Patrons Clients And Empire Chieftaincy And Over Rule In Asia Africa And The Pacific:

Patrons, Clients, and Empire Colin Walter Newbury, 2003 *Patrons, Clients, and Empire* Colin Newbury, 2003-01-02

Patrons Clients and Empire challenges the stereotypes of despotic imperial power in Asian African and Pacific colonies by analysing the relationship between rulers and rulers on both sides of the imperial equation It seeks an answer to the question how were European officials able to govern so many societies for so long Rejecting the usual explanations of collaboration and indirect rule this study looks to pre imperial structures in the indigenous hierarchies which supplied patrimonial models of chieftaincy for territorial government For nawabs chiefs emirs sultans and their officials and followers there were dynastic and economic advantages in accepting the terms of European over rule as well as the threat of deposition For European officials few in numbers and with limited military and financial resources there were ready made systems of local government that could be co opted reformed or left relatively untouched Both sides played politics as patrons and clients within a dual system of administration based on a mixture of force and self interest Surveying a wide variety of cases and employing a patron client model this study embraces pre colonial colonial and post colonial politics in new states It covers the chronology of early European dependency on local rulers the reasons for reversal of status among chiefs and administrators the longer period of political bargaining over access to local resources in terms of land labour and taxes and the ultimate fate of indigenous rulers in the period of party politics leading to independence *Patronage and Politics in the Victorian Empire* ,

Ma'afu, Prince of Tonga, Chief of Fiji John Spurway, 2015-02-23 Enele Ma afu son of Aleamotu a Tu i Kanokupolu grew up during a time of unprecedented social and political change in Tonga following the advent of Christianity Moving to Lau Fiji in 1847 when he was about 21 he skilfully exploited kinship links to establish a power base there and in eastern Cakaudrove His achievements were recognised in 1853 when his cousin King Tupou I appointed Ma afu as Governor of the Tongans in Fiji Acting as a putative champion of the lotu Ma afu undertook successful military campaigns elsewhere in Fiji and after adding the Yasayasa Moala and the Exploring Isles to the nascent Lauan state he was able to establish the Tovata ko Lau a union of Lau Cakaudrove and Bua with himself as head His power was formally recognised in 1869 when the Lauan chiefs appointed him as Tui Lau a new title in the polity of Fiji Ma afu was now able to challenge Cakobau for the mastery of Fiji After serving as Viceroy during the farcical planter oligarchy known as the Kingdom of Fiji Ma afu underwent a severe humiliation when in order to maintain his power in Lau he was forced to accede to the wishes of Fiji s other great chiefs in offering their islands to Great Britain He would end his days as Roko Tui Lau a subordinate administrator in the Crown Colony of Fiji presiding over a province characterised by corruption and maladministration but where the legacy of his earlier innovative land reforms has endured *Cooperation and Empire* Tanja Bührer, Flavio Eichmann, Stig Förster, Benedikt Stuchtey, 2017-08-01 While the study of indigenous intermediaries is today the focus of some of the most interesting research in the historiography of colonialism its roots extend back to at least the 1970s The contributions to this volume revisit Ronald

E Robinson's theory of collaboration in a range of historical contexts by melding it with theoretical perspectives derived from postcolonial studies and transnational history. In case studies ranging globally over the course of four centuries these essays offer nuanced explorations of the varied complex interactions between imperial and local actors with particular attention to those shifting and ambivalent roles that transcend simple binaries of colonizer and colonized.

Colonialism by Proxy Moses E. Ochonu, 2014-02-14 Moses E. Ochonu explores a rare system of colonialism in Middle Belt Nigeria where the British outsourced the business of the empire to Hausa Fulani subcolonials because they considered the area too uncivilized for Indirect Rule. Ochonu reveals that the outsiders ruled with an iron fist and imagined themselves as bearers of Muslim civilization rather than carriers of the white man's burden. Stressing that this type of Indirect Rule violated its primary rationale Colonialism by Proxy traces contemporary violent struggles to the legacy of the dynamics of power and the charged atmosphere of religious difference.

Empires of Intelligence Martin Thomas, 2008 Empires of Intelligence argues that colonial control in British and French empires depended on an elaborate security apparatus. Thomas shows the crucial role of intelligence gathering in maintaining imperial control in the years before decolonization.

Empires of the Weak J. C. Sharman, 2020-11-10 What accounts for the rise of the state, the creation of the first global system and the dominance of the West? The conventional answer asserts that superior technology, tactics and institutions forged by Darwinian military competition gave Europeans a decisive advantage in war over other civilizations from 1500 onward. In contrast Empires of the Weak argues that Europeans actually had no general military superiority in the early modern era. J. C. Sharman shows instead that European expansion from the late

fifteenth to the late eighteenth centuries is better explained by deference to strong Asian and African polities disease in the Americas and maritime supremacy earned by default because local land oriented polities were largely indifferent to war and trade at sea Europeans were overawed by the mighty Eastern empires of the day which pioneered key military innovations and were the greatest early modern conquerors Against the view that the Europeans won for all time Sharman contends that the imperialism of the late nineteenth and early twentieth centuries was a relatively transient and anomalous development in world politics that concluded with Western losses in various insurgencies If the twenty first century is to be dominated by non Western powers like China this represents a return to the norm for the modern era Bringing a revisionist perspective to the idea that Europe ruled the world due to military dominance Empires of the Weak demonstrates that the rise of the West was an exception in the prevailing world order

