Mozambique Bertil Egero, 1987-09-01 **Transforming Mozambique** M. Anne Pitcher, 2002-11-14 Many of the economic transformations in Africa have been as dramatic as those in Eastern Europe Yet much of the comparative literature on transitions has overlooked African countries This 2002 study of Mozambique s shift from a command to a market economy draws on a wealth of empirical material including archival sources interviews political posters and corporate advertisements to reveal that the state is a central actor in the reform process despite the claims of neo liberals and their critics Alongside the state social forces from World Bank officials to rural smallholders have also accelerated thwarted or shaped change in Mozambique M Anne Pitcher offers an intriguing analysis of the dynamic interaction between previous and emerging agents ideas and institutions to explain the erosion of socialism and the politics of privatization in a developing country She demonstrates that Mozambique s political economy is a heterogenous blend of ideological and institutional continuities and ruptures **The Origins of War in Mozambique** Funada-Classens Sayaka, 2012-04 The book focuses on an area called Ma a not because I believe Ma a represents the whole of Mozambique as such but because highlighting a specific area and people helps to understand the Mozambican history more deeply and comprehensively In any case it would be impossible to study the experience of all Mozambicans I am not attempting to write a history textbook of Mozambique or a glorious history of the liberation struggle but rather trying to fill a gap in the descriptions of contemporary Mozambican history by delving into matters that have not been written about before Mozambique on the Move , 2018-11-01 Being a first of its kind this volume comprises a multi disciplinary exploration of Mozambique s contemporary and historical dynamics bringing together scholars from across the globe Focusing on the country s vibrant cultural political economic and social world including the transition from the colonial to the postcolonial era the book argues that Mozambique is a country still emergent still unfolding still on the move Drawing on the disciplines of history literature studies anthropology political science economy and art history the book serves not only as a generous introduction to Mozambique but also as a case study of a southern African country Contributors are Signe Arnfred Bj rn Enge Bertelsen Jos Lu s Caba o Ana B nard da Costa Anna Maria Gentili Ana Margarida Fonseca Randi Kaarhus Sheila Pereira Khan Maria Paula Meneses Lia Quartapelle Amy Schwartzott Leonor Simas Almeida Anne Sletsj e Sandra Sousa Linda van de Kamp Markets within Planning Edmund V. K. Fitzgerald, Marc Wuyts, 2012-11-12 Published in 1988 Markets within Planning is a valuable contribution to the field of Economics *The Winds of History* Andreas Zeman, 2023-10-24 Based on extensive archival research in six countries and intensive fieldwork the book analyzes the history of the village of Nkhlongue on the eastern Mozambican shores of Lake Malawi from the time of its formation in the 19th century to the present day The study uses Nkhlongue as a microhistorical lens to examine such diverse topics as the slave trade the spread of Islam colonization subsistence production counter insurgency decolonization civil war ecotourism and matriliney Thereby the book attempts to reflect as much as possible on the generalizability and

global comparability of local findings by framing analyses in historiographical discussions that aim to go beyond the regional or national level Although the chapters of the book deal with very different topics they are united by a common interest in the social history of rural Africa in the longue dur e Contrary to persistent clich s of rural inertia in Africa the book as a whole underscores the profound changeability of social conditions and relations in Nkholongue over the years and highlights how people s room for maneuver kept changing as a result of the Winds of History the frequent and often violent ruptures brought to the village from outside

Potency of the Common Gert Melville, Carlos Ruta, 2016-09-26 The central question of the book is as follows To what extent does the community present a challenge in the life of the individual Well known international Philosophers historians anthropologists political scientists theologians and sociologists attempted to find explications by intercultural comparison

The Taming of Fate Macamo, Elisio S., 2017-07-05 This book is about how extreme situations appearing to have a destructive potential can actually be used to produce meaningful individual and social lives It is about the taming of fate This notion means and accounts for the ability of individuals and communities to rebuild their lives against all odds The book is based on case studies that draw from theoretical insights derived from the sociology of disasters It addresses some limitations of the sociology of risk chief among which is the rejection of the relevance of the notion of risk to the study of technologically non advanced societies The book argues that this rejection has deprived the study of the human condition of an important analytical asset The book claims that risk is a property of social action which can best be understood through the analytical scrutiny of its role in the historical constitution of social relations
