J. Pollitt,1990 This book a companion volume to Professor Pollitt s The Art of Rome Sources and Documents published by the Press in 1983 presents a comprehensive collection in translation of ancient literary evidence relating to Greek sculpture painting architecture and the decorative arts Its purpose is to make this important evidence available to students who are not specialists in the Classical languages or Classical archaeology The author s translations of a wide selection of Greek and Latin texts are accompanied by an introduction explanatory commentary and a full bibliography An earlier version of this book was published twenty five years ago by Prentice Hall In this new publication Professor Pollitt has added a considerable number of new passages revised some of his earlier translations and presented the texts in a different order which allows the reader to follow more easily the development of sculpture and painting as perceived by the ancient writers The new and substantial bibliography organised by topics as they appear in the book emphasises works that deal directly with the literary sources or that supplement our knowledge of the personalities and monuments described in the sources This collection will be welcomed by students and teachers of Greek art who have long been in need of an authoritative and reliable sourcebook for their subject      Pausanias Susan E. Alcock,John F. Cherry,Jaś Elsner,2023 Pausanias s Guide to Greece has long been the key source for archaeologists and art historians researching the monuments and landscape of ancient Greece These writings reveal its impact on modern ideas regarding ancient Greece      Gods of Ancient Greece Jan N. Bremmer,2010-07-30 This collection offers a fresh look at the nature and development of the Greek gods in the period from Homer until Late Antiquity The Greek gods are still very much present in modern consciousness Although Apollo and Dionysos Artemis and Aphrodite Zeus and Hermes are household names it is much less clear what these divinities meant and stood for in ancient Greece In fact they have been very much neglected in modern scholarship Bremmer and Erskine bring together a team of international scholars with the aim of remedying this situation and generating new approaches to the nature and development of the Greek gods in the period from Homer until Late Antiquity The Gods of Ancient Greece looks at individual gods but also asks to what extent cult myth and literary genre determine the nature of a divinity and presents a synchronic and diachronic view of the gods as they functioned in Greek culture until the triumph of Christianity      Josephus Geographicus Yuval Shahar,2004 Why did ancient historians include geographical descriptions in their historical works How does the spatial description fulfill its goal In this book Yuval Shahar discusses these two questions showing that the answers depend on the particular historian and the genre in which he is writing He analyzes and compares the presentation of geographical space in the writings of Herodotus Thucydides Polybius and Strabo with selected illustrations from early Latin historiography It is clear from this that Flavius Josephus consciously

and definitively follows the generic approach of Polybius and Strabo Moreover Josephus descriptions of parts of the Land of Israel are structured in the same way as the descriptions in Strabo s Geography and reflect a hidden dialogue between Josephus and Strabo Awareness of these generic characteristics enables a new reading of some of Josephus most famous descriptions such as Jotapata Gamala and Masada and establishes his credibility
