

"Those who have hitherto been unconvinced by Macpherson's analysis of liberal democracy should be moved to reflect again on the work of this liberal theorist who so much wants to save the best of liberalism from the worst of liberalism."

—Thomas J. Lewis, *Canadian Journal of Political Science*

THE RISE AND FALL OF
**ECONOMIC
JUSTICE**
AND OTHER ESSAYS

C.B. MACPHERSON

With a New Introduction by FRANK CUNNINGHAM

Rise And Fall Of Economic Justice And Other Essays

Matthew McManus

Rise And Fall Of Economic Justice And Other Essays:

The Rise and Fall of Economic Justice, and Other Papers Crawford Brough Macpherson, 1985 Aspects of 20th century democracy such as economic justice human rights industrial democracy property pluralism and the roots of liberalism are explored in this wide ranging collection of essays which expands on the analyses made in two of Macpherson's earlier books *Democratic Theory* and *The Life and Times of Liberal Democracy* Closely considering the past ups and downs of the concept of economic justice Macpherson reaches a disturbing conclusion that the concept is likely to wither away Macpherson's subject matter ranges from an examination of the extent to which human rights are implemented in different parts of the world to the probable future of workers participation in industrial decision making in both capitalist and socialist countries to a discussion of the roots of modern liberalism that also reexamines Hobbes this time as an economist Taking a sweeping look backwards over the history of theory this book elicits the role of economic assumptions in political theory and opens new doors to an understanding of state class and property

The Rise and Fall of Economic Justice and Other Essays Crawford Brough Macpherson, 1987 The role of state class and property in twentieth century democracy Cover subtitle All the papers are concerned in one way or another with the essential constituents of the theory of possessive individualism Preface

The Rise and Fall of Economic Justice and Other Essays C. B. Macpherson, 1987

The Rise and Fall of Economic Justice and Other Essays C. B. Macpherson, 1987

Property, Power, and American Democracy David Andrew Schultz, 1992-01-01 One legacy of the Reagan and post Reagan years has been a questioning by both liberals and conservatives of recent eminent domain and property rights decisions by the Supreme Court This timely volume examines the changing political and constitutional status of these concepts Schultz argues that we need to rethink the nature of property rights by asking what purpose they serve in American society and whether they deserve special legal and judicial protection against legislative interference *Property Power and American Democracy* is founded on a searching reexamination of the role of property in early and contemporary American legal and political thought From this perspective Schultz shows that the meaning of property is currently in flux as a result of a failure to sustain those values that property was originally supposed to protect in our society individual liberty limited government and minority rights In keeping with the moral and political values associated with property in the writings of John Locke James Harrington and other classical theorists the author contends that property should not be viewed merely as a thing we possess or an entity we may dispose of at will Instead it is to be seen as an important social relationship to which the law gives special protection thereby furthering a sense of autonomy self identity and community This volume demonstrates that once we view property in this light we can then ask which relations or values are so important in our society that they deserve to be called property Drawing upon both liberal and conservative points of view *Property Power and American Democracy* is a powerful argument for the reinvigoration of property rights It will be of special interest to political scientists urban planners and specialists in American constitutional

history and political thought **The Rise and Fall of Economic Justice and Other Essays, Reissue** C.B. Macpherson (deceased), Frank Cunningham, 2013-05-09 In his final book one of the giants of twentieth century political philosophy returns to his key themes of state class and property to consider such contemporary questions as economic justice human rights and the nature of industrial democracy This new edition includes an introduction by Frank Cunningham placing the book in the broader context of Macpherson's work Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title and author *The Political Theory of Liberal Socialism* Matthew McManus, 2024-11-22 McManus presents a comprehensive guide to the liberal socialist tradition stretching from Mary Wollstonecraft and Thomas Paine through John Stuart Mill to Irving Howe John Rawls and Charles Mills Providing a comprehensive critical genealogy of liberal socialism from a sympathetic but critical standpoint McManus traces its core to the Revolutionary period that catalyzed major divisions in liberal political theory to the French Revolution that saw the emergence of writers like Mary Wollstonecraft and Thomas Paine who argued that liberal principles could only be inadequately instantiated in a society with high levels of material and social inequality to John Stuart Mill the first major thinker who declared himself a liberal and a socialist and who made major contributions to both traditions through his efforts to synthesize and conciliate them McManus argues for liberal socialism as a political theory which could truly secure equality and liberty for all An essential book on the tradition of liberal socialism for students researchers and scholars of political science and humanities **Reconsidering C.B. MacPherson** Phillip Hansen, 2016-01-28 C B Macpherson occupies an ambiguous place in contemporary political thought Though his work is well known it remains on the margins of current democratic theory That marginalization Phillip Hansen argues comes from our failure to appreciate the underlying philosophical dimension of Macpherson's work Identifying and exploring Macpherson's systematic critique of the liberal claim that the individual is the proprietor of his own person or capacities owing nothing to society for them Reconsidering C B Macpherson highlights his affinities to Herbert Marcuse Max Horkheimer and the Frankfurt School This stimulating reappraisal illustrates the importance of Macpherson's classic books including *The Political Theory of Possessive Individualism* and *Democratic Theory* and demonstrates how much his work has to offer to the future of political and social thought **Revisiting Marx's Critique of Liberalism** Igor Shoikhet, 2019-12-26 Revisiting Marx's Critique of

