A Literate South Beth Barton Schweiger, 2019-06-25 A provocative examination of literacy in the American South before emancipation countering the long standing stereotype of the South's oral tradition Schweiger complicates our understanding of literacy in the American South in the decades just prior to the Civil War by showing that rural people had access to a remarkable variety of things to read Drawing on the writings of four young women who lived in the Blue Ridge Mountains Schweiger shows how free and enslaved people learned to read and that they wrote and spoke poems songs stories and religious doctrines that were circulated by speech and in print The assumption that slavery and reading are incompatible which has its origins in the eighteenth century has obscured the rich literate tradition at the heart of Southern and American culture

A History of the Book in America Robert A. Gross, Mary Kelley, 2010-07-15 Volume Two of *A History of the Book in America* documents the development of a distinctive culture of print in the new American republic Between 1790 and 1840 printing and publishing expanded and literate publics provided a ready market for novels almanacs newspapers tracts and periodicals Government business and reform drove the dissemination of print Through laws and subsidies state and federal authorities promoted an informed citizenry Entrepreneurs responded to rising demand by investing in new technologies and altering the conduct of publishing Voluntary societies launched libraries lyceums and schools and relied on print to spread religion redeem morals and advance benevolent goals Out of all this ferment emerged new and diverse communities of citizens linked together in a decentralized print culture where citizenship meant literacy and print meant power Yet in a diverse and far flung nation regional differences persisted and older forms of oral and handwritten communication offered alternatives to print The early republic was a world of mixed media Contributors Elizabeth Barnes College of William and Mary Georgia B Barnhill American Antiquarian Society John L Brooke The Ohio State University Dona Brown University of Vermont Richard D Brown University of Connecticut Kenneth E Carpenter Harvard University Libraries Scott E Casper University of Nevada Reno Mary Kupiec Cayton Miami University Joanne Dobson Brewster New York James N Green Library Company of Philadelphia Dean Grodzins Massachusetts Historical Society Robert A Gross University of Connecticut Grey Gundaker College of William and Mary Leon Jackson University of South Carolina Richard R John Columbia University Mary Kelley University of Michigan Jack Larkin Clark University David Leverenz University of Florida Meredith L McGill Rutgers University Charles Monaghan Charlottesville Virginia E Jennifer Monaghan Brooklyn College of The City University of New York Gerald F Moran University of Michigan Dearborn Karen Nipps Harvard University David Paul Nord Indiana University Barry O Connell Amherst College Jeffrey L Pasley University of Missouri Columbia William S Pretzer Central Michigan University A Gregg Roeber Pennsylvania State University David S Shields University of South Carolina Andie Tucher Columbia University Maris A Vinovskis University

of Michigan Sandra A Zagarell Oberlin College *Literacy and Literacies* James Collins,Richard Blot,2003-05-08 Table of contents **A Fictive People** Ronald J. Zboray,1993-01-28 This book explores an important boundary between history and literature the antebellum reading public for books written by Americans Zboray describes how fiction took root in the United States and what literature contributed to the readers sense of themselves He traces the rise of fiction as a social history centered on the book trade and chronicles the large societal changes shaping circumscribing and sometimes defining the limits of the antebellum reading public A Fictive People explodes two notions that are commonplace in cultural histories of the nineteenth century first that the spread of literature was a simple force for the democratization of taste and second that there was a body of nineteenth century literature that reflected a nation of readers Zboray shows that the output of the press was so diverse and the public so indiscriminate in what it would read that we must rethink these conclusions The essential elements for the rise of publishing turn out not to be the usual suspects of rising literacy and increased schooling Zboray turns our attention to the railroad as well as private letter writing to see the creation of a national taste for literature He points out the ambiguous role of the nineteenth century school in encouraging reading and convincingly demonstrates that we must look more deeply to see why the nation turned to literature He uses such data as sales figures and library borrowing to reveal that women read as widely as men and that the regional breakdown of sales focused the power of print Methods of Literacy Research Michael L.
