Patriot Sage George Washington And The American Political Tradition

Bradley J. Birzer

Patriot Sage George Washington And The American Political Tradition:

Patriot Sage Gary L. Gregg, Matthew Spalding, 1999 This illustrated volume commemorates the life and legacy of America's Founding Father by bringing noteworthy scholars and authors together for a timely and topical consideration of Washington's enduring importance

The Political Philosophy of George Washington Jeffry H. Morrison, 2009-04-15 A political life of Washington Classical republican political culture and philosophy British liberalism revolution union and foreign affairs Protestant Christianity providence and the republic

George Washington's War Bruce Chadwick, 2005-02 How a young general shaped a nation a fascinating account of George Washington as he faced a war and came out as America's first president The American Revolution was won not on the battlefields but through the mind of George Washington One of America's founding fathers Washington's story is one that influenced how our entire nation was built A compulsively readable narrative and extensive history George Washington's War illuminates how during the war's winter months the young general created a new model of leadership that became the model for the American presidency Through hardships loss and the brutal conditions of war Washington led his men with cunning and grace demonstrating the strong and endearing qualities that led him to become America's most beloved patriot

God Wills it David O'Connell, 2017-07-05 God Wills It is a comprehensive study of presidential religious rhetoric Using careful analysis of hundreds of transcripts David O'Connell reveals the hidden strategy behind presidential religious speech He asks when and why religious language is used and when it is whether such language is influential Case studies explore the religious arguments presidents have made to defend their decisions on issues like defense spending environmental protection and presidential scandals O'Connell provides strong evidence that when religious rhetoric is used public opinion typically goes against the president the media reacts harshly to his words and Congress fails to do as he wants An experimental chapter casts even further doubt on the persuasiveness of religious rhetoric God Wills It shows that presidents do not talk this way because they want to Presidents like Jimmy Carter and George H W Bush were quite uncomfortable using faith to promote their agendas They did so because they felt they must God Wills It shows that even if presidents attempt to call on the deity the more important question remains Will God come when they do

American Cicero Bradley J. Birzer, 2023-06-20 Aristocrat Catholic Patriot Founder Before his death in 1832 Charles Carroll of Carrollton the last living signer of the Declaration of Independence was widely regarded as one of the most important Founders Today Carroll's signal contributions to the American Founding are overlooked but the fascinating new biography American Cicero rescues Carroll from unjust neglect Drawing on his considerable study of Carroll's published and unpublished writings historian Bradley J Birzer masterfully captures a man of supreme intellect imagination integrity and accomplishment Born a bastard Carroll nonetheless became the best educated and wealthiest Founder The Marylander's insight Birzer shows allowed him to recognize the necessity of independence from Great Britain well before most other Founders Indeed Carroll's analysis of the situation in the colonies in the run up to the

Revolution was original and brilliant yet almost all historians have ignored it. Reflecting his classical and liberal education, the man who would be called The Last of the Romans advocated a proper understanding of the American Revolution as deeply rooted in the Western tradition. Carroll even left his mark on the U S Constitution despite not assuming his elected position to the Constitutional Convention by inspiring the creation of the U S Senate. American Cicero ably demonstrates how Carroll's Catholicism was integral to his thought. Oppressed because of his faith, Maryland was the most anti Catholic of the original thirteen colonies. Carroll became the only Roman Catholic to sign the Declaration of Independence and helped legitimize Catholicism in the young American republic. What's more, Birzer brilliantly reassesses the most controversial aspects of Charles Carroll, his aristocratic position and his critiques of democracy. As Birzer shows, Carroll's fears of extreme democracy had ancient and noble roots, and his arguments about the dangers of democracy influenced Alexis de Tocqueville's magisterial work *Democracy in America*. American Cicero reveals why Founders such as John Adams assumed that Charles Carroll would one day be considered among the greats and also why history has largely forgotten him.

"In the Hands of a Good Providence" Mary V. Thompson, 2008 Mount Vernon researcher Mary Thompson endeavors to get beyond the current preoccupation with whether Washington and other founders were or were not evangelical Christians to ask what place religion had in their lives. Thompson follows Washington and his family over several generations, situating her inquiry in the context of new work on the place of religion in colonial and postrevolutionary Virginia and the Chesapeake. From publisher description.

Rethinking Obama Julian Go, 2011-11-16 Includes a selection of papers exploring Obama and the Politics of Race Religion. This title examines the complex dynamics of race relations and racial meaning in America under the Obama administration. It assesses the meanings of race and religion in America under the Obama administration.