Liberalism offers a theoretical reconstruction of Karl Marx's new materialist understanding of justice, legality and rights through the vantage point of his widely invoked but generally misunderstood critique of liberalism. The book begins by reconstructing Marx's conception of justice and rights through close textual interpretation and extrapolation. The central thesis of the book is firstly that Marx regards justice as an essential feature of any society including the emancipated society of the future and secondly that standards of justice and right undergo transformation throughout history. The book then tracks the enduring legacy of Marx's critique of liberal justice by examining how leading contemporary political theorists such as John Rawls, Jürgen Habermas, Axel Honneth and Nancy Fraser have responded to Marx's critique of liberalism in the face of global financial capitalism and the hollowing out of democratically enacted law. The Marx that emerges from this book is therefore a thoroughly modern thinker whose insights shed valuable light on some of the most pressing challenges confronting liberal democracies today.

Selves, Persons, Individuals Janice Richardson, 2017-03-02 Whilst feminist philosophy has frequently engaged with political theory, this original book instead considers legal theory and the practical operation of law. The work considers some of the contested meanings of what it is to be a self, a person or an individual in relation to the law of obligations. The discussion still impacts upon political theory as it concerns the way in which the question of what it is to be a woman has been defined within recent feminist theory. In order to overcome what appears to be a block in feminist legal theory, the book draws together areas of philosophy which are not normally considered within feminist or legal theory.

"Enough to Keep Them Alive" Hugh Shewell, 2004-01-01 *Enough to Keep Them Alive* explores the history of the development and administration of social assistance policies on Indian reserves in Canada from confederation to the modern period, demonstrating a continuity of policy with roots in the pre-confederation practices of fur trading companies.

POLITICAL THEORY RAMASWAMY, SUSHILA, 2010-10-01 Political theory and political philosophy are generally used interchangeably, though sometimes a distinction is made between the two. This book on political theory deals with the study of political institutions along with the theories of State, Law, Liberty and Equality. In its second edition, the book continues to analyse the key concepts like Authority, Power, Sovereignty, Political obligation, Civil disobedience, Citizenship, Rights, Democracy and Justice. The non-western ideas including Indian and Chinese are incorporated to underline cultural plurality and shared values in an enterprise that tries to set universal standards. The book is designed for the undergraduate and postgraduate students of Political Science. The book will be equally beneficial for the students appearing for the civil services examinations.

Property Rights, Economics and the Environment Michael D. Kaplowitz, 2004-08-02 This book explores how discussions of environmental policy increasingly require scholars and practitioners to integrate legal-economic analyses of property rights issues. An excellent array of contributors have come together for the first time to produce this magnificent book.

Capitalism, For and Against Ann E. Cudd, Nancy Holmstrom, 2011-01-06 Political philosophy and feminist theory have rarely examined in detail how capitalism affects the lives of women. Ann Cudd and Nancy Holmstrom

take up opposing sides of the issue debating whether capitalism is valuable as an ideal and whether as an actually existing economic system it is good for women In a discussion covering a broad range of social and economic issues including unequal pay industrial reforms and sweatshops they examine how these and other issues relate to women and how effectively to analyze what constitutes capitalism and women s interests Each author also responds to the opposing arguments providing a thorough debate of the topics covered The resulting volume will interest a wide range of readers in philosophy political theory women s studies and global affairs Reforming Law and Economy for a Sustainable Earth Paul

Anderson,2014-09-19 Few concerns preoccupy contemporary progressive thought as much as the issue of how to achieve a sustainable human society The problems impeding this goal include those of how to arrest induced global environmental change GEC persistent disagreements about the contribution of economic activities to GEC and further differences in views on how these activities can be reformed in order to reduce the rate of change and thus to mitigate threats to much life on Earth Reforming Law and Economy for a Sustainable Earth aims to help resolve these problems in two ways Since addressing GEC will require global coordination the book first clarifies the conditions necessary to achieve this effectively Paul Anderson explores these conditions with the aid of a sustained analysis of key concepts in influential disciplines particularly in social and political theory and law relating to the transition to a sustainable economy Second Anderson tackles the problem of how to arrest GEC by incisively evaluating two leading theoretical positions in terms of their capacity to support the conditions required for effective global coordination From this basis the book offers an extensive critique of the idea that global environmental problems can be solved within the framework of global capitalism It also critically reviews and advances the proposition that global sustainability can be achieved only by changing the capitalist form of organizing the economy Enriched by a genuinely interdisciplinary approach the originality of Reforming Law and Economy for a Sustainable Earth lies in the manner it combines a rigorous analysis of the requirements for global sustainability with decisive conclusions as to what are and what are not viable means of fulfilling those requirements The book advances research on sustainability within key disciplines among them political theory law and social science by offering a timely and insightful statement about the global environmental predicament in the 21st century The Global Commonwealth of Citizens Daniele

