state actors in the provision of security and justice However recognition is not enough This Element promotes a radical re think of SSR in the context of conflict and war Guiding question for the considerations is how can security sector reform be set up and implemented to contribute to constructive and inclusive state society relations and build the path to long lasting peace This Element argues that a focus on functional equivalents minorities gender and human rights is key for the design implementation and success of SSR

Pathways of Peace and Being Essence: Keys to the Kingdom Jasmuheen,2013-07-04

PATHWAYS OF PEACE In order to move to the next prophesied level we need to unify in love and focus on paradigms that honour and respect all life There is no mystery to the experience of Divinity the workings of energy fields are quite simple What we focus on grows we all know this Some say that it is time also now to focus on pathways of peace on things that bind and unify us a new operating system The question is can we all go beyond all current day struggle to experience inner and outer lasting peace And if so how Is there a science or a system we can use for planetary refinement into peace Is there a step by step process that we can adopt The answer is yes and so we welcome you now to the poetic insights and pragmatics of our paths of peace

BEING ESSENCE In *Being Essence* the second part of this book Jasmuheen shares of her lifelong love affair with her Essence with Its ability to nourish us and bring our world into a state of permanent peace

Pathways to Peace James F. Leckman,Catherine Panter-Brick,Rima Salah,2014-11-21 Experts investigate the role of child development in promoting a culture of peace reporting on research in biology neuroscience genetics and psychology Can more peaceful childhoods promote a culture of peace Increasing evidence from a broad range of disciplines shows that how we raise our children affects the propensity for conflict and the potential for peace within a given community In this book experts from a range of disciplines examine the biological and social underpinnings of child development and the importance of strengthening families to build harmonious and equitable relations across generations They explore the relevance to the pursuit of peace in the world highlight directions for future research and propose novel approaches to translate knowledge into concrete action The contributors describe findings from research in biology neuroscience evolution genetics and psychology They report empirical evidence on children living in violent conditions resilience in youth and successful

Kashmir Sumantra Bose,2009-07-01 In 2002 nuclear armed adversaries India and Pakistan mobilized for war over the long disputed territory of Kashmir sparking panic around the world Drawing on extensive firsthand experience in the contested region Sumantra Bose reveals how the conflict became a grave threat to South Asia and the world and suggests feasible steps toward peace Though the roots of conflict lie in the end of empire and the partition of the subcontinent in 1947 the contemporary problem owes more to subsequent developments particularly the severe authoritarianism of Indian rule Deadly dimensions have been added since 1990 with the rise of a Kashmiri independence movement and guerrilla war waged by Islamist groups Bose explains the intricate mix of regional ethnic linguistic religious and caste communities that populate Kashmir and emphasizes that a viable framework for peace must take into account the sovereignty concerns of India and Pakistan and popular aspirations to self rule as well as conflicting loyalties within Kashmir He calls for the establishment of inclusive representative political structures in Indian Kashmir and cross border links between Indian and Pakistani Kashmir Bose also invokes compelling comparisons to other cases particularly the peace building framework in Northern Ireland which offers important lessons for a settlement in Kashmir The Western world has not fully appreciated the desperate tragedy of Kashmir between 1989 and 2003 violence claimed up to 80 000 lives Informative balanced and accessible Kashmir is vital reading for anyone wishing to understand one of the world s most dangerous conflicts

Operationalizing pathways to sustaining peace in the context of Agenda 2030 Food and Agriculture Organization of the United Nations,2022-08-01 Violent conflict has increased in recent decades The number of people worldwide who live in settings where conflict and violence are a daily occurrence is increasing By 2030 it is estimated that more than half of all people living in poverty will be found in countries affected by high levels of violence These conflict dynamics have a negative impact on households food security Agriculture natural resources food security and nutrition can be sources of peace or conflict crisis or recovery tragedy or healing Underpinning this is ensuring that the Organization s projects and interventions are conflict sensitive so that all stakeholders understand the dynamics of the diverse contexts in which FAO works Especially in fragile and conflict affected contexts we need to make sure that our work avoids contributing to divisions disputes and violent conflict and does no harm All that we do both by ourselves and through partnerships should follow this approach We can also identify where FAO can positively contribute to social cohesion and peace and these efforts must be rooted in robust theories of change FAO is placing

increasing emphasis on ensuring that our interventions make a positive contribution to peace an objective shared across the United Nations system and increasingly a requirement of our partners and donors The focus of this how to guide is to elaborate the pathways through which the Organization can optimize deliberate contributions to peace and inform the design adaptation and impact measurement of its interventions In recent years FAO has developed corporate tools guidance and training on conflict sensitivity and context analysis Operationalizing pathways to sustaining peace in the context of Agenda 2030 A how to guide is another crucial document in that series developed through collaboration between the FAO Conflict and Peace Unit and Interpeace in the context of a wider partnership between the two Organizations Following broad consultation across the Organization this document provides operational guidance and inspiration to FAO project and technical staff on how our work can enhance FAO s contributions to peace and how to measure those contributions It is part of an ongoing process which complements FAO s efforts through its Strategic Framework to support the transformation to more efficient inclusive resilient and sustainable agrifood systems for better production better nutrition better environment and better life leaving no one behind
