*Dostoevsky's Conception of Man* Peter McGuire Wolf, 1997-10 Dostoevsky's novels have contributed to a conception of man that reverberates in the conclusions of prominent twentieth century philosophical anthropologists Max Scheler Martin Heidegger Jean Paul Sartre Maurice Merleau Ponty and Albert Camus among others have admitted that the works of Dostoevsky had an influence on the manner in which they learned to conceive of human nature and the world in which humans live Our aim in this dissertation is to ask what is there in the novels of Dostoevsky concerning the nature of man of which certain philosophers could claim that in their philosophical conceptions of man they were positively influenced by him The main thesis is substantiated with a careful analysis of four novels Notes From the House of the Dead Zapiski iz mertvogo doma Notes From the Underground Zapiski iz podpol'ia Crime and Punishment Prestuplenie i nakazanie and The Brothers Karamazov Brat'ia Karamazovy These novels were chosen partly because I have come to the conclusion that these novels more than others concretely show in what sense the leading characters appear to

have made themselves be what they had freely chosen to be under the circumstances in which they had to live and that they were fully aware of the responsibility they had to bear for the implications and consequences of what they had thus decided. Based upon a close reading four interpretive chapters employ the most significant criticism from English Russian and French literary scholarship. Dostoevsky's philosophical conception of man is compared and contrasted with the conception that Scheler and Heidegger hold, i.e. that freedom is man's essence. Sartre's atheistic humanism and Camus' thought. The following conclusions are consonant with Dostoevsky's work: freedom is constitutive for the being or the mode of being; essence of man it is an inalienable duty; one must become oneself. Man strives to overcome himself and to exceed his freedom but in so doing invariably loses it. Man exceeds himself only in the sense that he realizes an ideal human possibility. The Dostoevskian man reveals not only the absence of human nature but also the enormous power which man possesses for achieving his ideal human possibility.

**The Orthodox Christian World** Augustine Casiday, 2012-08-21. Over the last century unprecedented numbers of Christians from traditionally Orthodox societies migrated around the world. Once seen as an oriental or eastern phenomenon, Orthodox Christianity is now much more widely dispersed and in many parts of the modern world one need not go far to find an Orthodox community at worship. This collection offers a compelling overview of the Orthodox world, covering the main regional traditions of Orthodox Christianity and the ways in which they have become global. The contributors are drawn from the Orthodox community worldwide and explore a rich selection of key figures and themes. The book provides an innovative and illuminating approach to the subject, ideal for students and scholars alike.

*The Power of Language and Rhetoric in Russian Political History* Richard S. Wortman, 2017-11-30. This book examines the rhetorical force of certain key words in the discourses of Russian state, political thought and literature. It shows how terms for cultured conduct, kulturnost, political affection, love, liubov, joy, radost, etc., personhood, lichnost, truth, pravda, and geographical integrity, tselnost, assumed almost sacral meaning. It considers how these terms took on a life of their own, imposing the designs of the Russian state and defining the hopes of educated society in the process. By exploring the usage of these words in a wide range of texts, Richard Wortman provides glimpses into the ideas and feelings of leading figures and thinkers in Russian history, from Peter the Great to Alexander Herzen and Nicholas Berdiaev, as well as writers like Mikhail Lermontov, Ivan Turgenev and Fedor Dostoevsky, giving a sense of the intellectual and emotional universe they inhabited. *The Power of Language and Rhetoric in Russian Political History* provides both students and scholars with a specific focus through which to approach Russian culture and history. This book is essential reading for students of Russian government, thought, literature and political action.

Offord,2010-04-01 The history of ideas has played a central role in Russia's political and social history. Understanding its intellectual tradition and the way the intelligentsia have shaped the nation is crucial to understanding the Russia of today. This history examines important intellectual and cultural currents: the Enlightenment, nationalism, nihilism, and religious revival, and key themes: conceptions of the West and East, the common people, and attitudes to capitalism and natural science in Russian intellectual history. Concentrating on the Golden Age of Russian thought in the mid nineteenth century, the contributors also look back to its eighteenth century origins in the flowering of culture following the reign of Peter the Great, and forward to the continuing vitality of Russia's classical intellectual tradition in the Soviet and post-Soviet eras. With brief biographical details of over fifty key thinkers and an extensive bibliography, this book provides a fresh, comprehensive overview of Russian intellectual history.

*The Imperial Russian Project* Alfred J. Rieber, 2018-01-18 A pioneer in the field of Russian and Soviet studies in the West, Alfred J. Rieber's five-decade career has focused on increasing our understanding of the Russian Empire from Peter the Great to the coming of the First World War. *The Imperial Russian Project* is a collection of Rieber's lifetime of work focusing on three interconnected themes of this time period: the role of reform in the process of state building, the interaction of state and social movements, and alternative visions of economic development. This volume contains Rieber's previously published classic essays, edited and updated, as well as newly written works that together provide a well-integrated framework for reflection on this topic. Rieber argues that Russia's style of autocratic governance not only reflected the personalities of the rulers but also the challenges of overcoming economic backwardness in a society lacking common citizenship and a cohesive ruling class. *The Imperial Russian Project* reveals how, during the nineteenth century, the tsar was obliged to operate within a changing and more complex world, reducing his options and restricting his freedom of action.

**The Ways of Russian Theology - Part II** Georges Florovsky, *Wealth without work, Pleasure without conscience, Science without humanity, Knowledge without character, Politics without principle, Commerce without morality, Worship without sacrifice.* <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> How to bring the life and activities of theological students to the Church? They should arouse religious and theological independence in them. Now let the guardians of the church, instead of scolding the academy, its professors and students, instead of intensely searching for heresies in their writings and misconduct in their behavior, indicate ways to introduce this condition. But life is not studied in a theological school. On the contrary, young people, already separated from their estates by life, are even more clogged from it by seminary pedagogy. Naturally, it's not life's fighters, zealots of truth, but dry theorists, artificially raised resonators, who will leave the school should they be given the message of life. Heal the brokenhearted, release the tormented to freedom. Rev. Anthony Khrapovitsky. True, these words were spoken a little later, in 1896, but they could have been spoken earlier. Here, pastoral jealousy is sharply confronted and diverges from official and official unbelief. Since the mid-80s, this pastoral awakening, the renewal of the pastoral ideal, has already been very noticeable. This was most evident in the St.

Petersburg Academy when Yanyshchev was replaced as rector by Arseniy Bryantsev vposl Archbishop of Kharkov The Academy Inspector was transferred from Kazan then still Archimandrite Anthony Vadkovsky 1846 1912 afterwards Metropolitan of St Petersburg He was a man of great cordial sympathy and benevolence Around him there is a circle of zealots of a monastic feat the so called Squad After a twenty year hiatus tonsure again begins in the student community The ascetic ideal at the same time internally merges with the pastoral vocation this was a new feature      *The American Annual Cyclopedia and Register of Important Events of the Year ...* ,1890
