Warford,2008 Revitalizing Practice is designed to help theological faculties engage a common set of challenges particularly in the areas of diversity formation and institutional identity These are not technical problems but are instead the very stuff out of which teaching and learning are practiced Yet addressing such issues requires intentional strategies and collaborative work Revitalizing Practice offers four such intentional strategies A New Ecology Model An Improvisational Model An Appreciative Inquiry Model and A World Caf Model Each of these models provides a thorough and practical framework based on sound theoretical concepts designed to help faculties revitalize their practices of theological teaching and learning Routledge Library Editions: Higher Education Various,2021-03-29 The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology

Student Learning in Higher Education John Wilson,2018-10-11 Originally published in 1981 Student Learning in Higher Education fills an important gap by bringing together in a concise and readable form research from Britain the USA and elsewhere and by discussing the curricular implications for staff who wish to assist their students to see meaning in their studies It focuses on issues of general relevance explores major research questions and outlines different methodologies and approaches It discusses what is meant by meaningful learning and describes typical learning tasks encountered by arts and science students It looks at how students decide what to study on a course and how assessment demands shape both their perceptions of what should be learned and their study behaviour As well as considering the ways in which students change and develop over their years in college the book also discusses the relative importance of teaching and informal influences such as the student peer group This book attempts to provide a state of the art review of the literature in a field of central concern for all who prepare students for or work within higher education **Why Kids Love (and Hate) School** Steven P. Jones,Eric C. Sheffield,2018-11-19 Some students enter classrooms with an I dare you try to teach me look on their faces and

others bounce into class excited to learn and anxious to please the teacher We know we can't automatically blame teachers or schools when students don't want to learn But we also know that sometimes teachers and schools don't always set students up for success and they don't always help them love what they're learning Why Kids Love and Hate School Reflections on Practice investigates some of the school and classroom practices that help students love school and some that send students in the opposite direction Intended for classroom teachers teacher education students and school administrators chapters in the book investigate a variety of topics how schools can build effective school cultures the struggle students encounter in learning practices of other countries that help students love school testing practices that cause students to hate school and much more Perfect for courses in Introduction to Education General Methods Management Assessment Educational Research Educational Administration Leadership Teacher Leadership Curriculum Theory Curriculum Development
