Critical Information Infrastructures Maitland Hyslop,2007-09-05 Resilience is an increasingly important concept and quality in today s world It is particularly important in the area of Critical Infrastructures It is crucial in the area of Critical Information Infrastructure This is because since the year 2000 man has been dependent on information and telecommunications systems for survival particularly in the Organization for Economic Cooperation and Development OECD countries and because all other Critical Inf structures depend upon to a greater or lesser extent Critical Information 1 2 Infrastructure Until probably the late 1980s it would be fair to say that the defense of individual nation states depended upon a mixture of political will and armed might The fall of the Berlin Wall may have effectively ended the Cold War and with it a bipolar world but it brought globalization and a multipolar digital world in its wake Simply put a number of power vacuums were created and these have yet to be fully filled and settled In this New World many changes were afoot These changes

include the increasing irrelevance of nation states in federated structures and the export of democracy on the back of globalization One of the biggest changes though is the use of digital technology by the OECD countries This is on such a scale that these countries have become both dependent upon information technology and as individual states largely irrelevant to the new global electronic economy 1 This adaptation of Maslow's hierarchy of needs is attributed to KPMG

Federal Information System Controls Audit Manual (FISCAM) Robert F. Dacey, 2010-11 FISCAM presents a methodology for performing information system IS control audits of governmental entities in accordance with professional standards FISCAM is designed to be used on financial and performance audits and attestation engagements The methodology in the FISCAM incorporates the following 1 A top down risk based approach that considers materiality and significance in determining audit procedures 2 Evaluation of entitywide controls and their effect on audit risk 3 Evaluation of general controls and their pervasive impact on business process controls 4 Evaluation of security management at all levels 5 Control hierarchy to evaluate IS control weaknesses 6 Groupings of control categories consistent with the nature of the risk
