Known for his keen insight and biblical understanding Dr R T Kendall offers an in depth verse by verse and lay friendly exposition of this matchless sermon. In fact he gives the most thorough and comprehensive interpretation of this passage to date. His compelling devotional style writing brings the words of Jesus to life and he shows readers how to put these teachings to work in their own lives. What attracts chemicals together to create new substances? What creates all living things, even worlds and galaxies? Sexual attraction and love. Thirsty for love, souls always wander in search of their other half. We always need another being who can fill us, who can supply with complete exactitude that which we lack, not only in the physiological aspect but also in

the psychosomatic and spiritual aspects Samael Aun Weor Unfortunately humanity still does not understand how life works In our current condition we are trapped in diverse psychological defects lust anger envy discontentment These cause us to misunderstand and misuse sex This is why we suffer The sexual energy can transform any person into an angel or into a beast Samael Aun Weor The power that can liberate us from suffering is our sexual power That is why all authentic spiritual traditions require the preservation and transmutation of the creative sexual power it is the basis of spiritual development When sexual power is harnessed by a couple in love it can create a new substance called Kundalini Pentecost the sacred fire of all religions This fire radiates spiritual light and is the divine weapon of the gods the vajra or thunderbolt that destroys the devils within us our psychological defects which are the causes of suffering In meditation with the consciousness awakened one can see and understand the causes of suffering liberating the consciousness from those cages Then the divine power of Kundalini can destroy them This is how step by step we liberate the light of consciousness from the darkness within us This new edition was fully revised and adds almost one hundred footnotes to explain key terms and concepts It is also in a larger size making it easier to read It includes illustrations glossary and index
