Nielsen,2019-08-16 Experiences and Explanations of ADHD An Ethnography of Adults Living with a Diagnosis presents research on the lived experiences of those diagnosed with attention deficit hyperactivity disorder ADHD Drawing on in depth interviews with adults diagnosed with ADHD the book provides an examination of how the diagnosis is understood used and acted upon by the people receiving the diagnosis The book delves into the phenomenology of ADHD and uncovers the experiences of a highly debated diagnosis from a first person perspective It further considers these experiences within the context of our time and culture and contributes to a discussion of how to understand human diversity and deviance in contemporary society Studying both societal conditions behind the emergence of ADHD questions concerning everyday life with ADHD and interpretations of the diagnosis the book offers an analysis of the intertwinement of experiences of suffering and diagnostic categories This book will appeal to academics researchers and postgraduate students in the fields of cultural psychology and medical anthropology as well as those with an interest in the sociology of diagnoses **Distinguishing**

Disability Colin Ong-Dean,2009-08-01 Students in special education programs can have widely divergent experiences For some special education amounts to a dumping ground where schools unload their problem students while for others it provides access to services and accommodations that drastically improve chances of succeeding in school and beyond Distinguishing Disability argues that this inequity in treatment is directly linked to the disparity in resources possessed by the students parents Since the mid 1970s federal law has empowered parents of public school children to intervene in virtually every aspect of the decision making involved in special education However Colin Ong Dean reveals that this power is generally available only to those parents with the money educational background and confidence needed to make effective claims about their children s disabilities and related needs Ong Dean documents this class divide by examining a wealth of evidence including historic rates of learning disability diagnosis court decisions and advice literature for parents of disabled

children In an era of expanding special education enrollment Distinguishing Disability is a timely analysis of the way this expansion has created new kinds of inequality *Simplicity Parenting* Kim John Payne, Lisa M. Ross, 2010-08-31 Today's busier faster society is waging an undeclared war on childhood With too much stuff too many choices and too little time children can become anxious have trouble with friends and school or even be diagnosed with behavioral problems Now internationally renowned family consultant Kim John Payne helps parents reclaim for their children the space and freedom that all kids need for their attention to deepen and their individuality to flourish Simplicity Parenting offers inspiration ideas and a blueprint for change Streamline your home environment Reduce the amount of toys books and clutter as well as the lights sounds and general sensory overload Establish rhythms and rituals Discover ways to ease daily tensions create battle free mealtimes and bedtimes and tell if your child is overwhelmed Schedule a break in the schedule Establish intervals of calm and connection in your child's daily torrent of constant doing Scale back on media and parental involvement Manage your children's screen time to limit the endless deluge of information and stimulation A manifesto for protecting the grace of childhood Simplicity Parenting is an eloquent guide to bringing new rhythms to bear on the lifelong art of raising children

Narcoepics Hermann Herlinghaus, 2013-02-14 Narcoepics Unbound foregrounds the controversial yet mostly untheorized phenomenon of contemporary Latin American narcoepics Dealing with literary works and films whose characteristics are linked to illicit global exchange informal labor violence bare life drug consumption and ritualistic patterns of identity it argues for a new theoretical approach to better understand these narratives of intoxication Foregrounding the art that has arisen from or seeks to describe drug culture Herlinghaus comparative study looks at writers such as Gutierrez J J Rodriguez Reverte films such as City of God and the narratives surrounding cultural villains heroes such as Pablo Escobar Narcoepics shows that in order to grasp the aesthetic and ethical core of these narratives it is pivotal first to develop an aesthetics of sobriety The aim is to establish a criteria for a new kind of literary studies in which cultural hermeneutics plays as much a part as political philosophy analysis of religion and neurophysiological inquiry Framing Drug Use J.

Fitzgerald, 2015-06-29 This book examines the forces that shape psychoactive drug use The approach informed by poststructuralist semiotics culture phenomenology and contemporary theories of affect illuminates the connections between drugs bodies space economy and crime **An Alternative History of Hyperactivity** Matthew Smith, 2011-07-01 In 1973 San Francisco allergist Ben Feingold created an uproar by claiming that synthetic food additives triggered hyperactivity then the most commonly diagnosed childhood disorder in the United States He contended that the epidemic should not be treated with drugs such as Ritalin but instead with a food additive free diet Parents and the media considered his treatment the Feingold diet a compelling alternative Physicians however were skeptical and designed dozens of trials to challenge the idea The resulting medical opinion was that the diet did not work and it was rejected Matthew Smith asserts that those scientific conclusions were in fact flawed An Alternative History of Hyperactivity explores the origins of the Feingold diet revealing

