2020-08-20. Sport and dance command the passions and devotion of countless athletes, dancers, and fans worldwide. Although conventionally thought to reside within separate social realms, these two embodied cultural forms are revealed in this benchmark volume to share a

vital capacity to constitute and express identities through their practiced movements and scripted forms Thus the work of choreographers and coaches along with the performances of dancers and athletes offer not merely entertainment and aesthetic accomplishment but also powerful means for celebrating existing social arrangements and cultural ideals or alternately for imagining and advocating new ones Drawing on a wide selection of sport and dance activities from around the world this book elucidates the ways in which embodied performances both mirror and reshape social life It traces for example how football salsa and tango can each be employed to articulate or rewrite national and gender identities Also examined are children s sport and the dynamics by which immigration and cultural integration along with the socialization of children and youth may be directed through the organization of community sport The volume investigates the marshalling of sport and dance in settings from Africa to Ireland as vehicles for framing moral issues that revolve around the appropriate use protection and exhibition of the body This innovative study establishes the paradoxical fashion in which dance and sport can unite certain people and communities while at the same time serving exclusionary and nationalistic purposes

Crime and Mentalities in Early Modern England Malcolm Gaskill, 2003-01-30 Crime and law have now been studied by historians of early modern England for more than a generation *Crime and Mentalities in Early Modern England* attempts to reach further than most conventional treatments of the subject to explore the cultural contexts of law breaking and criminal prosecution and to recover their hidden social meanings In this sense the book is more than just a history from below it is a history from within Conversely the book explores crime to shed light on the long term development of English mentalities in general To this end three serious crimes witchcraft coining and murder are examined in detail revealing new and important insights into how religious reform state formation secularisation and social and cultural change for example the spread of literacy and the availability of print may have transformed the thinking and outlook of most ordinary people between 1550 and 1750
