Fakes, Forgeries, and Fictions Tony Burke, 2017-05-31 Fakes Forgeries and Fictions examines the possible motivations behind the production of apocryphal Christian texts Did the authors of Christian apocrypha intend to deceive others about the true origins of their writings Did they do so in a way that is distinctly different from New Testament scriptural writings What would phrases like intended to deceive or true origins even mean in various historical and cultural contexts The papers in

Art as Experience John Dewey, 2005-07-05 Based on John Dewey's lectures on esthetics delivered as the first William James Lecturer at Harvard in 1932 *Art as Experience* has grown to be considered internationally as the most distinguished work ever written by an American on the formal structure and characteristic effects of all the arts architecture sculpture painting music and literature

Philosophy in Dialogue Gary Alan Scott, 2007-08-13 Traditional Plato scholarship in the English speaking world has assumed that Platonic dialogues are merely collections of arguments Inevitably the question arises If Plato wanted to present collections of arguments why did he write dialogues instead of treatises Concerned about this question some scholars have been experimenting with other more contextualized ways of reading the dialogues This anthology is among the first to present these new approaches as pursued by a variety of scholars As such it offers new perspectives on Plato as well as a suggestive view of Plato scholarship as something of a laboratory for historians of philosophy generally The essays gathered here each examine vital aspects of Plato's many methods considering his dialogues in relation to Thucydides and Homer narrative strategies and medical practice images and metaphors They offer surprising new research into such much studied works as *The Republic* as well as revealing views of lesser known dialogues like the *Cratylus* and *Philebus* With reference to thinkers such as Heidegger Gadamer and Sartre the authors place the Platonic dialogues in an illuminating historical context Together their essays should reinvigorate the scholarly examination of the way Plato's dialogues work and should prompt a reconsideration of how the form of Plato's philosophical writing bears on the Platonic conception of philosophy

The Routledge Handbook of Love in Philosophy Adrienne M. Martin, 2019-01-15 The Routledge Handbook of Love in Philosophy collects 39 original chapters from prominent philosophers on the nature meaning value and predicaments of love presented in a unique framework that highlights the rich variety of methods and traditions used to engage with these subjects This volume is structured around important realms of human life and activity each of which receives its own section I Family and Friendship II Romance and Sex III Politics and Society IV Animals Nature and the Environment V Art Faith and Meaning VI Rationality and Morality VII Traditions Historical and Contemporary This last section includes chapters treating love as a subject in both Western and non Western philosophical traditions The contributions all appearing in print here for the first time are written to be accessible and compelling to non philosophers

and philosophers alike and the volume as a whole encourages professional philosophers teachers students and lay readers to rethink standard constructions of philosophical canons **Emotion and Reason** Warren D. TenHouten,2014-06-23

Although much academic work has been done on the areas of mind brain and society a theoretical synthesis of the three levels of analysis the biological the mental and the social has not until now been put forward In *Emotion and Reason* Warren TenHouten presents a truly comprehensive classification of the emotions The book analyzes six key emotions anger acceptance aggressiveness love joy and happiness and anticipation It places them in historical context relates them to situations of work and intimacy and explains their functioning within an individuated autonomous character structure Divided into four parts the book presents a socioevolutionary theory of the emotions Affect spectrum Theory AST which is based on a synthesis of three models of the emotions of social relationships and of cognition This book will be of value to undergraduate and postgraduate students as well as researchers with an interest in the sociology of emotions anthropology of emotions social psychology affective neuroscience political science behavioral neuroeconomics and philosophy *Making Love* Paul Kelleher,2015-07-16 In *Making Love Sentiment and Sexuality in Eighteenth Century British Literature* Paul Kelleher revises the history of sexuality from the vantage point of the literary history of sentimentalism Kelleher demonstrates how eighteenth century British philosophers essayists and novelists fundamentally reconceived the relations among sentiment sexuality and moral virtue It is his contention that sentimental discourse both philosophical and literary posited heterosexual desire as the precondition of moral feeling and conduct The author further suggests that sentimental writers fashioned the ideal of conjugal love as an ideological antidote to the theories of self love and self interest found in the works of Thomas Hobbes and Bernard Mandeville Heterosexual desire and its culmination in conjugal love in other words were represented as the privileged means for an individual to transcend self love and to develop a moral sensibility attuned to the thoughts and feelings of others At the same time Kelleher suggests other pleasures and desires particularly those rooted in same sex eroticism were increasingly depicted as antithetical to conjugal love and thus were morally devalued and socially disenfranchised Kelleher s argument unfolds through close readings of a variety of texts including Shaftesbury s *Characteristics of Men Manners Opinions* Times Joseph Addison and Richard Steele s *the Tatler* and *the Spectator* Eliza Haywood s *Love in Excess* Samuel Richardson s *Pamela* and Henry Fielding s *Tom Jones* Although these texts embody diverse rhetorical strategies and thematic concerns he shows how they collectively reinforce an overarching sentimental ideology on the one hand heterosexual desire and conjugal love become synonymous with sympathy benevolence and moral goodness while on the other hand same sex desire is pathologized as a selfish withdrawal from procreation domesticity sociability and ultimately humanity itself *Finding Joy in Joyce* John P. Anderson,2000 This is a detailed reader s guide to James Joyce s masterwork *Ulysses* voted the most important novel of the 20th century The guide provides episode by episode an in depth explanation of the action and symbolism including a description of the related books of Homer s *Odyssey* and the

