Australian Fiction as Archival Salvage Frances A. Johnson, 2015-11-16 Australian Fiction as Archival Salvage examines key developments in the field of the Australian postcolonial historical novel from 1989 to the present In parallel with this analysis A Frances Johnson undertakes a unique study of in kind creativity reflecting on how her own nascent historical fiction has been critically and imaginatively shaped and inspired by seminal experiments in the genre by writers as diverse as Kate Grenville Mudrooroo Kim Scott Peter Carey Richard Flanagan and Rohan Wilson Mapping the postcolonial novel against the impact of postcolonial cultural theory and Australian writers intermittent embrace of literary postmodernism this survey is also read against the post millennial history and culture wars which saw politicizations of national debates around history and fierce contestation over the ways stories of Australian pasts have been written Film, 1982 **Blicke, Begegnungen, Berührungen** Barbara Felsmann, 2002 The most important international children s film festival in the world celebrates its jubilee with this publication Read about the history and development of the Kinderfilmfest the changes which have taken place over the last 25 years within the children s film industry and 50 films that strongly characterize the festival Included is an index of the more than 500 films screened at the festival over the years *Cultural Encounters in Translated Children's Literature* Helen Frank, 2014-04-08 Cultural Encounters in Translated Children s Literature offers a detailed and innovative model of analysis for examining the complexities of translating children s literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children s literature with the translation of Australian children s fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children s books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature Who's who of Australian Writers ,1995 **Deutsche Nationalbibliographie und**

 Elspeth Tilley,2012-01-01 The story of the vulnerable white person vanishing without trace into the harsh Australian landscape is a potent and compelling element in multiple genres of mainstream Australian culture It has been sung in Little Boy Lost brought to life on the big screen in Picnic at Hanging Rock immortalized in Henry Lawson s poems of lost tramps and preserved in the history books tales of Leichhardt or Burke and Wills wandering in mad circles A world wide audience has also witnessed the many layered and oddly strident nature of Australian disappearance symbolism in media coverage of contemporary disappearances such as those of Azaria Chamberlain and Peter Falconio White Vanishing offers a revealing and challenging re examination of Australian disappearance mythology exposing the political utility at its core Drawing on wide ranging examples of the white vanishing myth the book provides evidence that disappearance mythology encapsulates some of the most dominant and durable categories at the heart of white Australian culture and that many of those ideas have their origin in colonial mechanisms of inequality and oppression White Vanishing deliberately and perhaps controversially reminds readers that while power is never absolute or irresistible some narrative threads carry a particularly authoritative inheritance of ideas and power relations through time **Börsenblatt für den deutschen Buchhandel** ,1993-03-19
