Mrs O'Leary's Comet Cosmic Causes Of The Great Chicago Fire:

Mrs. O'Leary's Comet Mel Waskin,1985-01-01 Uses eyewitness accounts and astronomical records to argue that the great Chicago fire was caused by the earth's collision with a dying comet and compares the event with the unexplained 1908 explosion in Siberia *The Great Chicago Fire and the Myth of Mrs. O'Leary's Cow* Richard F. Bales,2015-09-01 The Great Chicago Fire of 1871 swallowed up more than three square miles in two days leaving thousands homeless and 300 dead Throughout history the fire has been attributed to Mrs O'Leary an immigrant Irish milkmaid and her cow On one level the tale of Mrs O'Leary's cow is merely the quintessential urban legend But the story also represents a means by which the upper classes of Chicago could blame the fire's chaos on a member of the working poor Although that fire destroyed the official county documents some land tract records were saved Using this and other primary source information Richard F Bales created a scale drawing that reconstructed the O'Leary neighborhood Next he turned to the transcripts more than 1 100 handwritten pages from an investigation conducted by the Board of Police and Fire Commissioners which interviewed 50 people over the course of 12 days The board's final report published in the Chicago newspapers on December 12 1871 indicates that commissioners were unable to determine the cause of the fire And yet by analyzing the 50 witnesses' testimonies the author concludes that the commissioners could have determined the cause of the fire had they desired to do so Being more concerned with saving their own reputation from post fire reports of incompetence drunkenness and bribery the commissioners failed to press forward for an answer The author has uncovered solid evidence as to what really caused the Great Chicago Fire **Great Chicago Fire, The** John Boda and Ray Johnson,2017 After an extremely hot and dry summer Chicago got a spark that grew into something unimaginable and unforgettable on Oct 8 1871 On Oct 8 1871 what became known as the Great Chicago Fire was a massive firestorm that moved faster than most men could run fueled by southwest winds of at least 30 miles per hour The heat was so intense it melted stone and brick buildings in minutes and turned sand on the lakeshore into glass A total of 18 000 buildings were destroyed About 100 000 were left homeless and over 300 lost their lives The very same day and nearly the same hour both the Lower Peninsula of Michigan and Peshtigo Wisconsin suffered similar firestorms Peshtigo's was even worse creating an event that came to be known as the Peshtigo Paradigm Many people believe the three fires forming a huge triangle of destruction were related as one with cosmic causes and it remains a mystery to this day Authors and native Chicagoans John Boda and Ray Johnson take you inside this historic happening *Natural Disasters in a Global Environment* Anthony N. Penna,Jennifer S. Rivers,2013-05-07 Natural Disasters in a Global Environment is a transnational global and environmental history of natural and man made disasters Detailed case studies of past and present events are presented in a historical narrative making use of the most recent scholarship Examines a range of disasters including volcanoes earthquakes floods landslides hurricanes famines and more Highlights the role of science in studying natural disasters and describes the mechanisms responsible for them Features a range of case studies

which can be used in conjunction with one another or as standalone examples Covers scientific material in a lucid and accessible style suited to undergraduate students or those outside of scientific disciplines Traces the transition of our understanding of disasters from religious and superstitious explanations to contemporary scientific accounts **Explaining the Evidence** David A. Lagnado,2021-10-21 How do we make sense of complex evidence What are the cognitive principles that allow detectives to solve crimes and lay people to puzzle out everyday problems To address these questions David Lagnado presents a novel perspective on human reasoning At heart we are causal thinkers driven to explain the myriad ways in which people behave and interact We build mental models of the world enabling us to infer patterns of cause and effect linking words to deeds actions to effects and crimes to evidence But building models is not enough we need to evaluate these models against evidence and we often struggle with this task We have a knack for explaining but less skill at evaluating Fortunately we can improve our reasoning by reflecting on inferential practices and using formal tools This book presents a system of rational inference that helps us evaluate our models and make sounder judgments *Term Paper Resource Guide to Nineteenth-Century U.S. History* Kathleen W. Craver,2008-06-30 Major help for those inevitable American History term paper projects has arrived to enrich and stimulate students in challenging and enjoyable ways Students from high school age to undergraduate will be able to get a jumpstart on assignments with the hundreds of term paper projects and research information offered here in an easy to use format Users can quickly choose from the 100 important events of the nineteenth century carefully selected to be appealing to students and delve right in Each event entry begins with a brief summary to pique interest and then offers original and thought provoking term paper ideas in both standard and alternative formats that incorporate the latest in electronic media such as iPod and iMovie The best in primary and secondary sources for further research are then annotated followed by vetted stable Web site suggestions and multimedia resources for further viewing and listening Librarians and faculty will want to use this as well Students dread term papers but with this book the research experience is transformed and elevated *Term Paper Resource Guide to Nineteenth Century U S History* is a superb source to motivate and educate students who have a wide range of interests and talents The provided topics on events people inventions cultural contributions wars and technological advances reflect the country s nineteenth century character and experience Some examples of the topics are Barbary Pirate Wars the Thomas Jefferson and Sally Hemings liaison Tecumseh and the Prophet the Santa Fe Trail Immigration in the 1840s the Seneca Falls Convention the Purchase of Alaska Boss Tweed s Ring Wyatt Earp and the Gunfight at O K Corral United States v Wong Kim Ark and Scott Joplin and Ragtime Music
