records much of Vanuatu s early material culture It is the result of two years of field work by Swiss anthropologist Felix
Speiser between 1910 and 1912 Speiser attempted to collect everything that could still be obtained of the objects
constituting Vanuatu s native culture Ethnology of Vanuatu presents culturally and historically significant photographs and
drawings by Speiser assembled during the expedition along with color photos taken in the Basel Museum which taken
together represent the Speiser collection Through the use of Speiser s collection of cultural photographs and illustrations it
has been possible to revive certain art forms thought to have already vanished **Patterns of Paradise** Anne Leonard, John

Wakefield, Henry Chalmers, 1932 **Where the Waves Fall** K.R. Howe, 2023-05-03 Where the Waves Fall 1984 centres the
stories of the Pacific Islanders and how they were affected by European explorers and colonisers in this unique account of
human settlement and cultural interchange in the Pacific islands It follows the fortunes of the seafarers who discovered
island after island in the world s largest ocean traces the development of their civilisations and examines in depth the
interaction between them and the newcomers European explorers traders beachcombers missionaries merchants who from
the sixteenth century came in an increasing series of waves The book s framework enables the author to throw new light on
hitherto isolated events Novel suggestions are advanced as to why some islands became kingdoms in the earlier years of
European contact and why others did not and of how and why missionaries were accepted on some islands but not on others
Nor does Professor Howe shrink from provocative and at times controversial arguments concerning the ambitions and
strategies of island leaders and indeed the overall nature and extent of the initiatives taken by the islanders The Exhibits

Prize winning book uses an emigration roster that lists every person officially known to have left Britain for America from December 1773 to March 1776 to reconstruct the lives and motives of those who emigrated to the New World
