the legendary spiritual masters She further correlates the hierarchy of soul levels with Ezekiel's Throne vision to show the various paths the soul may travel toward self realization sex love power knowledge holiness and unification The first four paths relate to the four faced living creatures Chayot of Ezekiel's Throne vision the bull ox lion eagle and man The final two paths correlate to the prophet and the envisioned man on the throne he recognizes to be his divine higher self the knowledge that defines the secret doctrine of the whole of the Jewish mystical tradition culminating in the Kabbalah

Connecting to God Abner Weiss,2007-12-18 Distinguished rabbi marriage and family therapist kabbalist and popular lecturer Abner Weiss is extraordinarily qualified to write this book In *Connecting to God* he elucidates the teachings of Kabbalah showing how the Ten Sefirot of the Tree of Life are the transformers of divine energy in our bodies and the building blocks of creation Weiss calls them our spiritual genome He has created a psychological system and diagnostic method from kabbalistic texts and he uses these clinically tested interventions in his therapeutic practice Here he tells twenty eight stories of people he has helped liberate from their dysfunctional behavior empowering them to achieve spiritual growth With Rabbi Weiss as our guide we can use this kabbalistic approach to psychology to inform our lives with its insights rebalance what is out of kilter and heal the emotional wounds we have suffered *Connecting to God* is a wise wonderful and transformational book

Yearnings of the Soul Jonathan Garb,2015-11-23 Jonathan Garb's *Yearnings of the Soul* Psychological Thought in Modern Kabbalah is an original path breaking study of the renderings of the heart and soul in the works of major minor and obscure but important figures of modern Kabbalah Garb has unearthed a treasure trove of neglected figures and texts bringing into dialogue their views on heart and soul with those found in other religious and secular authorities There is no other study that comes close to the territory Garb covers or for that matter provides the historical and cultural context necessary for understanding the rise of such psychological renderings in the works of the modern Kabbalists His analysis shows that any attempt to essentialize the multiple and varied understandings of heart and soul in Jewish mysticism is mistaken Analyzing text and figure in context on a case by case basis Garb is able to provide comparison without being reductive This is an invaluable contribution to the discipline that cements Garb as the leading scholar of modern Kabbalah

Symbols of the Kabbalah Sanford L. Drob,1999-11-01 *Symbols of the Kabbalah* Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah It shows that the Kabbalah particularly as it is expressed in the school of Isaac Luria provides a coherent and comprehensive account of the cosmos and humanity's role within it that is intellectually morally and spiritually significant for contemporary life

Centers of Power Joseph H. Berke,Stanley R. Schneider,2008-01-22 Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost

recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality Creativity and Sexuality Mordechai Rotenberg, 2018-02-06 Judaism openly recognizes as an integral part of human nature the enigmatic relationship between yetzer or physical desire and yetzirah or spiritual creativity Creativity and Sexuality written as a fictional dialogue clearly delineates the psychic interdependence of these two drives as well as the integration of the concepts as they are defined by both Jewish mysticism and modern psychology Mordechai Rotenberg is interested in the impact of religion on the psychology of everyday life He was prompted to write Creativity and Sexuality by the popularity of writings that explore Jewish texts on the subject of sexuality from a historical or literary point of view but that do not hesitate to include psychological evaluations based on popular secondary psychological concepts This work seeks to provide an accurate psychological analysis of sexuality and spirituality from a Jewish mystical perspective As such it both reconstructs the interdisciplinary bridge between Judaism and psychology and deconstructs some exegetical traditions The goal is to present new paradigmatic options which may help modern society struggle more efficiently with its sexuality Ultimately the author sees physical desire and spiritual creativity as a regulative continuum People learn how to spend the tremendous power of energy that the sexual yetzer produces not only on physical sex but on the spiritual yetzirah In an introduction written especially for this new edition the author explains the continuing relevance of Creativity and Sexuality and the ongoing relationship between sexual desire and a healthy spiritual self fulfillment This volume will be of interest to students of Judaism psychology mysticism and sexuality

Kabbalistic Visions Sanford L. Drob, 2023-04-06 In 1944 C G Jung experienced a series of visions which he later described as the most tremendous things I have ever experienced Central to these visions was the mystic marriage as it appears in the Kabbalistic tradition and Jung s experience of himself as Rabbi Simon ben Jochai the presumed author of the sacred Kabbalistic text the Zohar Kabbalistic Visions explores Jung s 1944 Kabbalistic visions the impact of Jewish mysticism on Jungian psychology Jung s archetypal interpretation of Kabbalistic symbolism and his claim late in life that a Hasidic rabbi the Maggid of Mezhibezh anticipated his entire psychology This book places Jung s encounter with the Kabbalah in the context of the earlier visions and meditations of his Red Book his abiding interests in Gnosticism and alchemy and what many regard to be his Anti Semitism and flirtation with National Socialism Kabbalistic Visions is the first full length study of Jung

