Patrons And Painters Art In Scotland 1650176:

Patrons and Painters James Holloway, Scottish National Portrait Gallery, 1989 **Patrons and Painters** James Holloway, Scottish National Portrait Gallery, 1989 The Dictionary of Scottish Painters Julian Halsby, Paul Harris, 2001 This work contains alphabetically arranged entries on some 2000 painters both major and minor figures who have worked in Scotland since 1600 **George Devlin, RSW, RGI.** George Devlin, Scottish Gallery, 1994 *Scottish Painters* Walter Armstrong, 2017-10-21 Excerpt from *Scottish Painters A Critical Study* The bluntness amounting to brutality with which the accomplished writer I have quoted goes on to declare that no one who knows anything of the ethnography of art would suspect the people who now inhabit the lowlands of Scotland of inventing any form of architecture or of feeling much sympathy with it when introduced from abroad is quite gratuitous Forms of art never are invented they grow and history shows clearly enough that the rate of growth depends more upon conditions than character Wherever a thick population has dwelt in safety art has flourished an indigenous art when there has been none to borrow from a borrowed art when borrowing was easy Egypt Assyria India China Japan have each had a national art and in each case originality has been in proportion to isolation Wherever it has been easy to borrow there has been no originality Egyptian art was completely original because the Egypt in which it grew was completely alone in the world Assyrian art was less original because Assyria had more opportunities for borrowing Again the art of China was absolutely original because her isolation was absolute The geographical position of a country its relations with its neighbours and pure accident have a great deal more to do with originality in aesthetic matters than people suppose Looked at in this light few nations can be less fairly blamed for a want of the quality in question than the Scotch Sharing a small island with a strong and wealthy foe and what was perhaps still more fatal lying within arm's length of a powerful friend it would have been a miracle had her general forms of art not been one with theirs And so in fact they were But if we examine the abbeys and churches of mediaeval Scotland We find that neither in plan nor in elevation nor in detail are they copies of anything to be seen else where French and English elements are both to be found but they are used in a new way The national note is a combination of grace and vigour Which is quite peculiar No Scottish building of which we have any trace embodies any great poetical conception There is nothing to give even a distant echo of such things as the great portals of Amiens or the west front of Peterborough But in examples too many to count we find elegance of plan and arrangement combined with refined decoration I have dwelt upon all this partly because it seems to me that one cannot too often oppose the idea that any nation is condemned to aesthetic sterility by defects of constitution partly because on tendencies akin to those visible in this early architecture the distinctive features of Scottish art are founded even yet About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the
