Swami Vivekananda and Non-Hindu Traditions Stephen E. Gregg, 2019-03-15 The Hindu thinker Swami Vivekananda 1863 1902 was and remains an important figure both within India and in the West where he was notable for preaching Vedanta Scholarship surrounding Vivekananda is dominated by hagiography and his misappropriation by the political Hindu Right This work demonstrates that Vivekananda was no simplistic pluralist as portrayed in hagiographical texts nor narrow exclusivist as portrayed by some modern Hindu nationalists but a thoughtful complex inclusivist The book shows that Vivekananda formulated a hierarchical and inclusivistic framework of Hinduism based upon his interpretations of a four fold system of Yoga It goes on to argue that Vivekananda understood his formulation of Vedanta to be universal and applied it freely to non Hindu traditions and in so doing demonstrates that Vivekananda was consistently critical of low level spirituality not only in non Hindu traditions but also within Hinduism Demonstrating that Vivekananda is best understood within the context of Advaitic primacy rather than Hindu chauvinism this book will be of interest to scholars of Hinduism and South Asian religion and of South Asian diaspora communities and religious studies more generally

Bangladesh Salahuddin Ahmed, 2004 A P H *Islamisation* A. C. S. Peacock, 2017-03-08 The spread of Islam and the

process of Islamisation meaning both conversion to Islam and the adoption of Muslim culture is explored in the twenty four chapters of this volume Taking a comparative perspective both the historical trajectory of Islamisation and the methodological problems in its study are addressed with coverage moving from Africa to China and from the seventh century to the start of the colonial period in 1800 Key questions are addressed What is meant by Islamisation How far was the spread of Islam as a religion bound up with the spread of Muslim culture To what extent are Islamisation and conversion parallel processes How is Islamisation connected to Arabisation What role do vernacular Muslim languages play in the promotion of Muslim culture The broad comparative perspective allows readers to develop a thorough understanding of the process of Islamisation over eleven centuries of its history Sufi Warrior Saints Harry S. Neale,2022-03-24 This book presents a thematic collection of hagiographical stories of Sufi saints often referred to as friends of Gods Despite the diverse wealth of Sufi works much of the rich global and centuries old literature of Sufi warrior saints has yet to be translated into English Examining hagiographical depictions of Sufi mujahids Neale corrects frequent misunderstandings of the term jihad in relation to Sufi thought and practice Using Sufi hagiography treatises travel narratives and Muslim histories each chapter comprises the lives of Sufi saints during significant historical events from the Crusades to the Mongol Invasion and in regions ranging from Islamic Spain to North Africa and India Using Persian and Arabic sources this compendium of translated hagiographies gives us a sense of the range themes and global dissemination of the Sufi literature on war and heroism

Robinson,2007-11-06 This new collection of essays explores questions of subjectification selfhood and identity in the contemporary Asia Pacific examining the way that migrant lives express the complex interplay of local and global processes in the post Cold War era and collectively questioning the novelty of the global age in this region

An Agrarian History of South Asia David Ludden,2011-02-17 Originally published in 1999 David Ludden s book offers a comprehensive historical framework for understanding the regional diversity of agrarian South Asia Adopting a long term view of history it treats South Asia not as a single civilization territory but rather as a patchwork of agrarian regions each with their own social cultural and political histories The discussion begins during the first millennium when farming communities displaced pastoral and tribal groups and goes on to consider the development of territoriality from the sixteenth to the nineteenth centuries Subsequent chapters consider the emergence of agrarian capitalism in village societies under the British and demonstrate how economic development in contemporary South Asia continues to reflect the influence of agrarian localism As a comparative synthesis of the literature on agrarian regimes in South Asia the book promises to be a valuable resource for students of agrarian and regional history as well as of comparative world history