and Jewish mysticism in any language and the first book to present a comprehensive Jungian archetypal interpretation of Kabbalistic symbolism The Way of Splendor Edward Hoffman,2006-12-25 Dr Edward Hoffman world renowned thinker and writer in humanistic psychology reveals how the Kabbalah exerted a profound influence on the establishment and growth of Western psychological thought With a new introduction and updated bibliography The Way of Splendor The 2 **The Yetzer** Mordechai Rotenberg,1997 Explores the complex relationship between sexual desire and spiritual creativity in both Jewish mysticism and modern psychology **Centers of Power** Joseph H. Berke,Stanley R. Schneider,2008-01-22 Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality A Felt Sense Michael Eigen,2019-01-17 This book explores the intertwining of myth dream and everyday reality which mark the prose and poetry of both It focuses on psychic reality with psychoanalysis and Kabbalah tools in this great enterprise of learning to work with ourselves **Kabbalah and Psychoanalysis** Michael Eigen,2018-03-08 Wilfred Bion once said I use the Kabbalah as a framework for psychoanalysis Both are preoccupied with catastrophe and faith infinity and intensity of experience shatter and growth of being that supports dimensions which sensitivity opens Both are preoccupied with ontological implications of the Unknown and the importance of emotional life This work is a psychospiritual adventure touching the places Kabbalah and psychoanalysis give something to each other Michael Eigen uses aspects of Bion Winnicott Akivah Luria and Nachman and many more as colours on a palette to open realities for growth of experience Bion called faith the psychoanalytic attitude and Eigen here explores creative paradoxical multidimensional aspects of faith Eigen previously wrote of psychoanalysis as a form of prayer in The Psychoanalytic Mystic In Kabbalah and Psychoanalysis he writes of creative faith Sessions as crucibles in which diverse currents of personality mix in new ways alchemy or soul chemistry perhaps or simply homage to our embryonic nature which responds to the breath of feeling moment to moment **World Soul** James Wilberding,2021 Many philosophers and scientists over the course of history have held that the world is alive It

has a soul which governs it and binds it together This suggestion once so wide spread may strike many of us today as strange and antiquated in fact there are few other concepts that on their face so capture the sheer distance between us and our philosophical inheritance But the idea of a world soul has held so strong a grip upon philosophers imaginations for over 2 000 years that it continues to underpin and even structure how we conceive of time and space The concept of the world soul is difficult to understand in large part because over the course of history it has been invoked to very different ends and within the frameworks of very different ontologies and philosophical systems with varying concepts of the world soul emerging as a result This volume brings together eleven chapters by leading philosophers in their respective fields that collectively explore the various ways in which this concept has been understood and employed covering the following philosophical areas Platonism Stoicism Medieval Indian or Ved ntic Kabbalah Renaissance Early Modern German Romanticism German Idealism American Transcendentalism and contemporary quantum mechanics and panpsychism theories In addition short reflections illuminate the impact the concept of the world soul has had on a small selection of areas outside of philosophy such as harmony the biological concept of spontaneous generation Henry Purcell psychoanalysis and Gaia theories

Kabbalah: Secrecy, Scandal and the Soul Harry Freedman, 2019-01-24 This book tells the story of the mystical Jewish system known as Kabbalah from its earliest origins until the present day We trace Kabbalah s development from the second century visionaries who visited the divine realms and brought back tales of their glories and splendours through the unexpected arrival of a book in Spain that appeared to have lain unconcealed for over a thousand years and on to the mystical city of Safed where souls could be read and the history of heaven was an open book Kabbalah s Christian counterpart Cabala emerged during the Renaissance becoming allied to magic alchemy and the occult sciences A Kabbalistic heresy tore apart seventeenth century Jewish communities while closer to our time Aleister Crowley hijacked it to proclaim Do What Thou Wilt Kabbalah became fashionable in the late 1960s in the wake of the hippy counter culture and with the approach of the new age and enjoyed its share of fame scandal and disrepute as the twenty first century approached This concise readable and thoughtful history of Kabbalah tells its story as it has never been told before It demands no knowledge of Kabbalah just an interest in asking the questions why and how

Kabbalah and Postmodernism Sanford L. Drob, 2009 Kabbalah and Postmodernism A Dialogue challenges certain long held philosophical and theological beliefs including the assumptions that the insights of mystical experience are unavailable to human reason and inexpressible in linguistic terms that the God of traditional theology either does or does not exist that systematic theology must provide a univocal account of God man and the world that truth is absolute and not continually subject to radical revision and that the truth of propositions in philosophy and theology excludes the truth of their opposites and contradictions Readers of Kabbalah and Postmodernism will be exposed to a comprehensive mode of theological thought that incorporates the very doubts that would otherwise lead one to challenge the possibility of theology and religion and which both preserves the riches of the Jewish tradition and extends

beyond Judaism to a non dogmatic universal philosophy and ethic
