## **Sacrifice We Offer Tridentine Dogma And Its Reinterpretation:**

**The Sacrifice We Offer** David Noel Power, 1987      **Sacrifice and Community** Matthew Levering, 2008-04-15 This book explores the character of the Eucharist as communion in and through sacrifice. It will stimulate discussion because of its controversial critique of the dominant paradigm for Eucharistic theology, its reclamation of St Thomas Aquinas's theology of the Eucharist and its response to Pope John Paul II's *Ecclesia de Eucharistia*. Argues that the Eucharist cannot be separated from sacrifice and rediscovers the biblical connections between sacrifice and communion. Timed to coincide with the Year of the Eucharist proclaimed by Pope John Paul II. Reclaims the riches of St Thomas Aquinas's theology of the Eucharist which had recently been reduced to a metaphysical defence of transubstantiation.      *Eucharist: A Guide for the Perplexed* Ralph N. McMichael, 2010-06-17

What is the Eucharist? This direct question would seem to yield an equally direct answer. However, as soon as we begin to answer it, we encounter an array of responses layered with various complexities. The answer is shaped by who answers: for example, a Roman Catholic, an Anglican, or a Baptist. Perhaps even the name Eucharist would be contested. Answers to this question would reflect not only confessional differences but also the spectrum of theological and liturgical perspectives across Christianity. In this book, Ralph McMichael analyses these complexities, perplexities raised by asking this question.

**Eucharist and Receptive Ecumenism** Kimberly Hope Belcher, 2020-10-15 This book bridges Catholic and Protestant theologies of the Eucharist using ritual practice and the act of giving thanks.      **Christian Faith** B. A. Gerrish, 2015-08-24 At the beginning of *Christian Faith*, B. A. Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage. The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied. With that, Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty-first century. As part of his framework, Gerrish includes a critical comparison of Calvin's *Institutes of the Christian Religion* and Schleiermacher's *Christian Faith* while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions. Gerrish's book provides a robust and penetrating revisioning of Christian theology, one that is thoroughly grounded in the classical traditions of the church.

**God Encountered: Understanding the Christian faith** Frans Jozef van Beeck, 1997 *God Encountered: A Contemporary Catholic Systematic Theology Volume One*      **Received by Christ** Celine S. Yeung, 2023-07-21 Huldrych Zwingli had an idea. To the shock of both Rome and fellow Protestant Martin Luther, he argued that Christ is not physically present in the Lord's Supper. Rather, the Eucharistic elements only represent Christ's body and blood. However, the unique basis undergirding his theory is often overlooked both by his contemporaries and later commentators. He specifically understood the Lord's Supper to be patterned after the Passover meal, the meal of the Old Testament. His memorialist understanding was in fact based on the memorialist nature of the Passover. By bringing in Jewish scriptures to bear on our understanding of the Lord's Supper,

his approach unlocks new questions that do not necessarily presuppose Greek metaphysics or a break from traditions This work seeks to continue to develop the method Zwingli left behind delineating a Eucharistic theology for the church today one that gives careful consideration to God's actions in relation to Israel and therefore sees the meal not metaphysically but historically and relationally

Sacraments of Initiation, Second Edition Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad ongoing agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made

for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field

McKenna, CM, 2022-01-07 In this remarkable book theologian and teacher Rev John McKenna examines our use of sign and symbol as it pertains to the study of the Eucharist the source and summit of the Church In clear and accessible language he clarifies the use of sign and symbol from anthropological phenomenological Old and New Testament perspectives He expertly analyzes historical backgrounds as well as current eucharistic theologies

Luther's First Front Robert C. Croken, 1990 Since the Reformation in the sixteenth century one of the basic divisions between Catholics and Protestants has been the concept of the mystery of the Eucharist and its meaning to modern Man In this new study Robert C Croken tries to explain why Luther s view of the Eucharist is pivotal to ecumenical dialogue among Christians The sacrificial dimension of the Eucharist is one of the tenets Luther opposed although this basic theme has often been neglected in recent research This study focuses on Luther s rejection of the Eucharist as a sacrifice and a good work a major doctrinal shift from previous Catholic belief Explaining the historical origins of the debate Robert Croken shows the reader where the Roman Catholic and Lutheran churches have grown apart and where they have found agreement This book is a systematic study of Martin Luther s writings in the context of his break with Rome and will be of value to scholars and theologians of modern Christianity searching for common ground in ecumenical discussions

**The Eucharist as Orikonso** Damian Onwuegbuchulam Eze, 2008 In this book the author relying on the research he carried out in Igboland Nigeria leads us to see the action of God s grace already active in the Igbo religious culture called Omenala Ndigbo before the coming of Christian missionaries and how these cultural values have prepared the people to receive the Gospel But as he points out these cultural values on which the Christian message ought to have been built from the beginning were grossly misunderstood and neglected The Igbo people are now mainly Christians But because the Gospel has not yet become their culture some of them have double allegiance to the doctrines of the Church and to the practices of Omenala Ndigbo The author opines that to build the Catholic Church in

Igbo land on a solid foundation the Eucharist must take the central place since the Eucharist makes the Church and is the source and summit of the life of the Church Thus the work which uses the analytical and hermeneutical method known as inculturation is on Eucharistic Ecclesiology from an Igbo perspective and will be useful for the Church both at the local and universal levels for self understanding and renewal ecumenism dialogue and mission
