Paths of the Christian Mysteries Virginia Sease, Manfred Schmidt-Brabant, 2003 In recent decades there has been an upsurge of interest in the Camino the pilgrim s route to Santiago de Compostela in northern Spain But where does this fascination in the spiritual exploration of the Middle Ages come from and what is its significance Virginia Sease and Manfred Schmidt Brabant assert that we live in a time of spiritual quest discovery and change Humanity is becoming increasingly sensitive and primal memories are beginning to emerge in people s consciousness Within this dynamic context of inner transformation the Camino s historic importance is being reechoed in human souls Rudolf Steiner explained that people need to live not only with outer history but also with the esoteric hidden narrative behind it the history of the mysteries Today at the beginning of the twenty first century the authors suggest that it

is increasingly necessary for us to live consciously with this veiled history of humanity's continual search for communion with the divine world. Based on long research and contemplation, the authors present a survey of extraordinary breadth and depth. Focusing on the spiritual history of humankind, they begin with the cosmic origin of the Grail Mysteries and culminate with the suprasensory Michael cultus and the being of Anthroposophia. Topics also include the school of Athens, early Christian art and its Gnostic impulses, the Grail initiation in northern Spain, the role of the Cathars and Troubadours in the Manichean spiritual stream, the Camino to Santiago de Compostela and the esoteric aspect of music for the pilgrims, the Music of the Spheres and the Elders of the Apocalypse, the Templars as emissaries of the Holy Grail, the initiations of Christian Rosenkreutz and his relation to anthroposophical art, the early Rosicrucian impulses in America and Europe and much more.

Secrets of Planetary Ritual 2nd Edition Christopher Warnock, John Michael Greer, 2009. *Secrets of Planetary Ritual* is the first English translation of the authentic planetary invocations of the Harranian Sabians from the most famous of astrological grimoires, the *Picatrix*. It contains full instructions for the ritual conjuration of the seven planets. Translated by John Michael Greer and Christopher Warnock from Pingree's Latin critical edition, it also contains the Arabic spirit names from the Ritter Plessner's German translation of *Picatrix*. Authentic and magically potent, *Secrets of Planetary Ritual* provides the perfect ceremonial invocations for the creation of planetary talismans.

Plundering the Planetary Secrets Kate MacLeod, 2025-04-15. History sleeps beneath them all, but only she sees it. Lafayette Eloi grew up in a village of people who remained strangers to her. She and her mother always stood apart, separated from the others by their accent. By the secretive comings and goings of her wayward father. And by the forbidden knowledge her mother imparted to her in the dark of night. With her mother dead and her father trapped in space, Lafayette finally learned why they kept that knowledge secret. Now the burden lies with her. She must protect it. So Lafayette returns to the city where her parents first met. The city where they learned all that they passed on to her. The city where all the secrets still dwell hidden in the shadows and under the ground. And sometimes in plain sight. But no one sees any of it. And Lafayette knows learning the why of that means unlocking the biggest secret of them all.