Dimensions of Locality Georg Stauth,Samuli Schielke,2015-09-15 As a world religion Islam is based on a highly abstract and absolute notion of the transcendent which its followers establish and celebrate in a seemingly contradictory fashion at very specific sites Mecca Medina Jerusalem and the vast and complex landscapes of mosques and Muslim saints

shrines around the world Sacred locality has thus become a paradigm for the relationship between the human and the transcendent a model for urban planning regional networks imaginary spaces and spiritual hierarchies alike This importance of saintly places has however become increasingly complicated and troubled by reformist currents within Islam on the one hand and the emergence of modern archeology and anthropology on the other While they have often tended to posit the local in opposition to the universal in this volume islamologists anthropologists and sociologists offer new ways of thinking about the local the place and the conceptual landscapes and spaces of saints In this its eighth volume the Yearbook for the Sociology of Islam looks at different sites and regions around the Muslim world notably Burkina Faso Egypt Ethiopia and Southeast Asia not as localized versions of a universal Islam but as constitutive of one particular outlook of the universalizing order of a world religion

The Anarchy William Dalrymple, 2019-09-10 Finalist for the Cundill History Prize ONE OF PRESIDENT BARACK OBAMA S FAVORITE BOOKS OF THE YEAR NAMED A BEST BOOK OF THE YEAR BY The Wall Street Journal and NPR Superb A vivid and richly detailed story worth reading by everyone The New York Times Book Review From the bestselling author of Return of a King the story of how the East India Company took over large swaths of Asia and the devastating results of the corporation running a country In August 1765 the East India Company defeated the young Mughal emperor and set up in his place a government run by English traders who collected taxes through means of a private army The creation of this new government marked the moment that the East India Company ceased to be a conventional company and became something much more unusual an international corporation transformed into an aggressive colonial power Over the course of the next 47 years the company s reach grew until almost all of India south of Delhi was effectively ruled from a boardroom in the city of London The Anarchy tells one of history s most remarkable stories how the Mughal Empire which dominated world trade and manufacturing and possessed almost unlimited resources fell apart and was replaced by a multinational corporation based thousands of miles overseas and answerable to shareholders most of whom had never even seen India and no idea about the country whose wealth was providing their dividends Using previously untapped sources Dalrymple tells the story of the East India Company as it has never been told before and provides a portrait of the devastating results from the abuse of corporate power Bronze Medal in the 2020 Arthur Ross Book Award

Sulehria, 2025-07-24 This book explores how the 1947 Partition of British India not only divided people and territories but also deepened cultural rifts in postcolonial India Pakistan and Bangladesh especially between Hindus and Muslims The colonial divide and rule strategy which intensified religious divides laid the foundation for ongoing tensions Even as the 75th anniversary of Partition approached in 2022 this cultural segregation remains prevalent Over the years mass media such as films press and television have significantly evolved in India Bangladesh and Pakistan playing a pivotal role in manufacturing disseminating and perpetuating the narrative of cultural differences based on religion These cultural platforms have gained even more influence with the rise of majoritarian nationalism in both India and Pakistan The chapters in this volume analyse how language cinema and textbooks contributed to the divide instead of bridging gaps and why unresolved questions from the Partition continue to affect the region The chapters cover the communalization of Hindi and Urdu how textbooks in India Bangladesh and Pakistan narrate Partition the role of mass media in India and Pakistan in presenting Partition and the portrayal of Partition in films across India Bangladesh and Pakistan This book is aimed at students researchers and scholars interested in postcolonial studies South Asian history cultural studies and media analysis The chapters in this book were originally published as a special issue of *India Review* *The Varied Facets of History* Aniruddha Ray, 2011 Aniruddha Ray retired as Professor of History from the Department of Islamic History and Culture University of Calcutta Kolkata West Bengal Well known for his profound interest in historical research Aniruddha Ray has written extensively about Mughal administration technology and travelogues the society and culture of Medieval Bengal the economic history of the Sultanate and Mughal periods overseas trade and merchants and the French East India Company on the basis of a fine blending of his knowledge of Bengali English and French sources As a mark of esteem and affection scholars in India and abroad have joined hands to offer him this volume The festschrift reflects the range of Aniruddha Ray's interests and influences in some measure The theme of the present volume includes the contemporary effort within academia to question the traditional representation of Indian history and the attempts in various areas of study to de-centre the writing of history and to provide an alternative perspective to the history of fifteenth to nineteenth century India In this eclectic collection of essays one can see an innovative approach at work which raises interesting questions when one situates these ideas and the historical evidence within the big picture as one moves back and forth between the macro perspective and the micro history addressed in most of these essays With eminent historians of the subcontinent contributing to it *The Varied Facets of History* Essays in Honour of Aniruddha Ray throws new light on aspects of Indian history its sources and their interpretations the evolution of cultural

