Non-contractual Liability Arising Out of Damage Caused to Another Christian von Bar, 2009 In European law non contractual liability arising out of damage caused to another is one of the three main non contractual obligations dealt with in the Draft of a Common Frame of Reference The law of non contractual liability arising out of damage caused to another in the common law known as tort law or the law of torts but in most other jurisdictions referred to as the law of delict is the area of law which determines whether one who has suffered a damage can on that account demand reparation in money or in kind from another with whom there may be no other legal connection than the causation of damage itself Besides determining the scope and extent of responsibility for dangers of one's own or another's creation this field of law serves to protect fundamental rights in the private law domain that is to say horizontally between citizens inter se Based on pan European comparative research which annotates the work this book presents model rules on liability Explanatory comments and illustrations amplify the policy decisions involved During the drafting process comparative material from over 25 different EU jurisdictions has been taken into account The work therefore is not only a presentation of a future model for European rules to come but also provides a fairly detailed indication of the present legal situation in the Member States

Unjustified Enrichment Christian von Bar, Stephen Swann, Study Group on a European Civil Code, 2010 Unjustified enrichment is one of the three main non contractual obligations dealt with in the Draft of a Common Frame of Reference In recent years unjustified enrichment has been one of the most intellectually animated areas of private law In an area of law whose territory is still partially uncharted and whose boundaries are contested this volume of the series Principles of European Law will be invaluable for academic analysis of the law and its development by the courts During the drafting process comparative material from over 25 different EU jurisdictions has been taken into account The work therefore is not only a presentation of a future model for European rules to come but provides also a fairly detailed indication of the present legal situation in the Member States *European Yearbook of International Economic Law 2012* Christoph Herrmann, Jörg Philipp Terhechte, 2011-12-21 The third volume of the European Yearbook of International Economic law focuses on two major topics of current academic and political interest Firstly it addresses the 10th anniversary of China's accession to the WTO and its implications secondly it deals with different legal aspects of global energy markets Principles of European Insurance Contract Law, 2009-11-16 In this volume the Project Group Restatement of European Insurance Contract Law presents its Principles of European Insurance Contract Law PEICL These principles were submitted to the European Commission as a Draft Common Frame of Reference of European Insurance Contract Law DCFR Insurance The volume comprises the PEICL DCFR Insurance as well as translations into Czech Dutch French German Greek Hungarian Italian Polish Portuguese Slovak Spanish and Swedish A short introduction sets out the approach used by the Project Group how the PEICL DCFR Insurance relate to the overall Draft Common Frame of Reference the participation of the Project Group in the

CoPECL Common Principles of European Contract Law Network as well as the general structure and characteristics of the PEICL DCFR Insurance The Project Group has also drafted the PEICL DCFR Insurance as a model for an Optional Instrument of European Insurance Contract Law Service Contracts Maurits Barendrecht, Chris Jansen, Marco Loos, Andrea Pinna, Rui Cascao, Stephanie van Gulijk, 2009-04-27 The rules presented in this volume of Principles of European Law deal with service contracts The economic importance of service contracts within the European Union is enormous The European Commission recently estimated that services account for some 50% of EU GDP and for some 60% of employment in the Union though an exact figure is hard to determine given that many services are provided by manufacturers of goods According to the European Commission many services appear in official statistics as manufacturing activity meaning that the role of services in the economy is often significantly underestimated

Hesselink,Jacobien W. Rutgers,Odavia Bueno Diaz,Manolo Scotton,Muriel Veldman,2009-04-27 The rules presented in this volume of Principles of European Law deal with commercial agency franchise and distribution

contracts and with other contracts where one party uses the other party's skill and efforts to bring its products to the market. Although these Principles are not directly applicable to other long term commercial contracts some of the Articles may be applied to such contracts by way of analogy where appropriate. The economic function of all three contracts is that they are instrumental in bringing products to the market. They are so called vertical agreements as they are agreements between economic actors on different levels in the production and distribution chain. Obviously the economic importance of these contracts is enormous since they form the connection between producers and retailers who sell the products to consumers and other final users. There are only very few economic sectors where producers regularly sell their products directly to final consumer users. Goodwill compensation after the ending of a distribution contract the moment at which the agent's commission is due the franchisor's obligation to maintain the good reputation of the network are but a few examples of issues where specific rules are needed in order to give legal practice some guidance and to provide practitioners with a reasonable degree of legal certainty.
