Strengths-Based Nursing Care Laurie N. Gottlieb, Laurie Gottlieb, 2012-08-22 Print CourseSmart **The Complete Guide to Studying for your Social Work Degree** Patricia Cartney, Jane Bottomley, Steven Prymachuk, 2025-04-18 A one stop guide for social work students that offers extensive study support and skills development. In this comprehensive guide we cover four key areas all tailored specifically for social work: Studying for your Social Work Degree, Academic Writing and Referencing, Communication Skills and Critical Thinking Skills. The compendium includes up to date coverage of all the relevant study skills required to succeed in a social work degree including the structure and culture of a social work degree, adopting a reflective and critical approach and how to find your academic voice. This book is also packed with tasks and numerous examples to aid student understanding so learners can feel confident that they are fully equipped with all they need to maximise their potential. *Transferring Gaming and Simulation Experience to the Real World* Toshiko Kikkawa, Willy Christian Kriz, Junkichi Sugiura, Marieke de Wijse-Van Heeswijk, 2025-02-24 This book focuses on how to connect the gaming experience to the real world. Looking back at the history of the Simulation and Gaming field it has offered the solution to social problems such as policy making, decision making for business strategies, education and training, environmental issues, urban planning or disaster awareness. In other words, Gaming Simulation always has had a close connection to the reality. The interconnected modern societies nowadays have become even more complex and ambiguous as the UN SDGs goals show. Gaming is one of the suitable tools to suggest ways to achieve our goals in a world of uncertainty. Learning starts by experiencing games and their effects in a safe environment. An important part of the gaming simulation process are methods for a transfer of the game based learning to and an application within reality. However, connecting the experience to reality is not always facile for all the participants no matter how comprehensive the debriefing is. In addition to debriefing further transfer methods and conditions have to be implemented in order to create a real change of behavior and systems. The book's authors tackle the challenge by introducing concrete practices and offering various hints for readers struggling to solve a similar issue. In addition, when applying the experience of gaming we have to carefully consider several
