**What Kind of a Thing Is a Middle English Lyric?** Cristina Maria Cervone, Nicholas Watson, 2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and

or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets     *One Hundred Middle English Lyrics* Robert David Stevick,1994 Stevick s classic work remains the only text of its kind aimed at fostering the linguistic competence necessary to understand its poems in Middle English The wide range of lyric poems in the book are normalized to a Chaucerian dialect The introduction has been revised to take into account the scholarship and criticism published since the first edition appeared in 1964 It gives the background for the poetry explains how and why the texts are normalized and reviews significant critical scholarly studies of the works Included is a section on morphology and grammar that introduces students to the language of the lyrics and a section on the evolving meter of Middle English A fine piece of work Learned wide ranging and judicious John B Friedman author of *The Monstrous Races in Medieval Art and Thought* An impressive collection Stevick s decision to normalize the texts makes it highly accessible Ralph Hanna III University of California Riverside     *The Earliest Middle English Lyrics, 1150-1325* Stuart Hugh Louis Degginger,1953
