Mystical Power:

Mystical Power of the Psalms Nathaniel J. Harris, 2013-10-05 Wise men throughout the generations have recognized the power of the Psalms to get results from attracting love and wealth to overcoming adversaries to banishing the powers of evil Yet these are not mere incantations to be repeated with an empty heart Pay heed to these words and follow their advice closely To those who trust in the LORD and who faithfully hold his precepts great favours shall be granted *Mystical Power and Politics on the Swahili Coast* Nathalie Arnold Koenings, Nathalie Arnold, 2024 Traces changing visions of mystical power and authority on the island of Pemba whose people's reputed resistance to outside rule has shaped the national narratives of both Zanzibar and Tanzania For two centuries Pemba the second largest island of Zanzibar has been known by East Africans and outsiders alike as rich in dangerous knowledge Despite Pemba's reputation for piety and deep Islamic knowledge uchawi mystical work and power sometimes termed magic witchcraft or sorcery has long featured in diverse visions of their identity and as key to worldly power Today as traditional methods of securing agency are called into question and new ways proliferate the mystical world is an intensely conflicted realm where the nature of power ethical action and reality itself is continually reframed This luminous ethnography follows Pemba's notions of invisible and worldly power through the Zanzibar Revolution of 1964 the trials of multiparty democracy the rise of Islamic revival and intensifying neoliberalism Through an exploration of rural imaginings of power it argues that nations and the grammars that underwrite them are made in and by their peripheries which give the centre shape Highlighting the intersections of mystical practices religion and politics as such on the Swahili Coast the book contributes new perspectives to studies of the imagination power and religious transformation in Africa the Indian Ocean and the larger Islamic world **Images of Power** Hildred Geertz, 1994-01-01 Between 1936 and 1938 Gregory Bateson and Margaret Mead collected more than 1 200 paintings and sketches made by Balinese peasants [The Philosophy of Olodumare and Shango](#) Oswald Eckles Jr, 2005 The Philosophy of Olodumare and Shango is a work designed for the thinking man It details the thorny issue of black metaphysics Oswald Eckles Jr treats of the nature of the black man versus the other It contains some hard truths about the white and black races Oswald Eckles Jr penetrating insights into Western philosophy details where African Philosophy has gone wrong and the road African Philosophers should now take In The Philosophy of Olodumare and Shango Shango is the black man God is the white man and Shango and God are equal His philosophy of States states that the finite State is the infinite State whereas the finite is illusory and the infinite is real consequently man is two States in one The two States are one being called Shango Mr Eckles treats of Aesthetics and makes the attempt to integrate Black metaphysics with the metaphysics of the Western world by deconstructing the categories of Aristotle And creating a daring and original philosophy of mind **The Origins and Role of Same-Sex Relations in Human Societies** James Neill, 2009-01-14 This groundbreaking work draws on a vast range of research into human sexuality to demonstrate that homosexuality is not a phenomenon limited to a small minority of

society but is an aspect of a complex sexual harmony that the human race inherited from its animal ancestors Through a survey of the patterns of sexual expression found among animals and among societies around the world and an examination of the functional role homosexual behavior has played among animal species and human societies alike the author arrives at some provocative conclusions that a homosexual or bisexual phase is a normal part of sexual development that same sex relations play an important balancing role in regulating human reproduction that many societies have institutionalized homosexual traditions in the past and that the harsh condemnation of homosexuality in Western society is a relatively recent phenomenon unique among world societies throughout history This well researched and meticulously documented book is the first that integrates into a coherent picture the startling revelations about human sexuality coming from the recent work of sexual researchers psychologists anthropologists and historians The view that emerges of an ambisexual human species whose complex sexual harmony is being thwarted by the imposition of an artificial understanding of nature represents a new way of thinking about sex

African Religions & Philosophy John S. Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions Mbiti adds a new dimension to the understanding of the history thinking and life throughout the African continent Religion is approached from an African point of view but is as accessible to readers who belong to non African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion history philosophy anthropology or general African studies