Fueling Sovereignty Naosuke Mukoyama,2024-03-21 Explores the impact of oil and other natural resources on the formation of sovereign states

British Royal Visits and Black Loyalism in Twentieth-century Southern Africa Hilary Sapire,2024-10-31 Exploring the entwined histories of British royal visits to Southern Africa in the twentieth century this book analyses the clashing voices of dissent and cheering crowds that accompanied royal tours providing insight into the shifting nature of Black loyalism Originating in the Indigenous empire loyalism of eighteenth century Canada Black loyalism encompassed loyalty to the British crown and a shared ideology of rights and entitlements which positioned the crown as a source of protection against white settler rapacity colonial violence and racial oppression However expressions of monarchical devotion were often double edged and addressed the fundamental contradiction of a crown that was both the source of rights and complicit in colonial conquest appropriation and misrule It was on royal occasions such as jubilees coronation celebrations and especially royal visits when the sovereign was literally amongst their more distant subjects that loyalist sentiment was rekindled reinvented and made directly relevant to the concerns of the day By analysing change and continuity in Black perspectives towards both the British and Indigenous African monarchy during these visits this book offers a fruitful way into examining an array of Black Southern African discourses on governance political values and cultural identities across the region It argues that the refashioning of British imperial monarchy in the twentieth century was profoundly shaped by African initiatives and re imaginings and provides valuable reading for those researching imperialism popular attitudes to the British monarchy in the twentieth century and the diverse politics and identities of southern Africa

Calibrating Colonial Crime Joshua Castellino,2024-07-04 This profound book by leading socio legal scholar Joshua Castellino offers a fresh perspective on the lingering legacies of colonization While decolonization liberated territories it left the root causes of historical injustice unaddressed Governance change did not address past wrongs and transferred injustice through political and financial architectures Castellino presents a five point plan aimed at system redress through reparations that addresses the colonially induced climate crisis through equitable and sustainable means In highlighting the structural legacy of colonial crimes Castellino provides insights into the

British Imperial History Simon Potter, 2017-09-16 Why did the British empire expand so dramatically in the late 18th and 19th centuries and why did it then collapse so rapidly after the Second World War Drawing on the latest scholarship from around the world British Imperial History provides a clear critical survey of the major concepts and theories used by historians of the modern British empire British Imperial History Brings together in a single volume the key ideas used by political economic social and cultural historians using a theoretical rather than a narrative approach Examines debates from the origins of British imperialism to decolonization Includes a chapter on the recent academic turn towards global history This informative guide to the historiography of the British empire is essential for all students of the topic and is equally useful for those studying historical approaches in general

Networks of Domination Paul K. Macdonald, 2014 In the nineteenth century European states conquered vast stretches of territory across the periphery of the international system This book challenges the conventional wisdom that these conquests were the product of European military dominance or technological superiority In contrast it claims that favorable social conditions helped fuel peripheral conquest European states enjoyed greatest success when they were able to recruit local collaborators and exploit divisions among elites in targeted societies Different configurations of social ties connecting potential conquerors with elites in the periphery played a critical role in shaping patterns of peripheral conquest as well as the strategies conquerors employed To demonstrate this argument the book compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century It also examines the contemporary applicability of the theory through an examination of the United States occupation of Iraq

Muslim Interpreters in Colonial Senegal, 1850-1920 Tamba M'bayo, 2016-07-01 This book investigates the lives and careers of Muslim African interpreters employed by the French colonial administration in Saint Louis Senegal from the 1850s to the early 1920s It focuses on the lower and middle Senegal River valley in northern Senegal where the French concentrated most of their activities in West Africa during the nineteenth century The Muslim interpreters performed multiple roles as mediators military and expeditionary guides emissaries diplomatic hosts and treaty negotiators As cultural

and political powerbrokers that straddled the colonial divide they were indispensable for French officials in their relations with African rulers and the local population As such a central concern of this book is the paradoxical and often contradictory roles the interpreters played in mediating between the French and Africans This book argues that the Muslim interpreters exemplified a paradox while serving the French administration they pursued their own interests and defended those of their local communities In doing so the interpreters strove to maintain some degree of autonomy Moreover this book contends that the interpreters occupied a vantage position as mediators to influence the construction of colonial discourse and knowledge because they channeled the flow of information between the French and the African population Thus Muslim interpreters had the capacity to shape power relations between the colonizers and the colonized in Senegal Intermediaries, Interpreters, and Clerks Benjamin N. Lawrance, Emily Lynn Osborn, Richard L. Roberts, 2006 Publisher description **Royal tourists, colonial subjects and the making of a British world, 1860-1911** Charles Reed, 2016-02-01 This electronic version has been made available under a Creative Commons BY NC ND open access license This study examines the ritual space of nineteenth century royal tours of empire and the diverse array of historical actors who participated in them It suggests that the varied responses to the royal tours of the nineteenth century demonstrate how a multi centred British imperial culture was forged in the empire and was constantly made and remade appropriated and contested In this context subjects of empire provincialised the British Isles centring the colonies in their political and cultural constructions of empire Britishness citizenship and loyalty
