of Life Writing Margaretta Jolly,2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company Boys in Khaki, Girls in Print Jane Potter,2005-10-06 Modernist texts and writings of protest have until now received most of the critical attention of literary scholars of the First World War Popular literature with its penchant for predictable storylines melodramatic prose and patriotic rhetoric has been much maligned or at the very least ignored Boys in Khaki Girls in Print Women s Literary Responses to the Great War redresses the balance It turns the spotlight on the novels and memoirs of women writers many of whom are now virtually forgotten that appealed to a British reading public hungry for amusement news and above all encouragement in the face of uncertainty and grief The writers of 1914 18 had powerful models for interpreting their war as a consideration of texts from the Anglo Boer War of 1899 1902 shows They were also bolstered by wartime publishing practices that reinforced the sense that their books whether fiction or non fiction were not simply light entertainment but a powerful agents of propaganda Generously illustrated Boys in Khaki Girls in Print is a scholarly yet accessible illumination of a hitherto untapped resource of women s writing and is an important new contribution to the study of the literature of the Great War

autobiographical writing in England from the medieval period to the digital era Beginning with an extensive introduction that charts important theoretical contributions to the field this History includes wide ranging essays that illuminate the legacy of English autobiography Organized thematically these essays survey the multilayered writings of such diverse authors as Chaucer Bunyan Carlyle Newman Wilde and Woolf Written by a host of leading scholars this History is the definitive single volume collection on English autobiography and will serve as an invaluable reference for specialists and students alike

The Journal of Narrative Technique ,1984 **Modes of Thought** David R. Olson,Nancy Torrance,1996-09-28 Modes of Thought addresses a topic of broad interest to the cognitive sciences Its central focus is on the apparent contrast between the widely assumed psychological unity of mankind and the facts of cognitive pluralism the diverse ways in which people think and the developmental cultural technological and institutional factors which contribute to that diversity Whether described in terms of modes of thought cognitive styles or sensibilities the diversity of patterns of rationality to be found between cultures in different historical periods between individuals at different stages of development remains a central problem for a cultural psychology Modes of Thought brings together anthropologists historians psychologists and educational theorists who manage to recognise the universality in thinking and yet acknowledge the cultural historical and developmental contexts in which differences arise

Archetypes of Conversion Anne Hunsaker Hawkins,2014-03-07 This sensitive and imaginative study explores the phenomenon of conversion in three major religious autobiographies the Confessions of Saint Augustine Grace Abounding by John Bunyan and Thomas Merton s The Seven Storey Mountain These three religious figures could hardly be more different and yet as Hawkins shows their conversion narratives are remarkably similar in patterns of theme figure and action This archetypal approach is particularly appropriate to spiritual autobiography which is less concerned with self than with soul and which seeks to relate the individual to a divine reality that is universal and timeless Hawkins approach to these texts is sophisticated yet free of jargon and doctrinaire psychologizing Here archetypal analysis becomes not an end in itself but also a means to investigate the complexity of the individual text Hawkins archetypal analysis serves not only to discern continuities but also to explore cultural ideological and psychological variations Adapting William James s distinction between crisis and lysis conversion Hawkins shows that the conversion paradigm central to each autobiography determines its religious meaning its formal structure and its archetypal emphases The author approaches the phenomena of conversion with a blend of critical detachment and imaginative sympathy She is always careful to honor the authenticity of religious experience and for this reason her commentary succeeds in illuminating it The result is an interdisciplinary study that will appeal to the psychologist and literary critic as well as the student of religion But these narratives of conversion offer paradigms that apply to any deeply significant change for they are of interest and concern to all readers seeking to find meaning in their lives Hawkins makes us feel both the immediacy and the permanence of these texts for What is human in them speaks to what is human in us *Telling Women's Lives* Judy Long,1999-05 For centuries

the great man format and masculine discourse of biography and autobiography have eclipsed women If we accept this history we remain ignorant of Lady Sarashina a Japanese woman of the Heian period whose book survives from the 11th century We overlook Margaret Cavendish and Dame Julian two early English autobiographers And we fail to consider sufficiently slave narratives oral histories or lesbian coming out stories Telling Women's Lives assesses existing traditions of autobiography and biography in search of a method capable of conveying the distinctive content of women's lives while retaining the tenor of feminine subjectivity Drawing on feminist research methodologies of the past two decades as well as anthropology and sociology Long paves the way for the formulation of an emergent feminist methodology for telling women's lives This highly original study seeks to revise and recreate the genre so as to accommodate a feminine discourse narrator reader and subject The messiness of women's lives the daily work and detail that men have programmatically excluded acquires new meaning as Long develops here an innovative theory of sociobiography **The Literary Uses of the Rhetoric of Science**, 1989

Minnesota Law Review, 1997 **Pattern and Meaning in History (RLE Social Theory)** H.P. Rickman, 2020-07-26 One may state Dilthey's significance in most general fashion by characterizing his work as the first thorough going and sophisticated confrontation of history with positivism and natural science Dilthey's sweep was universal he strove to reduce to order the multifarious realms of knowledge the conflicting traditions of cultural study that he had embraced Thus Dilthey laid out a program that no mortal and certainly no one whose mind had been formed in the third quarter of the nineteenth century could hope to bring to completion Yet despite its inconclusiveness Dilthey's work exerted enormous influence The distinction he had drawn between natural and cultural science became standard for historians and to a lesser extent for social scientists also After Dilthey historians no longer needed to apologize for the unscientific character of their discipline they understood why its methods could never be quite the same as those of natural science And the contemporary tradition of intellectual history grew naturally out of Dilthey's teaching H Stuart Hughes Mysticism and Vocation James R. Horne, 2006-01-01 We tend to think that a person who is both reasonable and moral can have a good life What constitutes a life that is not only good but superlative or even marvellous or holy Those who have such lives are called sages heroes or saints and their lives can display great integrity as well as integration with a transformative Spiritual Presence Does it follow that saints are perfect people Is there a common vision that impels them to seek holiness In a controversial interpretation of mysticism Horne suggests that there is no single formula for the meaning of life and no one story that displays it to us Mysticism rather than being just a visionary perception then becomes a problem solving process that brings about a creative transformation of the personality at a critical stage in life He suggests also that saints may be imperfect morally and describes true saints as double minded they are serious in a playful way Mysticism and Vocation illuminates our understanding of saintly lives by explicating their mystical characteristics and extending discussions of mysticism to explain its role in active lives In discussing important decisions that go beyond conventional morality it adds to recent philosophical

arguments by Charles Taylor Alasdair MacIntyre Iris Murdoch Bernard Williams and others to the effect that morality should be defined more broadly to deal with the human condition This book will be of interest to students of philosophy and religious studies in both graduate and undergraduate programs
