With the increasing popularity of Perennial Gardening it is easy to see that many individuals enjoy the healthy benefits of gardening whether they are planting annuals, perennials, vegetables, flowers or shrubs. What is most interesting about perennial gardening is that it is a very versatile type of gardening and there is a lot of variety in the plants that can be grown using this method of gardening. A Perennial Gardener does not have to buy seeds each year as they do with annuals and others can enjoy the process of Perennial Gardening year after year. This article will give you some ideas of what types of plants can be planted using a Perennial Gardening guide. One type of plant that can be found in a Perennial Gardening guide is the flower fixation. The flower fixation or ramblers is a type of shrub that will grow in the soil year round. There are different forms of the flower fixation such as ramblers with small blooms or ramblers with large blooms. Other Perennial Gardeners include the California poppy and the California bluebell. Perennial vegetables are wonderful additions to any Perennial Gardening garden and some of the best ones are those that grow from seeds. One of the best ways to grow seeds to include in your Perennial Gardening is by starting with tomatoes. Tomatoes are a very good choice because they are both easy to take care of and will always produce berries when planted. There are also many choices for Perennial Vegetables such as Bell peppers, broccoli, cabbage, cilantro, lettuce, peas, spinach, squash, turnips and many more. Many of the vegetables mentioned here can grow on their own if they are properly taken care of but it is also possible to grow many other plants as well. Perennial gardens are a

good way to save money as well as time by planting seeds only once and then just wait for them to grow With Perennial Gardening you do not have to pay a lot of attention to the plants as they will typically grow right up until the next growing season This means that you can basically plant anything in your garden and it will grow throughout the year If you want a specific color of a flower or color of the soil you can grow the plants that are in your area all year This is also very helpful if you are having problems getting certain plants to grow
