The Storied Self Bruce A. Stevens, 2018-10-15 We are multistoried each story contributing to who we are the storied self A number of undeveloped stories are identified in this book This includes the hidden story before language Others include the lazy story the trauma story the messy story the body story the problem story and the dark story The God story brings the spiritual realm into focus The challenge in spiritual care is to help people find an integrative deep story which can be re authored with new and exciting possibilities This book draws on the insights of narrative gerontology for a natural engaging and more comprehensive spiritual care of the aged one that results in psychological and spiritual growth This is a unique idea which will challenge the way we think about pastoral care

Autonomic Nervous System in Old Age George A. Kuchel, 2019-04-26 In recent years all western industrialized countries and to a growing extent even many developed and developing Asian nations have witnessed a remarkable growth in numbers of older people 1 Future projections anticipate continued increases particularly in numbers of individuals who are 85 years and older 1 Although US statistics have indicated recent declines in disability trends 2 overall numbers of older individuals living with disability and functional dependence are likely to increase given projected increases in life expectancy 3 For example average life expectancy for women born today in the United States is nearly 80 for men it is nearly 75 1 With these considerations in mind many investigators have begun to pay increasing attention to identifying factors which may predict the transition from health and independence to disability and dependence in older individuals eventually providing useful targets for interventions 3 4