aspects like languages especially Hindi and Bengali archaeology painting technology trade and commerce and labour *The Chaos of Empire* Jon Wilson,2016-10-25 From the moment in the 1680s that the East India Company began to trade with the Mughal rulers of the port cities of Surat Madras Bombay Calcutta and Chittagong the story of the Indian subcontinent was changed forever Before its dissolution in 1857 the officers of the East India Company had under their command more than a quarter of a million troops and functioned not as a trading partner but a quasi imperial government whose monopolistic habits and trade preferments included the tax on tea that led directly to the American Revolution On its dissolution the Times reported It accomplished a work such as in the whole history of the human race no other company ever attempted and as such is ever likely to attempt in the years to come This was meant as a compliment but it concealed a much more brutal truth From the famine of 1770 in which one third of the people living in the state of Bengal perished to the Anglo Mughal wars and the later brutal repression of the Anglo Afghan Wars the story of the British in India was one of conflict and divide and rule relentlessly applied from the relative security of the world s most powerful naval vessels and the forts they supplied Interspersed between the major wars were numerous minor conflicts most lost to popular histories which underscore the continual violence of the imperial project In *The Chaos of Empire* Jon Wilson uses the everyday lives of administrators soldiers and subjects British and Indian to lift the veil of empire to show how British rule really worked Far from the orderly Raj that its officials sought to portray British rule in conquered India was chaotic and paranoid and led to a succession of unstable states in South Asia and across the world Most importantly empire in India created a huge gap between image and reality enabling a small number of people a social and political elite to project power across the world Among its legacies were continual cycles of hubristic state enterprise followed by massive failure up to and including the neo imperial adventures in Afghanistan and Iraq now Long after the end of empire *The Chaos of Empire* argues that we still try to live by the myths created by the Raj At a time when Prime Minister Narendra Modi is arguing that Britain should pay restitution for the damage done to the Indian subcontinent under British rule this comprehensive dynamic and fierce history of Britain s rule is timely provocative and immensely readable **Equity and Trusts in Sanskrit Jurisprudence** Christopher T. Fleming,2025-03-27 This monograph outlines the core principles of equity and trusts in Sanskrit jurisprudence Dharma shastra and traces their application in the practical legal administration of religious endowments throughout Indian history rendering the abstruse law of Hindu religious endowments accessible **The Persianate World** Nile Green,2019-04-09 A free open access ebook is available upon publication Learn more at www.luminosoa.org Persian is one of the great lingua francas of world history Yet despite its recognition as a shared language across the Islamic world and beyond its scope impact and mechanisms remain underexplored A world historical inquiry into pre modern cosmopolitanism *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical literary and social frontiers From Siberia to Southeast Asia and between London and Beijing this book shows how Persian gained

maintained and finally surrendered its status to imperial and vernacular competitors Fourteen essays trace Persian s interactions with Bengali Chinese Turkic Punjabi and other languages to identify the forces that extended Persographia the domain of written Persian Spanning the ages of expansion and contraction The Persianate World offers a critical survey of both the supports and constraints of one of history s key languages of global exchange

The Changing World of Caste and Hierarchy in Bengal Sudarshana Bhaumik, 2022-08-26 This book challenges the prevalent assumptions of caste hierarchy and social mobility in pre colonial and colonial Bengal It studies the writings of colonial ethnographers Orientalist scholars Christian missionaries and pre colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure but one which had room for spatial and social mobility The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized It delineates the linkages between sedantized peasant culture and the emergence of new agricultural castes in colonial Bengal

Moreover the author discusses a wide spectrum of issues like marginality and hierarchy the spread of Brahmanical hegemony the creation of deities and the process of Sanskritization popular Saivism the cult of Manasa in Bengal and the revolt of 1857 and the caste question Rich in archival sources this book will be an essential read for scholars and researchers of colonial history Indian history political sociology caste studies exclusion studies cultural studies social history cultural history and South Asian studies especially those interested in undivided Bengal
