The Palgrave Handbook of Gothic Origins Clive Bloom, 2022-01-01 This handbook provides a comprehensive overview of research on the Gothic Revival The Gothic Revival was based on emotion rather than reason and when Horace Walpole created Strawberry Hill House a gleaming white castle on the banks of the Thames he had to create new words to describe the experience of gothic lifestyle Nevertheless Walpole's house produced nightmares and his book. The Castle of Otranto was the first truly gothic novel with supernatural sensational and Shakespearean elements challenging the emergent fiction of social relationships. The novel's themes of violence tragedy death imprisonment castle battlements dungeons fair maidens secrets ghosts and prophecies led to a new genre encompassing prose theatre poetry and painting whilst opening up a whole world of imagination for entrepreneurial female writers such as Mary Shelley Joanna Baillie and Ann Radcliffe whose immensely popular books led to the intense inner landscapes of the Bronte sisters Matthew Lewis's The Monk created a new gothic atheistic decadent perverse necrophilic and hellish The social upheaval of the French Revolution and the emergence of the Romantic movement with its more intense and often atheistic self absorption led the gothic into darker corners of human experience with a greater emphasis on the inner life hallucination delusion drug addiction mental instability perversion and death and the emerging science of psychology. The intensity of the German experience led to an emphasis on doubles and schizophrenic behaviour ghosts spirits mesmerism the occult and hell. This volume charts the origins of this major shift in social perceptions and completes a trilogy of Palgrave Handbooks on the Gothic combined they provide an exhaustive survey

Public Lunatic Institutions of England Part I Robert J. Wycherley,2017-12-20 In the published literature of madness and its institutional management the earliest English institutions for the mad have tended to be treated as part of a bad old days from which progress has been painfully made to modern knowledge and humanitarian treatment of mental illness This book takes issue with this simplistic account and re examines these early institutions using their own records It suggests that the institutional governors while somewhat distanced from day to day institutional management were relatively well intentioned and that the institutions were far more complex in their organisation and functioning than has previously been reported
