Re Emergence Of Correctional Intervention:

The Re-Emergence of Correctional Intervention Ted Palmer, 1992-03-30 Ted Palmer gives particular attention to the development of intensive supervision in probation and after care and sets out an agenda for the future. He offers a developmental stages perspective for work with juveniles which should address changes to the offender and or changes to the offenders life circumstances. LCCJ Newsletter Looking back to successful intervention programs of the 1970s programs based on skill development methods control surveillance techniques psychologically oriented programs and combinations of these procedures Ted Palmer strongly supports such correctional intervention programs through an analysis of several recent studies including his own. He evaluates the research to date on rehabilitation and describes the role past present and future of rehabilitation habilitation within the context of other correctional modalities including the justice model philosophy. He also presents an intervention framework and a related theoretical structure that can assist in program development intervention planning for offenders and understanding and evaluating change processes. This timely volume will inspire passionate debate in the coming decade for practitioners academics and students alike in criminology. Palmer a recognized scholar of correctional practice and policy answers critics of treatment and addresses the current emphasis on punishment as the sole disposition of offenders by assembling evidence supporting growth centered habilitation intervention for juveniles and adults. Reviewing the past 15 years of evaluation of correctional intervention he has identified key intervention elements connections and community offender outcomes. The concluding chapter is an extremely valuable investigation into offender intervention programs in which Palmer assesses prospects for change and effectiveness. Excellent bibliography.

Undergraduate graduate faculty professional Choice Integrates several important components of the development correctional treatment policy 1 the political historical development of correctional treatment policy 2 evolution of the debate on treatment effectiveness 3 the methodology of treatment evaluation 4 improved knowledge of recommendations for future programming and evaluation efforts. Since it interweaves numerous areas of expertise such as psychology research and policy analysis it is a unique contribution. It is this multifaceted approach to the topic which is sorely needed. To date I have required readings on theory and policy but I have provided and have required students to do the integrating. Palmer's book will be a valuable addition to this course. Furthermore there is a growing group of planners administrators policy analysts researchers and scholars in the area of correctional treatment who would benefit from and be interested in Palmer's book. Again the integration of theory policy and research offers a crucial resource to such an audience. This is a book that will be heavily cited in the years to come. The analysis is brilliant. Smart on Crime Garrick L. Percival,2015-07-28 The most punitive era in American history reached its apex in the 1990s but the trend has reversed in recent years Smart on Crime The Struggle to Build a Better American Penal System examines the factors causing this dramatic turnaround It relates and echoes the increasing need and desire on the part of actors in the American government system to construct a penal system that is more rational and humane Author Garrick L Percival points out that the prison boom did not naturally emerge as a governmental response to increasing crime rates Instead political forces actively built and shaped the growth of a more aggressive and populated penal system He is

optimistic that the shifting political forces surrounding crime and punishment can now reform the system explaining how current political actors can craft more constructive and just policies and programs The book shows how rationality and humanitarianism lead to a penal system that imprisons fewer people does less harm to the lives of individual offenders and those close to them and is less expensive to maintain The book presents empirical data to concretely demonstrate what is working and what is not in today's penal system It closely examines policies and practices in Texas Ohio and California as comparative illustrations on what progress has been made or needs to be made in penal systems across the United States The book includes a comprehensive discussion of highlighted issues and relates more than two dozen interviews with pivotal political actors who clarify why there is a major shift underway in the American penal system Their insights reveal paths that can be taken to improve the current penal system

Offenders, Thomas P. O'Connor, 2013-01-11. Explore the relationship between faith-based programs, religion, and offender rehabilitation. This book reports on current research from several disciplines to help the reader understand the nature and impact of the relationship between faith-based programs, religion, and offender rehabilitation. Religion, the Community, and the Rehabilitation of Criminal Offenders is a unique resource. There has been very little research published on this important topic. President Bush's faith-based initiative recognized that religion plays a role in the justice system and corrections that is overlooked but essential. It increases the role of community and caring in the system in a unique and important way. This pathbreaking book points the way toward a system of faith-based programs that are not only effective but also economical, as these programs are often staffed by volunteers. Religion, the Community, and the Rehabilitation of Criminal Offenders addresses important questions regarding the importance and effectiveness of faith-based rehabilitation programs, including: What is the relationship between prison, religion, and offender rehabilitation? What motivates inmates to become involved with religious programs and activities? What is the prison chaplain's role in rehabilitation? Are certain religious denominations more effective than others in preventing crime, delinquency, and recidivism? How does religious activity help inmates adjust to the prison environment? What do inmates have to say about the religious programs they encounter within the system? How did Islam develop within American correctional institutions, and what changes has the movement gone through in recent years? Why do female African American inmates tend to resist conversion to Islam while their male counterparts embrace the Muslim faith in increasing numbers? How can sacred texts and social theory be utilized as teaching tools and intervention
