Abstract. Following the outbreak of the Russian-Ukrainian conflict, German Chancellor Scholz delivered the Zeitenwende speech on February 27, 2022, announcing a series of measures including the supply of weapons to Ukraine and the strengthening of its own defense forces. This was a historic transition for Germany's foreign and security policy, which has always been pacifist. This paper will take the transformation of the German Scholz government's foreign policy in the context of the Russian-Ukrainian conflict as the object of study. And it is the purpose of this paper to analyze the reasons why this historical transition in foreign policy occurred in Germany at this time. In general, this paper specifically analyzes the Scholz government's foreign policy transition based on the analytical model of foreign policy transition proposed by Jakob Gustavsson, and argues that international factors, domestic factors, policy makers' factors, and the stimulus of the crisis are the four main factors that led to this foreign policy transition.

Keywords: Germany, Russian-Ukrainian conflict, Foreign policy change.

1. Introduction

Since World War II, pacifism has been the main feature of German foreign policy [1]. Germany opposed reliance on military power in the conduct of its foreign policy and insisted on restraining the development of its own military power. German foreign policy has shown great continuity in this feature. On December 8, 2021, Germany's Parliament elected Olaf Scholz as the ninth Chancellor after World War II, replacing Angela Merkel, who had led Germany for 16 years. Even though there is a growing debate in Germany about whether Germany should change its foreign policy and take more responsibility for security internationally, Scholz came to power saying he would maintain the continuity of German foreign policy and preserve the political legacy left by Merkel's 16 years [2]. Until February 24, 2022, when the Russian-Ukrainian conflict broke out, Scholz delivered the Zeitenwende speech on February 27, 2022, stating that Germany had ushered in a historic watershed and announcing that Germany would respond to the security challenges posed by Russia by providing arms to Ukraine, unconditionally fulfilling its collective defense obligations within NATO, and strengthening its own defense forces [3]. This decision is an attempt to make a change in Germany's foreign policy tradition of not relying on the military, and has been described as a revolution in German foreign policy. The future of German foreign policy may thus be transformed and will continue to evolve in this direction. Thus, it can be said that the Zeitenwende speech represents a historic shift in German foreign policy.

The transformation of foreign policy has always been a key area of concern in foreign policy studies, and the relevant theories have been developed to a high degree of maturity and sophistication. The Zeitenwende speech represents the Scholz government's foreign policy transformation, which is a relatively new case study of foreign policy transformation. It is worth noting that this is not only a reorientation of the Scholz government's own foreign policy, but also a deeper transformation of Germany's foreign policy tradition since World War II, and therefore has greater research value. The Scholz government's foreign policy transition has already attracted attention, but it is still dominated by press reports and policy commentaries. Some scholars have also conducted studies on this issue. However, most of the studies have focused on the characteristics and processes of the German foreign policy transition or only studied one aspect of it in depth, while the literature that systematically studies the motives of this transition is relatively small and the combination with theory is insufficient. This paper attempts to analyze the Scholz government's foreign policy transition using the analytical

Russian National Security and Foreign Policy in Transition Eugene B. Rumer, 1995 This study is an examination and assessment of critical trends in the evolution of Russian thinking on foreign and national security policy in recent years The consensus of the Gorbachev and Yeltsin eras that promised rapprochement with the West has been replaced by a new consensus that is pushing Russia toward a more aloof position vis a vis the Western alliance as leaders grapple with problems along Russia's immediate periphery and seek to rebuild Russia's sphere of influence A key issue is the contradiction between U S recognition of the newly independent states around Russia's periphery and Russia's special role of oversight throughout the former Soviet Union and pursuit of national interests that might impinge on its neighbor's sovereignty U S policymakers face the task of balancing the newly independent states' right to sovereignty against the need to restore order in a given region and the desire to sustain continuity in U S Russian relations Although there are no easy solutions the Western community can play a constructive role while remaining on the periphery

[The Treaty on Conventional Armed Forces in Europe](#) Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand

Understanding Russian Politics Stephen White, 2011-03-31 A fresh and compelling interpretation of Russian politics by a leading authority, this textbook focuses on political developments in the world's largest country under Putin and Medvedev. Using a wealth of primary sources, it covers economic, social and foreign policy and the system of politics that has developed in recent years. Opposing arguments are presented and students are encouraged to reach their own judgements on key events and issues such as privatisation and corruption. This textbook tackles timely topics such as gender and inequality, issues of organised religion, the economic crisis and Russia's place in the international community. It uses numerous examples to place this powerful and richly endowed country in context, with a focus on the place of ordinary people which shows how policy is translated to Russians' everyday lives. **Foreign Policy In A Transformed World** Mark Webber, Michael Smith, 2014-01-14 For 2nd and 3rd year courses in international politics and foreign policy. This text examines foreign policy in relation to change and transformation. It discusses traditional assumptions about foreign policy and foreign policy making and develops a framework to facilitate analysis of the challenges faced by foreign policy makers in the late 1990s. The central elements of the framework are the foreign policy arena, decision making and implementation. The book then applies the framework to a set of regional case studies to explore the global and regional arenas and the challenges to which they give rise. Finally, specific case studies of two countries per region highlight the range of impacts for the changing global and regional context to focus on the analysis of decision making and implementation and to illustrate the benefits of comparative analysis. **Capitalist Russia and the West** Jeffrey Surovell, 2018-01-18 This title was first published in 2000, highly innovative work which challenges mainstream approaches to the study of Russian policy with its groundbreaking application.
