Necessity Among Us The Owen Sound General And Marine Hospital 1891 1985:

National Library of Medicine Current Catalog National Library of Medicine (U.S.),1992 *Bibliography of the History of Medicine* ,1993 **Canadian History: Confederation to the present** Martin Brook Taylor,Doug Owram,1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship

Cover **History of Medicine** Jacalyn Duffin,1999-01-01 Examining discoveries and disasters ideas patients and diseases in fields from anatomy to pharmacology to surgery this is a highly accessible overview of medical history as a vibrant component of intellectual and cultural history **The Lord for the Body** James William Opp,2005 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body In his innovative work James Opp explores the cultural practice of Protestant faith healing in Canada from its Victorian roots as an informal network of women sharing testimonies to its culmination in the organized professional campaigns of the twentieth century Framing the phenomenon of divine healing as a history of the body Opp provides a unique window onto the intersection of religion and medicine From newspaper accounts to criminal proceedings The Lord for the Body traces the reactions of ministers doctors and state authorities who denounced faith healing as dangerous to spiritual and physical health Undaunted by such attacks the faithful continued to seek healing through prayer a practice that operated as a powerful devotional observance and a point of resistance to modern medicine *Bedside Matters* Kathryn M. McPherson,Kathryn McPherson,2003-01-01 Nursing embodies the seemingly timeless characteristics of feminine healing caring and nurturing yet this archetypally female vocation also boasts a distinctive and complex history Bedside Matters traces four generations of Canadian nurses to explore changes in who became nurses what work they performed and how they organized to defend their occupational interests Whether in the apprenticeship method of the early twentieth century or in the present day restructuring of hospital work the position of nurses within the health care system has been structured by class gender and ethnic and racial relations Located between the doctors and untrained or subsidiary patient care attendants nurses have struggled to define the boundaries of their occupation vis vis other members of the health care hierarchy even as tensions between bedside and administrative nurses created divisions within nursing itself Focusing on the daily labours of ordinary nurses McPherson argues that the persisting sex typing of nursing as women s work has meant that gender consistently complicated nursing s easy categorization as either professional or proletariat Combining archival records and oral histories the author shows how nurses in their work activities and social and sexual attitudes sought recognition as skilled workers in the health care system Previously published by Oxford University Press *For Patients of Moderate*

Means David Paul Gagan, Rosemary Ruth Gagan, 2002 Between 1890 and 1910 scientific and technological innovation transformed the custodial Victorian charity hospital for the sick poor into the primary source of effective acute medical care for all members of society For the next half century hospitals coped with relentlessly escalating demands for accessibility by both medical indigents and a new clientele of patients able and willing to pay for hospitalization With limited statutory revenues and unpredictable voluntary support hospitals taxed paying patients through ever increasing user fees offering in return privacy comfort service and medical attendance in private and semi private wards that were more appealing to middle class patients than the stark and grudging service of the public wards *Medicine by Design* Annmarie Adams, In the history of medicine hospitals are usually seen as passive reflections of advances in medical knowledge and technology In *Medicine by Design* Annmarie Adams challenges these assumptions examining how hospital design influenced the development of twentieth century medicine and demonstrating the importance of these specialized buildings in the history of architecture At the center of this work is Montreal's landmark Royal Victoria Hospital built in 1893 Drawing on a wide range of visual and textual sources Adams uses the Royal Vic along with other hospitals built or modified over the next fifty years to explore critical issues in architecture and medicine the role of gender and class in both fields the transformation of patients into consumers the introduction of new medical concepts and technologies and the use of domestic architecture and regionally inspired imagery to soften the jarring impact of high tech medicine Identifying the roles played by architects in medical history and those played by patients doctors nurses and other medical professionals in the design of hospitals Adams also links architectural spaces to everyday hospital activities from meal preparation to the ways in which patients entered the hospital and awaited treatment Methodologically and conceptually innovative *Medicine by Design* makes a significant contribution to the histories of both architectural and medical practices in the twentieth century Annmarie Adams is William C Macdonald Professor of Architecture at McGill University and the author of *Architecture in the Family Way* *Doctors Houses and Women 1870-1900* and coauthor of *Designing Women: Gender and the Architectural Profession* *Caring and Curing* Dianne Elizabeth Dodd, Deborah Gorham, 1994 This collection of essays takes the reader from the early 19th century struggle between female midwives and male physicians right up to the late 20th century emergence of professionally trained women physicians vying for a place in the medical hierarchy The bitter conflict for control of birthing and other aspects of domestic health care between female lay healers particularly midwives and the emerging male dominated medical profession is examined from new perspectives Published in English **Andrew Fernando Holmes** Richard W. Vaudry, 2020-03-03 Physician surgeon natural historian educator Protestant evangelical Andrew Fernando Holmes's name is synonymous with the McGill medical faculty and with the discovery of a congenital heart malformation known as the Holmes heart He also played a critical role in the creation of a scientific culture in early nineteenth century Montreal Born in captivity at Cadiz Spain Holmes immigrated to Lower Canada in the first decade of the nineteenth century He arrived in a province that was