Charles Lee Dominick Mazzagetti, 2013-10-01 Dominick Mazzagetti presents an engaging account of the life of Charles Lee, the forgotten man of the American Revolution. History has not been kind to Lee for good reason. In this compelling biography, Mazzagetti compares Lee's life and attributes to those of George Washington and offers significant observations omitted from previous Lee biographies, including extensive correspondence with British officers in 1777 that reflects Lee's abandonment of the Patriots' cause. Lee, a British officer, a veteran of the French and Indian War, and a critic of King George III, arrived in New York City in 1773 with an ego that knew no bounds and tolerated no rivals. A highly visible and newsworthy personality, he quickly took up the American cause and encouraged rebellion. As a result of this advocacy and his military skills, Lee was granted a commission as a major general in the Continental Army and soon became second in command to George Washington. He helped organize the defense of Boston, designed defenses for New York City, and commanded the force that repelled the British attack on Charleston. Upon his return to New York in 1776, Lee was considered by some leaders of the Revolution to be an alternative to George Washington, who was in full retreat from British forces. Lee's capture by the British in December 1776 put an end to that possibility. Lee's subsequent release in a prisoner exchange in 1778 and return to an

American command led to a dramatic confrontation with Washington on the battlefield at Monmouth New Jersey in June 1778 Washington chastised Lee publicly for ordering an unnecessary retreat Lee suffered the ignominy of a court martial conviction for this blunder and spent the remaining years to his death in 1782 attacking Washington Although few doubted Lee's loyalty at the time his actions at Monmouth fueled speculation that he switched sides during his imprisonment A discovery years after his death completed Lee's tale In 1862 a researcher discovered Mr Lee's Plan a detailed strategy for the defeat of the American rebels delivered to British General William Howe while Lee was held in captivity This discovery sealed Lee's historical record and ended all further discussion of his contributions to the American Revolution Today few people even realize that Fort Lee on the New Jersey side of the George Washington Bridge was named in his honor

Criminal Dissent Wendell Bird,2020-01-07 The prosecution of dissent under the Alien and Sedition Acts affected far more people than previously realized It also provoked the first battle over the Bill of Rights Wendell Bird provides the definitive account of a dark moment in U S history reminding us that expressive freedom and opposition politics are essential to a stable democracy Washington's Crossing the Delaware and the Winter at Valley Forge: Through Primary Sources John Micklos, Jr.,2013-01-01 In the winter of 1776 the Americans looked defeated but General George Washington did not give up His troops made a daring move crossing the Delaware River and winning two battles The next winter Washington's soldiers were cold and starving at Valley Forge How could poorly equipped and untrained men crush the mighty British Readers follow author John Micklos Jr as he explores two wild winters with Washington States' Rights and the Union Forrest McDonald,2000 As McDonald shows that concept needs to be examined if we are to understand its implications for current and future debates BOOK JACKET Crossing the Delaware and Valley Forge John Micklos, Jr.,2008-09-01 Readers will learn about two important winters with their hardships and triumphs Provided by publisher *George Washington: America's First Strategic Leader* Lt.-Colonel Alan L. Orr III USMC,2014-08-15 George Washington is widely recognized as one of the greatest strategic leaders in our nation's history His ability to lead a rag tag group of militia against the most powerful nation of his time appears to be unexplainable Through further analysis though one can begin to see a pattern appear that may explain why Washington's personal theory of war was so successful and hence explain why he became such a great strategic leader George Washington was not a particularly successful tactical leader and his experiences in leading troops culminated prior to the Revolutionary War at the Regimental level He went on to lead a productive life as a statesman in the Virginia legislature until the war with Britain erupted and he was cast into the role as America's first Commander in Chief His ability to comprehend the conflict for what it was as well as his ability to understand the will of his fellow countrymen allowed him to craft a wartime strategy for victory against the most powerful nation on earth at the time He kept the will of the people the tactics of the army and the desires of the state in balance to devise a strategy that would allow him to go down in history as America's first strategic leader *The Presidency and the Political System* Michael

Nelson,2020-07-17 The Presidency and the Political System showcases the best of presidential studies and research with top notch presidency scholars writing specifically for an undergraduate audience Michael Nelson rigorously edits each contribution to present a set of analytical yet accessible chapters and offers contextual headnotes introducing each essay Chapters represent the full range of topics institutions and issues relevant to understanding the American presidency covering approaches to studying the presidency elements of presidential power presidential selection presidents and politics and presidents and government This Twelfth Edition fully incorporates coverage of the Trump administration

