The Twittering Machine Richard Seymour, 2020-09-22 A brilliant probe into the political and psychological effects of our changing relationship with social media Former social media executives tell us that the system is an addiction machine We are users waiting for our next hit as we like comment and share We write to the machine as individuals but it responds by aggregating our fantasies desires and frailties into data and returning them to us as a commodity experience The Twittering Machine is an unflinching view into the calamities of digital life the circus of online trolling flourishing alt right subcultures pervasive corporate surveillance and the virtual data mines of Facebook and Google where we spend considerable portions of our free time In this polemical tour de force Richard Seymour shows how the digital world is changing the ways we speak write and think Through journalism psychoanalytic reflection and insights from users developers security experts and others Seymour probes the human side of the machine asking what we re getting out of it and what we re getting into Social media held out the promise that we could make our own history to what extent did we choose the nightmare that it has become

The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee s career as a professional artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee s sales reviews of his exhibitions the artist s published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee s transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee s success first in the war weary modernist art world of 1916 18 and then in the pseudo revolutionary art world of 1919 20 This work is a critical challenge to the myth of Klee s art and to the hagiography of his artistic personality Werckmeister s historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come

The Psychology of Rhythm, Matter and Art Gregory Minissale, 2021-03-11 This is a multidisciplinary study of the rhythms depicted in abstract art the body s rhythms and neural oscillations

The Klee Universe Paul Klee, 2008 There are artists whose m tier is the observation or documentation of the world and artists who set the world aside altogether to build their own visionary cosmology designing its constituent parts from scratch as a personal mythology relayed in motifs Paul Klee 1879 1940 was such an artist as his aphorism Art does not reproduce the visible rather it makes visible testifies and The Klee Universe addresses his work from this perspective In 1906

Klee noted in his diary All will be Klee and in 1911 as the encyclopedist of his cosmos he began to meticulously chronicle his works in a catalogue that by the time he died was to contain more than 9 000 items Here in the fashion of an Orbis Pictus or a Renaissance emblem book Klee s oeuvre is made legible as a cogent entirety in thematic units address the human life cycle from birth and childhood to sexual desire parenthood and death music architecture theater and religion plants animals and landscapes and finally darker destructive forces in the shape of war fear and death The Klee Universe reimagines the artist as a Renaissance man an artist of great learning whose cosmos proves to be a coherent system of ideas and images Paul Klee 1879-1940 was born and died in Switzerland though he never obtained Swiss citizenship Technically of German nationality he taught at the Bauhaus from 1921 to 1926 alongside Wassily Kandinsky Franz Marc and others Seventeen of his works were included in the Nazi s infamous 1937 Munich exhibition of degenerate art Continuum Encyclopedia of Animal Symbolism in World Art Hope B. Pettman,2016-01-11 It is often argued that contemporary media homogenize our thoughts and actions without us being fully aware of the restrictions they impose But what if the problem is not that we are all synchronized to the same motions or moments but rather dispersed into countless different emotional micro experiences What if the effect of so called social media is to calibrate the interactive spectacle so that we never fully feel the same way as other potential allies at the same time While one person is fuming about economic injustice or climate change denial another is giggling at a cute cat video And two hours later vice versa The nebulous indignation which constitutes the very fuel of true social change can be redirected safely around the network avoiding any dangerous surges of radical activity In this short and provocative book Dominic Pettman examines the deliberate deployment of what he calls hypermodulation as a key strategy encoded into the contemporary media environment His account challenges the various narratives that portray social media as a sinister space of synchronized attention in which we are busily clicking ourselves to death This critical reflection on the unprecedented power of the Internet requires us to rethink the potential for infinite distraction that our latest technologies now allow