why it became so popular and the ways in which physicians parents and the public made decisions about whether it was a valid treatment for hyperactivity Arguing that the fate of Feingold s therapy depended more on cultural economic and political factors than on the scientific protocols designed to test it Smith suggests the lessons learned can help resolve medical controversies more effectively Understanding ADHD Ken W. McCluskey,Andrea McCluskey,2001 This personal and moving account of raising a child with ADHD is remarkable for its humour real life examples and useful strategies for teachers and parents It is one of the few books to make the topic of ADHD truly come alive Understanding ADHD shows how parents and teachers can work together in a positive and productive fashion Topics addressed include identification causation theory treatment behaviour management teaching strategies self concept and prognosis **The Truth about ADHD and Other Neurobiological Disorders** Karen Meyers,Robert N. Golden,Fred Peterson,2010 Attention deficit hyperactivity disorder ADHD is a neurobiological disorder that is it is an illness of the nervous system caused by genetic metabolic or other biological factors **American Normal** Lawrence Osborne,2007-05-08 Asperger s Syndrome often characterized as a form of high functioning autism is a poorly defined and little understood neurological disorder The people who suffer from the condition are usually highly intelligent and as often as not capable of extraordinary feats of memory calculation and musicianship In this wide ranging report on Asperger s Lawrence Osborne introduces us to those who suffer from the syndrome and to those who care for them as patients and as family And more importantly he speculates on how with our need to medicate and categorize every conceivable mental state we are perhaps adding to their isolation their sense of alienation from the normal This is a book about the condition and the culture surrounding Asperger s Syndrome as opposed to a guide about how to care for your child with Aspergers Examines American culture and the positive and negative perspectives on the condition Some parents hope their child will be the next Glenn Gould or Bill Gates others worry that their child is abnormal and overreact Childhood & Adolescent Disorders Shirley Brinkerhoff,2014-09-02 Mental disorders can affect people of all ages and backgrounds But specific mental disorders may be more likely to affect certain groups of people than other groups For example some mental disorders like attention deficit hyperactivity disorder are more common in children and adolescents than in adults Dealing with the issues that surround mental disorders can be difficult for anyone However young people who must balance a mental disorder with other stresses like schoolwork extra curricular activities social pressures and physical changes may face additional challenges coping with mental disorders With promising discoveries and developments in psychiatric drug treatments doctors now have more ways than ever to help patients with childhood and adolescent disorders In this book you will read about Tracy who refused to hug or kiss her parents or even look them in the eye Kelly a child with mental retardation who needed schooling but couldn t stay in her classroom because she banged her head against the walls Tony whose undiagnosed and untreated ADHD led him into drug and alcohol abuse Carissa who was sent home from summer camp because of her tics and echolalia Learn how parents doctors and

psychiatrists were able to help each of these young people cope with their disorders and achieve their individual potential

Improving the Effectiveness of the Helping Professions Morley D. Glicken, 2005 The current practice of counselling psychotherapy and most helping professions often relies on clinical wisdom with little evidence of what actually works Clinical wisdom is often a justification for beliefs and values that bond people together as professionals but often fails to serve clients since many of those beliefs and values may be comforting but they may also be inherently incorrect Improving the Effectiveness of the Helping Professions An Evidence Based Approach to Practice covers the use of research and critical thinking to assist helping professionals make the most effective choices in treating clients with social and emotional problems The use of evidence based practice EBP comes at a time when managed care and concerns over health care costs coincide with growing concerns that psychotherapy case management and counseling may not be sufficiently effective ways of helping people in social and emotional difficulty

Gender in Real Time Kath Weston, 2018-10-24 After decades of innovative scholarship that galvanized a field and shattered a world of preconceptions the study of gender now appears to languish It has been a long while since the publication of a provocative and influential text like Judith Butler's Gender Trouble Kath Weston argues that the problem is one of time For too long gender studies has been preoccupied with the visual with ample attention given to issues of performativity and embodiment all at the expense of time Gender in Real Time makes a provocative and important new argument that will revolutionize the field of gender studies Introducing temporality into the equation and examining the ways gender exists Weston uses the tools of political economy the history of mathematics Darwinian evolution and a bit of physics to propel gender studies toward the future Startling new concepts like zero gender and the meaning of time claims are introduced Moreover the impact of our time sensitive society with its ever increasing need for speed and accelerated development is explored for its effect on the production of gender With chapter titles including Unsexed The Ghosts of Gender Past and The Global Economy Next Time this book offers a pioneering addition to the field that will forever change our notion of gender