Washington and Hamilton Tony Williams,Stephen F. Knott,2015-09-15 The true story of the friendship between founding fathers George Washington and Alexander Hamilton From the American Revolution to the nation s first tempestuous years this history book tells the largely untold story of the men who built America from the ground up and changed US history In the wake of the American Revolution the Founding Fathers faced a daunting task overcome their competing visions to build a new nation the likes of which the world had never seen As hostile debates raged over how to protect their new hard won freedoms two men formed an improbable partnership that would launch the fledgling United States George Washington and Alexander Hamilton Washington and Hamilton chronicles the unlikely collaboration between these two conflicting characters at the heart of our national narrative Washington the indispensable general devoted to classical virtues and Hamilton an ambitious officer and lawyer eager for fame of the noblest kind Working together they laid the groundwork for the institutions that govern the United States to this day and protected each other from bitter attacks from Jefferson and Madison who considered their policies a betrayal of the republican ideals they had fought for Yet while Washington and Hamilton s different personalities often led to fruitful collaboration their conflicting ideals also tested the boundaries of their relationship and threatened the future of the new republic From the rumblings of the American Revolution through the fractious Constitutional Convention and America s turbulent first years this captivating history reveals the stunning impact of this unlikely duo that set the United States on the path to becoming a superpower Ideal for fans of nonfiction best sellers Alexander Hamilton by Ron Chernow and The First Conspiracy by Brad Meltzer Washington and Hamilton is a story of American history political intrigue and a friendship for the people Russell Kirk Bradley J. Birzer,2015-11-09 Emerging from two decades of the Great Depression and the New Deal and facing the rise of radical ideologies abroad the American Right seemed beaten broken and adrift in the early 1950s Although conservative luminaries such as T S Eliot William F Buckley Jr Leo Strauss and Eric Voegelin all published important works at this time none of their writings would match the influence of Russell Kirk s 1953 masterpiece The Conservative Mind This seminal book became the intellectual touchstone for a reinvigorated movement and began a sea change in Americans attitudes toward traditionalism In Russell Kirk Bradley J Birzer investigates the life and work of the man known as the founder of postwar conservatism in America Drawing on papers and diaries that have only recently become available to the public Birzer presents a thorough

exploration of Kirk's intellectual roots and development. The first to examine the theorist's prolific writings on literature and culture, this magisterial study illuminates Kirk's lasting influence on figures such as T. S. Eliot, William F. Buckley Jr. and Senator Barry Goldwater, who persuaded a reluctant Kirk to participate in his campaign for the presidency in 1964. While several books examine the evolution of postwar conservatism and libertarianism, surprisingly few works explore Kirk's life and thought in detail. This engaging biography not only offers a fresh and thorough assessment of one of America's most influential thinkers but also reasserts his humane vision in an increasingly inhumane time.

Ronald Reagan and the Politics of Freedom Andrew E. Busch, 2001-08-28 In *Ronald Reagan and the Politics of Freedom*, Andrew E. Busch goes beyond economic and foreign policies to examine Reagan's understanding of statesmanship. Busch analyzes Reagan's conscious attempt to strengthen the separation of powers, federalism, and traditional rhetoric, and his efforts to revive the notion of limited government in a Constitutional Republic. In this important new study, Busch concludes that Ronald Reagan's politics of freedom, found in his discourse, policy, and coalition building, achieved significant successes in the 1980s and beyond.

Rethinking the Rhetorical Presidency Jeffrey Friedman, Sherna Friedman, 2013-09-13 In *The Rhetorical Presidency*, Jeffrey Tulis argues that the president's relationship to the public has changed dramatically since the Constitution was enacted, while previously the president avoided any discussions of public policy so as to avoid demagoguery. The president is now expected to go directly to the public using all the tools of rhetoric to influence public policy. This has effectively created a second Constitution that has been layered over and in part contradicts the original one. In our volume, scholars from different subfields of political science extend Tulis's perspective to the judiciary and Congress, locate the origins of the constitutional change in the Progressive Era, highlight the role of Theodore Roosevelt, Woodrow Wilson, and the mass media in transforming the presidency, discuss the nature of demagoguery, and whether, in fact, rhetoric is undesirable, and relate the rhetorical presidency to the public's ignorance of the workings of a government more complex than the Founders imagined. This book was originally published as a special issue of *Critical Review: A Journal of Politics and Society*.

Machiavelli's Liberal Republican Legacy Paul A. Rahe, 2005-11-14 The significance of Machiavelli's political thinking for the development of modern republicanism is a matter of great controversy. In this volume, a distinguished team of political theorists and historians reassess the evidence, examining the character of Machiavelli's own republicanism and charting his influence on Marchmont Nedham, James Harrington, John Locke, Algernon Sidney, John Trenchard, Thomas Gordon, David Hume, the Baron de Montesquieu, Benjamin Franklin, George Washington, John Adams, Thomas Jefferson, James Madison, and Alexander Hamilton. This work argues that while Machiavelli himself was not liberal, he did set the stage for the emergence of liberal republicanism in England. By the exponents of commercial society, he provided the foundations for a moderation of commonwealth ideology and exercised considerable, if circumscribed, influence on the statesmen who founded the American Republic. *Machiavelli's Liberal Republican Legacy* will be of great interest to political theorists, early modern historians, and

students of the American political tradition **Leo Strauss and His Legacy** John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss's students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss's own complete bibliography and that of one of his most revered students George Anastaplo
