Le Jazz Matthew F. Jordan, 2010-03-30 In *Le Jazz* Matthew F. Jordan deftly blends textual analysis critical theory and cultural history in a wide ranging and highly readable account of how jazz progressed from a foreign cultural innovation met with resistance by French traditionalists to a naturalized component of the country's identity Jordan draws on sources including ephemeral critical writing in the press and twentieth century French literature to trace the country's reception of jazz from the Cakewalk dance craze and the music's significance as a harbinger of cultural recovery after World War II to its place within French ethnography and cultural hybridity Countering the histories of jazz's celebratory reception in France Jordan delves in to the reluctance of many French citizens to accept jazz with the same enthusiasm as the liberal humanists and cosmopolitan crowds of the 1930s Jordan argues that some listeners and critics perceived jazz as a threat to traditional French culture and only as France modernized its identity did jazz become compatible with notions of Frenchness *Le Jazz* speaks to the power of enlivened debate about popular culture art and expression as the means for constructing a vibrant cultural identity revealing crucial keys to understanding how the French have come to see themselves in the postwar world

Vincent D'Indy and His World Andrew Thomson,1996 Over sixty years after his death in 1931 Vincent d Indy is still a much misunderstood and maligned figure in French music Previous biographers have left a portrait of the academic figure par excellence who turned the seemingly inspired and selfless inspiration of his master C sar Franck into a cold and authoritarian pedagogical system

This new study re-examines the evidence reveals a much more psychologically complex and turbulent character and finds that d'Indy was a tireless propagandist for a spiritual revival of French musical civilization. Yet he was fully aware of the social and intellectual problems of the secular Third Republic which militated against his Dante-inspired Catholic humanism embodied in the work of the Schola Cantorum, the Paris institution founded by d'Indy to reform the practice of sacred music. Far from being a pure reactionary, his outlook was in reality remarkably progressive, manifest in his revivals of early music, notably Monteverdi's *Orfeo*, his encouragement of Debussy and his willingness to engage often pugnaciously with the latest musical manifestations of Richard Strauss, Stravinsky, Schoenberg and Varèse. His own compositions likewise contain passages of astonishingly bold invention and modernistic effects all too easily overlooked.

Fauré and French Musical Aesthetics Carlo Caballero, 2004-03-11 A wide-ranging study of Fauré and his contemporaries.

Sacred Passions Carol A. Hess, 2005 This biography offers a fresh understanding of the life and work of Spanish composer Manuel de Falla 1876-1946, recognized as the greatest composer in the Spanish cultural renaissance that extended from the latter part of the 19th century until the outbreak of the Spanish Civil War in 1936. The biography incorporates recent research on Falla, draws on untapped sources in the Falla archives, reevaluates Falla's work in terms of current issues in musicology and considers Falla's accomplishments in their historical and cultural contexts.

George Gershwin Howard Pollack, 2007-01-15 This comprehensive biography of George Gershwin 1898-1937 unravels the myths surrounding one of America's most celebrated composers and establishes the enduring value of his music. Gershwin created some of the most beloved music of the twentieth century and, along with Jerome Kern, Irving Berlin and Cole Porter, helped make the golden age of Broadway golden. Howard Pollack draws from a wealth of sketches, manuscripts, letters, interviews, books, articles, recordings, films and other materials, including a large cache of Gershwin scores discovered in a Warner Brothers warehouse in 1982, to create an expansive chronicle of Gershwin's meteoric rise to fame. He also traces Gershwin's powerful presence that even today extends from Broadway jazz clubs and film scores to symphony halls and opera houses. Pollack's lively narrative describes Gershwin's family, childhood and education, his early career as a pianist, his friendships and romantic life, his relation to various musical trends, his writings on music, his working methods and his tragic death at the age of 38. Unlike Kern, Berlin and Porter, who mostly worked within the confines of Broadway and Hollywood, Gershwin actively sought to cross the boundaries between high and low and wrote works that crossed over into a realm where art music, jazz and Broadway met and merged. The author surveys Gershwin's entire oeuvre from his first surviving compositions to the melodies that his brother and principal collaborator Ira Gershwin lyricized after his death. Pollack concludes with an exploration of the performances and critical reception of Gershwin's music over the years from his time to ours.

Gerardo Diego's Creation Myth of Music Judith Stallings-Ward, 2020-01-29 Since its publication nearly eight decades ago, the consensus among scholars about *Fuera de Equis y Zeda* by the Spanish poet Gerardo Diego 1896-1987 remains unchanged. *Fuera* is an enigmatic avant-garde curiosity. It seems to rob the reader of the

reason necessary to interpret it even as it lures him or her ineluctably to the task nevertheless the present study makes the case that this work is in fact not inaccessible and that what the anhelante arquitecto intended with his masterpiece was a creation myth that explains the evolution of music in his day This monograph unlocks the fullness of the poem's meaning sourced in music's mythical consciousness and expressed in a poetic idiom that replicates aesthetic concepts and cubist strategies of form embraced by the neoclassical composers Bartok Falla Ravel and Stravinsky Music in the Early Twentieth Century Richard Taruskin, 2006-08-14 Music in the Early Twentieth Century the fourth volume in Richard Taruskin's history looks at the first half of the twentieth century from the beginnings of Modernism in the last decade of the nineteenth century right up to the end of World War II Taruskin discusses modernism in Germany and France as reflected in the work of Mahler Strauss Satie and Debussy the modern ballets of Stravinsky the use of twelve tone technique in the years following World War I the music of Charles Ives the influence of peasant songs on Bela Bartok Stravinsky's neo classical phase and the real beginnings of 20th century music the vision of America as seen in the works of such composers as W C Handy George Gershwin and Virgil Thomson and the impact of totalitarianism on the works of a range of musicians from Toscanini to Shostakovich French Art Song Emily Kilpatrick, 2022 Part I Poet Baudelaire's invitation to composers Song and memory in the Terrible Year To the depths of the Unknown in search of the new Interlude The poet sings Part II Singer M lodie at the crossroads Song salons and the society singer Collaboration and creative process Interlude The voices of F tes galantes Part III Public Singing histories Reimagining song at the Conservatoire M lodie centre stage Postlude Philosophies of composition *Natural Fingering* Jon Verbalis, 2012-05-31 In further developing Chopin's thinking on pianism this book explores the keyboard's topographical symmetry and the revolutionary impact of symmetrical inversion on piano technique and pedagogy With copious excerpts from the extant repertoire this is the first comprehensive discussion of fingering solutions for pianists since Hummel's monumental treatise of 1828
