Reading Book for Human Relations Training Lawrence C. Porter, Bernard Mohr, 1982

Transforming the Character of Public Organizations A. Carol Rusaw, 1998-01-26

From her own experience in various agencies and organizations Dr Rusaw knows that to inspire change in any organization and particularly in the public sector change agents must understand that change is primarily collective nonrational and nonlinear People who seek to create change cannot stand apart from the problems issues and concerns raised by their constituents but must merge themselves into the data making analysis and diagnosis phases of consulting The agent must in other words participate actively in creating change and how the agent must do this why and the effects the agent can expect are the subjects of Dr Rusaw s book Few books discuss public sector change in the way Dr Rusaw does here and none incorporate the phenomenological perspective that she uses Her book will appeal to practicing public administrators who seek real life examples presented in conversational language It will also be important for teachers and students in public administration specifically in courses in organizational behavior leadership organization theory human relations and public personnel management Not only can change agents help public employees serve the purposes set out for them more effectively and efficiently but by service and other efforts they can also help reverse the downward trend that has characterized the public sector in recent years Dr Rusaw maintains that such change is made possible by personal transformation certainly but also by interpersonal transformations By focusing on individual and group needs as keys to organizational change change agents can facilitate what is most needed not just localized alterations but widespread holistic transformations Her book looks at the role of healing particularly the inherent skills of listening empathizing and encouraging and at the ways in which people can confront and solve problems in negotiated environments She also sees that central to re education and re socialization is the quality of the change agent s inner person how well the agent is able to understand the role of self in the change process Her book provides ways in which agents can inspire others to change too In other words Dr Rusaw sees organizational change as a process moving from the inside to the outside and it is on this foundation that her unusual thoughtful and ultimately practical book is based

Management and Leadership in Nursing and Health Care Elaine La Monica Rigolosi, 2013. Time tested leadership and management strategies based on experiential learning activities are at the foundation of this text for undergraduate and graduate students in nursing and health care leadership or management courses. It is grounded in theories and concepts applied to the health care environment from business, organizational psychology, health care law and educational administration fields. The text encompasses theories of effective communication, problem analysis, conflict resolution and time management challenges. This new edition includes three new chapters that cover current theories of creative leadership, working with diverse groups and ethics for leaders and managers in health care as well as new experiential learning activities throughout. These activities make theory application palpable and support the development of skills that students can use to motivate, educate and lead those in health care to achieve the goals of a group, team or organization. Included among the experiential learning activities are case studies, simulation, review questions, suggested assignments and expected learning outcomes. The text will also be of value to nurse managers who wish to enhance their current leadership or managerial skills.

Key Features: Provides strong direction for improving leadership and management skills in the health care environment. Includes three new chapters on creative leadership, working with diverse groups and ethics for healthcare leaders and managers. Offers new learning activities throughout including review questions and suggested assignments. Features over 35 Experiential Exercises which invite the reader to experience new behaviors in a safe environment.
