Patterns And Portraits Women In The History Of The Reformed Church In America:

Patterns and Portraits Renée House, John Wayland Coakley, John Coakley, 1999 Volume 31 in the HSRCA series explores the important and largely unacknowledged contribution of women to the history of the Reformed Church in America Much more than an expose of untold stories this significant foray into women studies discusses the church's continuing struggle to define the role of women in ministry and begins at last to rewrite the whole story of this significant North American denomination

Letters to Hazel Mary L. Kansfield, 2004

From Mission to Church Eugene P. Heideman, 2001 In the nineteenth century the Scudders went to India with the avowed intention to confine their efforts to evangelistic preaching By the time the Reformed Church mission became a part of the Church of South India it was one of the most heavily institutionalized churches in the nation supporting agricultural and industrial efforts one of India's leading hospitals and numerous educational institutions This work by Eugene Heideman himself a missionary to India analyzes the causes for the shift in missionary emphasis in India illuminating in the process an intriguing yet little known component of the Reformed Church's witness

Albertus and Christina Elton J. Bruins, 2004 Drawing on previously compiled genealogical information archival records and family letters and photographs the authors have worked diligently to set the record straight regarding the Van Raaltes ancestors and descendants as well as to provide a document that future historians and genealogists can build on Beginning with a brief biographical sketch of their lives the book then traces Albertus and Christina's ancestors and tells the story of each of their seven children who lived to adulthood and their respective descendants Also included is an account of what happened to the Van Raalte papers and homestead

Women and Religion in Old and New Worlds Debra Meyers, Susan Dinan, 2014-06-11 This innovative collection brings together essays on women's religious experiences in both Europe and the Americas during the colonial era

By Grace Alone Donald J. Bruggink, Kim N. Baker, 2004 The story begins in Europe with a brief history of the church out of which the Reformation grew The scene then shifts to New Amsterdam in 1628 where a miniscule church survived the English conquest and eventually grew into the Reformed Church in America By Grace Alone follows its story into the twenty first century In addition to the sequential story of the Reformed Church's development there are vignettes of people involved in events small and great from the diary of a frail young woman who survived near calamity at sea but ended her life at eighty one the widow of the president of Queen's College to the boy from a farm in Iowa who built the Crystal Cathedral The reader will also be helped by timelines in every chapter as well as a glossary an index and many illuminating illustrations

The Netherlands Reformed Church, 1571-2005 Karel Blei, 2006

Saving Sinners, even Moslems Jerzy Zdanowski, 2018-10-09 This book investigates the Mission of the Reformed Church in America sent to Arabia in 1889 to preach the Gospel and which operated in the Persian Gulf until 1973 It also explores the various cultural encounters between missionaries and Muslims and discusses conversion and the place of Islam in the Protestant eschatology It maintains that John G Lansing from the New Brunswick Theological Seminary New Jersey who

founded the Arabian Mission deliberately dedicated the Mission to direct Muslim evangelism In terms of premillennialism Lansing moved Islam into the very centre of the theological discourse and presented the evangelization of Muslims as critical for Christ's Second Coming This made the Arabian Mission unique among the American Protestant Missions and placed the Church and missionaries between religious pluralism and the obligations of the Great Commission **Taking the Jesus**

Road LeRoy Koopman, 2005 The story of the Reformed Church's relationship to Native Americans is one of persistence and optimism in the face of overwhelming odds Unfortunately it's also a story that reflects all too well the sad record of U.S. dealings with America's first inhabitants In this frank well balanced account of the Reformed Church's Native American missions and churches LeRoy Koopman recounts the spiritual journey of the Jesus Road shared by Reformed and Native American Christians Taking the Jesus Road outlines how government and church often cooperated with each other in implementing shifting policies that allowed the native peoples little or no voice in their own destiny Koopman does not hesitate to point out how early missionaries often equated the Christian faith with white culture but also gives credit for their tireless efforts to seek a better life for the people they were serving Much of the book is devoted to the stories of particular ministries including the six Native American congregations that remain a vital part of the Reformed Church today **Bound**

by Bondage Nicole Saffold Maskiell, 2022-08-15 During the first generations of European settlement in North America a number of interconnected Northeastern families carved out private empires In Bound by Bondage Nicole Saffold Maskiell argues that slavery was vital to the rise of this aristocracy and those dynastic families built prestige through mastery creating manorial estates and expansive trading networks from the Northeast to the South the Caribbean and beyond Members of this elite class including mayors governors and presidents were among the largest slaveholders in the North with power aspirations uniting Anglo and Dutch families Using original research drawn from archives across several continents in multiple languages Maskiell traces the origins of these private empires from the founding of Northeastern colonies to the eve of the Revolutionary War She reveals a multiracial Early America where enslaved traders woodsmen millers maids bakers and groomsmen developed expansive networks of their own that challenged the power of the elites helping in escapes in trade and in simple camaraderie Bound by Bondage adds a new chapter to early North American history linking Northern networks of merit to slavery **Columbia Rising**

John L. Brooke, 2013-08-01 In Columbia Rising Bancroft Prize winning historian John L. Brooke explores the struggle within the young American nation over the extension of social and political rights after the Revolution By closely examining the formation and interplay of political structures and civil institutions in the upper Hudson Valley Brooke traces the debates over who should fall within and outside of the legally protected category of citizen The story of Martin Van Buren threads the narrative since his views profoundly influenced American understandings of consent and civil society and led to the birth of the American party system Brooke's analysis of the revolutionary settlement as a dynamic and unstable compromise over the balance of power offers a window onto a local struggle that

mirrored the nationwide effort to define American citizenship *Journal of Women's History*, 2002 **Books between Europe and the Americas** L. Howsam, J. Raven, 2011-05-25 A ground breaking collection by thirteen distinguished international scholars this volume presents fresh perspectives on the exchange of culture and ideas between isolated communities through books and correspondence and offers pioneering comparisons between the northern Atlantic and that of Spanish and Portuguese territories further south Equipping the Saints James Hart Brumm, 2000 A team of RCA pastors and scholars recounts the engaging story of the Synod of New York during the past two centuries Each chapter not only explores past ministerial successes of the Synod but also looks at the vibrant multicultural work of the Synod today The volume is completed with a pictorial view of the Synod of New York and a chronological listing of participating congregations