Archibugi,2008-09-08 The Global Commonwealth of Citizens critically examines the prospects for cosmopolitan democracy as a viable and humane response to the challenges of globalization Arising after the collapse of the Soviet Union and the decisive affirmation of Western style democracy cosmopolitan democracy envisions a world politics in which democratic participation by citizens is not constrained by national borders and where democracy spreads through dialogue and incentives not coercion and war This is an incisive and thought provoking book by one of the world s leading proponents of cosmopolitan democracy Daniele Archibugi looks at all aspects of cosmopolitan democracy in theory and practice Is democracy beyond nation states feasible Is it possible to inform global governance with democratic norms and values and if

so how Archibugi carefully answers questions like these and forcefully responds to skeptics and critics He argues that democracy can be extended to the global political arena by strengthening and reforming existing international organizations and creating new ones and he calls for dramatic changes in the foreign policies of nations to make them compatible with global public interests Archibugi advocates giving voice to new global players such as social movements cultural communities and minorities He proposes building institutional channels across borders to address common problems and encourages democratic governance at the local national regional and global levels The Global Commonwealth of Citizens is an accessible introduction to the subject that will be of interest to students and scholars in political science international relations international law and human rights

The Relational Self and Human Rights Tatiana Hansbury, 2022-05-18 This book takes up Paul Ricoeur's relational idea of the self in order to rethink the basis of human rights Many schools of critical theory argue that the idea of human rights is based on a problematic conception of the human subject and the legal person For liberals the human is a possessive and self-interested individual such that others are either tools or hurdles in their projects This book offers a novel reading of subjectivity and rights based on Paul Ricoeur's reinterpretation of human subjectivity as a relational concept Taking up Ricoeur's idea of recognition as a reciprocal gift it argues that gift exchange is the relation upon which authentic non-abstract human subjectivity is based Seen in this context human rights can be understood as tokens of mutual recognition securing a genuinely human life for all The conception of human rights as gift effectively counters their moral individualism and possessiveness as the philosophical anthropology of an isolated ego is replaced by that of a related dependent and embedded self This original reinterpretation of human rights will appeal to scholars of legal theory

jurisprudence politics and philosophy *Paradigm Lost* Stanley Aronowitz, Peter Bratsis, 2002 With increasing globalization the meaning and role of the nation-state are in flux At the same time state theory which might help to explain such a trend has fallen victim to the general decline of radical movements particularly the crisis in Marxism This volume seeks to enrich and complicate current political debates by bringing state theory back to the fore and assessing its relevance to the social phenomena and thought of our day Throughout it becomes clear that whether confronting the challenges of postmodern and neo-institutionalist theory or the crisis of the welfare state and globalization state theory still has great analytical and strategic value

Isaiah Berlin's Liberalism Claude Galipeau, 1994 Isaiah Berlin is a towering figure in the world of letters To the international community of scholars he is best known as the author of *Two Concepts of Liberty* yet his career covers many fields in addition to moral and political philosophy music and literary criticism historiography scholarship in the history of ideas cultural interpretation translation teaching university and arts administration diplomacy community work and broadcasting This is the first systematic study of Berlin's political ideas to draw on all of his writings including manuscripts interviews and correspondence Berlin's defence of political liberalism is based on a theory of moral pluralism a view of human nature and an interpretation of the historical and cultural development of Western civilization rather than on abstract

arguments about rights Claude Galipeau brings out the uniqueness and force of this defence while acknowledging in his discussion of Berlin's Zionism the tensions and complexities inherent in it In all his writings Berlin seeks to understand the intricacies and paradoxes of human behaviour His political thought offers a compelling justification of liberal institutions in the contemporary world and Claude Galipeau's study will be an invaluable guide to the range and depth of his work

Thank you unquestionably much for downloading **Rise And Fall Of Economic Justice And Other Essays**. Maybe you have knowledge that, people have look numerous time for their favorite books when this Rise And Fall Of Economic Justice And Other Essays, but end up in harmful downloads.

Rather than enjoying a fine PDF taking into consideration a cup of coffee in the afternoon, instead they juggled bearing in mind some harmful virus inside their computer. **Rise And Fall Of Economic Justice And Other Essays** is easy to use in our digital library an online access to it is set as public therefore you can download it instantly. Our digital library saves in fused countries, allowing you to acquire the most less latency time to download any of our books like this one. Merely said, the Rise And Fall Of Economic Justice And Other Essays is universally compatible later than any devices to read.
