*Romanticism and Postmodernism* Edward Larrissy,1999-08-28 The persistence of Romantic thought and literary practice into the late twentieth century is evident in many contexts from the philosophical and ideological abstractions of literary theory to the thematic and formal preoccupations of contemporary fiction and poetry Though the precise meaning of the Romantic legacy is contested it remains stubbornly difficult to move beyond This collection of essays by prominent critics and literary theorists was first published in 1999 and explores the continuing impact of Romanticism on a variety of authors and genres including John Barth William Gibson and John Ashbery while writers from the Romantic and Victorian period include Wordsworth Byron and Emily Bront Many critics have assumed that the forms and modes of feeling associated with the Romantic period continued to influence the cultural history of the the first half of the twentieth century This was the first book to consider the mutual impact of postmodernism and Romanticism

**Reading Without Maps?** Den Tandt Christophe (ed.),2005 Among the intellectual debates of the last forty years the critique of cultural canons has attracted the highest share of public attention stirring academic educational and media controversies on both sides of the Atlantic Postmodernism feminism postcolonialism and multiculturalism have refashioned the attitudes of educators and audiences towards cultural memory opening up curricula to subjects and traditions previously excluded from the humanities Predictably these new critical practices have triggered heated responses from commentators fearing that culture and education might thereby be deprived of their capacity to provide audiences and learners with proper groundings and landmarks The present volume gathers contributions that throw light on multiple aspects of this reconfiguration of cultural memory It brings together essays focusing on the dynamics of canon formation in several fields literature drama film and music Contributors examine how writers and communities find their bearings in a cultural landscape more complex than that previously envisaged by advocates of the Great Tradition Specifically the present essays throw light on the status of modernist writing drama in English or popular genres within the new canonical topography elaborated at the turn of the twenty first century    **Recherches Sémiotiques** ,1997    Canadian Periodical Index ,1995