experiencing profound social economic and cultural change as the result of a long process of integration into the British Atlantic world A transatlantic perspective therefore undergirds this biography from an exploration of how Holmes s family members were participants in an Atlantic world of trade and consumption to explaining how his educational experiences at Edinburgh and Paris informed his approach to the practice of medicine medical education and medical politics This fascinating biography also examines Holmes s deepest religious convictions positioning them at the centre of his work and life

Struggle to Serve W.G. Godfrey, 2004-02-11 Godfrey focuses on one hospital and the communities it served but also provides an overview of local provincial and federal hospital policies revising the sometimes rose tinted picture of public and private acceptance and generosity He explores the relationship between the hospital s urban and rural constituencies and its French and English speaking patients demonstrating that increasing patient numbers and changing funding sources encouraged substantial growth in hospital services from 1895 to 1953 He details how one community s understanding of the role of the hospital changed over time to match that of hospital advocates board members and support groups such as the Ladies Aid demonstrating that hospital history is as much a study of politics and community persuasion as it is of internal therapeutic advances

Doing Good J.T.H. Connor, 2000-12-15 A history of Toronto s general hospital offers a window on a broader history of Upper Canada and Ontario over the last two centuries In this lively and authoritative account J T H Connor traces the hospital s two hundred year evolution as its mandate to do good forced constant adjustment to changing social medical and government attitudes Doing Good presents the hospital s history in three phases roughly speaking the first and second halves of the nineteenth century and the twentieth century From its conception in 1797 to the mid 1850s it did not actually acquire a home until 1819 nor occupy it until 1829 it functioned as a charitable institution catering to the sick poor It acted initially as a clearing station for sick immigrants it later was deeply affected by political events and became embroiled in the medical turmoil of Toronto in the 1840s and early 1850s In the second era from the mid 1850s it was a public charity receiving stable government funding and constructing a new home in eastern Toronto By the 1870s it was winning praise as a model hospital In the twentieth century it early on established close links with the University of Toronto building a vast and up to date new facility adjacent to the university which opened in 1913 Its international reputation as an academic hospital grew over the decades to include a high profile in research most notably in cancer and medical technology By the 1960s the institution was being run as a public hospital and the late 1990s saw its absorption into a hospital mega corporation the University Health Network along with three other nearby hospitals This work is the most comprehensive analysis of any Canadian hospital or health care institution yet to appear Using trustees minutes medical journals newspapers and government reports along with correspondence photographs and reminiscences of trustees nurses doctors and patients Connor offers acute observation and detailed analysis as well as compelling character studies and revealing anecdotes Broad in scope and meticulously executed Doing Good brings vividly to life the day to day routines the behind the

scenes intrigue and the people and politics of a great urban hospital Secondary Sources in the History of Canadian Medicine Charles G. Roland, Jacques Bernier, 2010-11-22 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One 1984 It contains references to Canadian medical historical literature published between 1984 and 1998 and also includes much additional material published prior to 1984 Finally it substantially enlarges the content of French language material Every effort has been made to be as inclusive as possible of articles theses book chapters and books both in English and in French relating to the history of medicine No single electronic source can replace this bibliography The contents are divided into three sections The first is a listing of material expressly biographical Section two lists material under a wide variety of subject headings related to medicine and the third is a complete listing of the authors who have contributed these articles Simply organized and easy to use this bibliography will be of value to historians archivists librarians and anyone interested in the history of medicine *Giving Birth in Canada, 1900-1950* Wendy Mitchinson, 2002-01-01 A fascinating account of childbirth rituals in the first half of the twentieth century from the initial diagnosis of pregnancy through childbirth who was present and where it took place to the definition of what constituted a normal birth *Canadian Books in Print* ,2000 *Subject Guide to Books in Print* ,1993 Bibliography of the History of Medicine U. S. Government Printing Office, 1991 Current Catalog National Library of Medicine (U.S.), 1992 Canadian Book Review Annual ,1990 **Social Policy and Practice in Canada** Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism's attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty
