

Patrick Butler for the Defence

by
John Dickson Carr

It was a foggy November afternoon, and in the almost empty offices of a staid old firm of solicitors a young lawyer was entertaining his fiancée at tea.

They had been discussing the too ordinary tempo of a solicitor's life,

when, as the clock struck five, a small dark-skinned man appeared, wearing a green fez.

The visitor, a remarkable figure, told a remarkable story. At the end he said, "Unless justice is done there will be murder."

The young lawyer had sent his fiancée off. He himself was supposed to deliver a brief to Patrick Butler, that noted and colorful barrister. So he asked his confrere, in the office next door, to keep an eye on the visitor until he got back.

And at that moment the visitor died. He had—impossible though it seemed—been murdered.

The young lawyer realized that he was in an extremely precarious position. He raced off for help to the one man who could handle the situation, Patrick Butler.

This fast-moving, colorful and exciting novel is John Dickson Carr in his most entertaining form, and gives Patrick Butler a chance to star splendidly.

Justice Denoted Terry White, 2003-09-30 White provides the most comprehensive scholarly compilation of fictional work of legal suspense in existence. Primarily a bibliography of novels, it also annotates plays, scripts for film and television novelizations and short story collections about lawyers and the law. The idea behind the principal of selection is to disdain labels that reduce the variety of the legal thriller to a subgenre of mystery fiction. Novels that range from suspense thrillers through science fiction to the philosophical novel are included if justice is thematically important. It is therefore an eclectic reference source beyond a compilation of books about lawyers as protagonists. Its biographical and scholarly information about authors, major and minor, and their novels or works is traditionally encyclopedic and objective regardless of whether the work has been genre defined or worse deified as a classic or denigrated as a bestseller. Many novels included are long out of print but historically interesting for their contribution to the lineage of the courtroom drama, showing that the history of the legal thriller is one of the major branches of modern literature since the Age of Reason. The criterion of *Justice Denoted* moves beyond the fact of lawyers and courtrooms to select seminal novels like Robert Travers' *Anatomy of a Murder* as well as the romantic potboiler. Among the more than 2 000 works are the Perry Mason novels of Erle Stanley Gardner, John Mortimer's Rumpole series along with a staple of fiction by major authors of the genre like John Lescroart, Lisa Scottoline, Margaret Maron, Scott Turow and John Grisham. There are also individual works by Shakespeare, Goethe, Kafka, Camus and Twain delineating humanity's obsession with the law as its shining prop of civilization and alternative *le noir* of the common individual caught up in its maw. The appendices include comments by lawyer novelist Michael A. Kahn, a historical introduction to the legal thriller, craft notes by writers and prominent trial lawyers responding to author and lawyer questionnaires, bibliography of critical sources and articles, series characters and the legal terminology found in courtroom dramas and novels. An essential reference tool for scholars, researchers as well as the occasional reader of legal thrillers.

The Dark Side of G.K. Chesterton John C. Tibbetts, 2021-10-18 This is a critical study of the great British man of letters. G.K. Chesterton devoted to the novels, stories and essays that explore the darker fringes of his wild imagination. Everything is different in the dark, wrote Chesterton, perhaps you don't know how terrible a truth that is. Chesterton's use of the theme of gargoyles provides the thematic structure of the book. It covers the detective stories of Father Brown and others, the locked rooms and miracle crimes in his writing, his status as a science fiction writer and the riddles and paradoxes of three works: *Job*, *The Man Who Was Thursday* and the play *The Surprise*. This volume also includes an interlude about Chesterton and Jorge Luis Borges and a robust appendix including interviews about the formation of Ignatius Press's *Collected Chesterton*.

Securitization of Property Squatting in Europe Mary Manjikian,2013-05-29 Housing is no longer about having a place to live but about state pressures to conform norms and policies regarding citizenship and practices of surveillance and security Breaking new ground in the field of urban politics and international relations Securitization of Property Squatting in Europe examines and critiques legislative initiatives and examines governmental attempts to reframe urban property squatting as a crime and a threat to domestic security Using examples from France Netherlands Denmark and Great Britain Mary Manjikian argues that developments within the European Union including terrorist attacks in London and Madrid the rise of right wing extremist parties and the lifting of barriers to immigration and travel within the EU have had effects on housing policy which has become the subject of state security policy in Europe's urban areas In Denmark squatting has often had an ideological anti state character In Paris housing policy can be viewed as a type of identity politics with squatters as transnational actors who pose a transnational security threat In Great Britain the role of the press has created a drive to criminalize squatting Events in the Netherlands present two competing notions of what housing is a human right or an economic good produced by the free market
