Paths To Progress Bread And Freedom In Developing Societies:

Paths to Progress William McCord, Arline McCord, 1986-06 An optimistic proposal for the solution to the fierce problems of the Third World nations by two acknowledged experts

Paths to Progress William Maxwell McCord, Arline McCord, 1986 Examines the areas in which investment in human resources have resulted in economic growth and political stability

Policy within and Across Developing Nations Stuart S Nagel, 2019-01-04 First published in 1998 policy WITHIN developing nations includes 1 Economic policy such as economic growth without inflation or sectors of unemployment 2 Technology policy such as encouraging the adoption of improved technologies for health energy transportation agriculture manufacturing and the environment 3 Social policy such as education facilities and merit treatment across ethnic groups genders age groups economic classes and geographical regions 4 Political policy such as multiple sources of ideas from different government levels branches interest groups and parties 5 Legal policy such as compliance with the law by street people business people and government people Policy ACROSS developing nations includes 1 International economic policy such as trade tariffs exchange rates and factory relocation 2 International technology policy such as patents copyrights trademarks and other aspects of technology transfer 3 International social policy such as immigration refugees and cross border ethnic friction 4 International political policy such as human rights and the role of sanctions 5 International legal policy such as the drug trade human rights business transactions torts and property rights across national boundaries

Natural Resource Policymaking in Developing Countries William Ascher, Robert G. Healy, 1990 Drawing on case studies developed over a two year period 1987-1989 by Fellows in the Program in International Development Policy at Duke University including experienced representatives from developing countries the World Bank and scholars the authors integrate the growing interest in environmental protection and resource conservation into the existing body of knowledge about the political economy of developing countries This book is about the links that tie resource use environmental quality and economic development and the way in which those links are affected by the distribution of income and resource ownership The links may be relatively simple as in the case of peasant farmers too poor to conserve resources for the future and with nothing to gain from sound environmental practices Or they may be very complex as the authors find when they demonstrate how achievement of higher incomes by the rich can increase environmentally destructive behavior by the poor Many of the links in some way involve rural land use whether for agriculture or forestry Natural Resource Policymaking in Developing Countries argues that the policies that matter are not merely those dealing with resources and the environment but a much broader set that includes income distribution and asset ownership

The Failure of Leadership in Africa's Development Ike Okonta, 2020-02-13 The Failure of Leadership in Africa s Development examines the dominant scholarly theories about the cause of Africa s underdevelopment and argues that none of the traditionally invoked causes an alleged black racial inferiority the colonial and neo colonial expropriation of Africa purported natural defects in Africa s geography is plausible as the explanation of the main cause of the continent s underdevelopment Rather the book argues that the chief cause of the continent s lag is the failure of leadership of Africa s ruling classes This failure of leadership the book shows is most evident in the historically traceable indifference of a long succession of Africa s ruling classes to the scientific and technological advances that were emerging from Europe and Asia during the most critical periods of Africa s history It was this indifference the book argues that set the stage for the subsequent conquest expropriation and technological stagnation of Africa The book recommends a blueprint for the continent s future development
