

grudgily—"but if you want it now, Miss, it's all right with me. Harriet was telling me she's been here before."

"Oh, she had! She has, yes. She stayed up in the main house for almost a week. She was on her way to Philadelphia. Remember, Papa? Remember what the Quakers wrote Mr. Stowe afterward? About how they'd hidden her in the Friends Meeting House."

"Harriet must have thought she was in clove," the Professor gave a quick chuckle. "Most times it's her eggs and potato-guts—places like that she's had to hide in. Has she ever told you, Ma'am, about how she helps the runaways?"

"No, she talked her birth," Malame said. "Miss Stowe has told us more . . . we know she is very true."

"You're right she is, Ma'am. Got a heart like an anvil as strong as one, too. I've worked with her—I know how she handles her people when any of 'em get a feel, or so scared, they want to give up. You see she does totter a pintel with her. And if anybody squawks about quining she just points it at 'em and says, 'Brother, keep going or die.'"

"Let war on to head!" Papa David's finger went to the faint line on his own forehead.

"Well, she got that when she was a slave on a plantation here in Maryland." The photographer's expressive face grew sober. "They treated her crab-no minds about that. Why, after all these years her shoulders show long lath scars. But the scar you're speaking of came from her trying to save a young fellow. The owner had just started to beat him when he managed to break loose and run. Harriet was there. She jumped in the owner's way so's to give the boy time. And that made the owner

at a skiff and he let fly with a two-pound scale right. Cocked her skull. Knocked her cold."

Timothy caught Rosemary looking at him with a what-should-you-guess in her eye. Now she'd must harder to see that all overmen were cruel monsters. He said a very lot.

"Ten months before she was up and around," the Professor was saying. "but then she started right in making for to get free. Oh, she's smart! Found her way out the swamp—got clean up North. But that wasn't right for Harriet. No more. She went straight back to see them how to get free."

"We do call her General?" Papa David asked.

"O, that's what John Brown called her. 'Cause she's a soldier-guy. But her own people call her *Mama*."

"It how says she can whistle exactly like a whippoorwill," Rosemary put in eagerly.

That's right. She goes from plantation to plantation say to do, giving 'em courage to run away. "When a whippoorwill calls," she tells 'em, "you come. I'll steer you to freedom . . . we'll follow the North Star."

"I wonder how many of the poor people got caught," he got out.

"No one! Not one single one," cried the Professor, "we study knows how many hundreds of passengers he's turned up North."

"Think of all those rewards, too," Timothy put in. "Wain't you think they might have caught her with them?"

"No Harriet—she's too smart for 'em," the Professor said. "I asked her once, wasn't you afraid of the boards? He no looked at me and panned the butt of her pintel.

web in the program a uniform grid spacing and constant time step are used and Δx their values are $\Delta x = 1/30$ with 31 grid points in the domain and $\Delta t = 1/500$ with 500 time steps reaching the final time of 1 second respectively the exact solution is evaluated with 10 terms in the summation

web of 107 fluid mechanics 6 ed kundu cohen and dowling exercise 4.1 let a one-dimensional velocity field be $u = u(x)$ with $v = 0$ and $w = 0$ the density varies as $2 \cos vt$ find an expression for $u(x, t)$ if $u(0, t) = 1$ solution 4.1 here $u = u(r, t)$ and the density field is given so a solution for $u(x, t)$ might be found from the