correspondences This guide is designed to give the user the keys to the kingdom of one of the wonders of Western civilization The non academic author a retired lawyer and life long Joyce reader brings new approaches to find the deep meaning of each of Joyce s episodes and the novel as a whole The scope of this effort the complete Joyce is unique in an area monopolized by more narrowly focused academics The analysis elucidates Joyce s technique to mimic patterns in history and nature in his architecture of coherence His medicine for the diseased spirit of our age is a custom blend of Jesus and Buddha not as they are marketed by institutional religions but as they lived their lives as humans Joyce s god is more possibilities in life and art and this guide will do that for you David Mamet and Male Friendship Arthur Holmberg,2014-04-01 Using insights from

psychology sociology anthropology and the history of sexuality Holmberg explores the ambiguity that drives male bonding Personal interviews with Mamet and with the actors who have interpreted his major roles shed light on how and why men bond with each other and complement close analysis of Mamet s texts **Beauty** Natalie Carnes,2014-11-13 Beauty engages fourth century bishop Gregory of Nyssa to address beauty s place in theology and the broader world With the recent resurgence of attention to beauty among theologians questions still remain about what exactly beauty is how it is perceived and whether we should celebrate its return If beauty fell out of favor because it was seen to distract from the weightier concerns of poverty and suffering because it can even be a tool of oppression why should we laud it now Gregory s writings offer surprisingly rich and relevant reflections that can move contemporary conversations beyond current impasses and critiques of beauty Drawing Gregory into conversation with such disparate voices as novelist J M Coetzee and art theorist Kaja Silverman Beauty displays the importance of beauty to theology and theology to beauty in a discussion that bridges ancient and modern practical and theoretical secular and religious **Venturing into the Uncharted World of**

Aesthetics John Murungi,Linda Ardito,2023-01-31 The world of aesthetics is itself inextricable from the world as a whole Indeed as this book argues it is among its essential features and an invaluable key to its appreciation Thus to venture into the uncharted world of aesthetics is also to venture into this larger world a world that might be called the cosmos or the universe At the same time to venture into this uncharted realm is to also blaze a trail to the self This trail would itself be paradoxical as it would end where it begins and begin where it ends In this light it may also be said that the uncharted world of aesthetics is the uncharted world of the self This book provides insights into how works about aesthetics are also works reflective of the self as well as works with endless possibilities of being Milton's Loves Rosamund Paice,2023-04-25 This book is about the multiple loves of Paradise Lost and Paradise Regained sanctioned loves and outlawed loves sincere loves and false loves Christian loves classical loves humanist loves and love as emotion In showing how these loves motivate the most significant actions of the Paradise epics it reveals Milton to have made creative use of the tensions between philosophical ideals social conventions and the rather messier ways in which love emerges in practice Love so central to Milton s view of Edenic joy and obedience to God unsettles earthly and heavenly communities and is the origin of Miltonic

transgression Milton's Loves sheds new light on some of the most prominent concerns of Milton scholarship including why Milton's God is so difficult for readers to connect to Satan's apparent heroism Milton's radical theology and the nature of Milton's muse It is a book that will appeal to students and scholars of Milton and early modern studies more broadly and is structured in a way that will aid easy reference
