Security and Privacy in Computer Systems Lance J. Hoffman, 1973 Security and Privacy in Computer Systems
Lance J. Hoffman, 1973 Security, Accuracy, and Privacy in Computer Systems James Martin, 1973 The nature of the problem Design of the computer system Design of physical security Design of administrative controls Design of the legal and social environment *Security and Privacy in Computer Systems* Willis H. Ware, 1967 Computer systems operating with classified military information and those handling private or sensitive information are contrasted in terms of controlling user access incentives to penetration hardware requirements file access and protection overall philosophy of system organization certifying authorities magnitude and seriousness of penetration efforts security and protection of communication circuits Generally speaking similar hardware software and systems precautions must be taken The essential distinctions are in the legal framework value of information magnitude of resources for both protection and penetration and in communications security The all important difference is that the users of a computer private network may not be subject to a common authority and discipline or that these forces may be inadequate to deter deliberate attempts at penetration Author
