The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 *The Schooling of Girls in Britain and Ireland 1800 1900* presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes *Greater Boston* Sam Bass Warner,2001 Selected byChoice magazine as an Outstanding Academic Title A study of the economic and social characteristics of greater Boston s cities and suburbs Boston Globe Affection combined with wisdom is the strength of the book Warner s acute eyes and ears allow him to realize a lasting portrayal of greater Boston at the beginning of the twenty first century Warner s observations about the metropolitan future have national implications H Urban **British Education Index** ,1999 **Resources in Education** ,2001-10 Literary Market Place ,2000 Literary Market Place 2001 is the ultimate insider s guide to the U S book publishing industry covering every conceivable aspect of the business In two easy to use volumes it provides 50 sections organizing everyone and everything in the business from publishers agents and ad agencies to associations distributors and events Over 14 500 listings in all featuring names addresses and numbers key personnel activities specialties and other relevant data e mail addresses and Web sites and more Some 24 000 decision makers throughout the industry listed in a separate Personnel Yellow Pages section in each volume Thousands of services and suppliers equipped to meet every publishing need or requirement More than 400 new entries to this edition plus thousands of updated listings throughout LMP 2001 leaves no stone unturned in connecting you with the publishing firm service or product you or your patrons need It s completely revised and updated to help Publishers locate other publishers free lancers agents printers wholesalers manufacturers and more Suppliers find names and numbers of potential publishing customers Job seekers locate contact names addresses and phone numbers throughout the industry Booksellers get publisher ordering and shipping information Writers locate publishers for their works Librarians provide patrons with the reference source they need to find their way through the publishing industry *The English Catalogue of Books [annual]* ,1899 Vols for 1898 1968 include a directory of publishers *Patterson's American Education* Homer L.
