## **Manipulative Child How To Regain Control And Raise Resilient Resourceful And Independent Kids:**

**The Manipulative Child** Ernest W. Swihart, Jr., 1998-03-02 Why do so many of our kids raised in the most affluent nation on earth fail to thrive and strive and enter adulthood lacking appropriate and effective coping skills Drs Swihart and Cotter have come up with a revolutionary theory on why our kids are having such a tough time of it today It is because we allow our children to manipulate us and the world around them rather than teaching them how to respond to life and life's tough situations The result is that manipulative behavior is directly tied to low self esteem which only heightens its negative impact on kids families and the larger communities we live in The good news is that Drs Swihart and Cotter have created a radical and clinically proven program for breaking manipulative behavior and getting our kids back on track The program teaches parents to say no without feeling guilt to resist the urge to feel responsible for their child's happiness to view their children as emotionally competent and resilient and most importantly to realize that effective parenting means allowing your child to make mistakes and develop a sense of competence which leads to enhanced self esteem and an ability to live independently and successfully in the real world Drawing on their twenty five years in private practice the authors illustrate their program with examples of successful kids as well as case studies of how parents have regained control and effectively blocked their children's manipulative behavior The positive results will enlighten and even astound you and give you the tools needed to become a better parent

[The Manipulative Child](#) Ernest Walter Swihart, Patrick Cotter, 2000-04-01 Offers a groundbreaking and clinically proven program for blocking manipulative behavior and getting our kids back on track The authors tell parents why we've allowed ourselves to view our children as victims rather than as emotionally competent resilient and capable individuals how manipulative behavior and low self esteem are connected how your child's temperament influences his or her style of manipulative behavior what the 17 characteristics of a healthy child are how to regain control and become manipulative proof and how to step out of the way promote your child's independence and enjoy the fruits of value guided parenting
