The Spiritual Dimension of Alternative Medicine Ernest M. Valea, 2020-02-20 We often hear that alternative medicine is superior to classical medicine for it treats us holistically both the physical body and the immaterial part of our nature Although such an approach seems desirable it is precisely this aspect that opens the door to spiritual views incompatible with Christianity Many forms of alternative medicine speak of a divine essence we allegedly possess of a vital force that we can manipulate of spiritual beings that can help us and other such views closely related to Eastern religions and New Age thought In their desire to find healing at any price Christians often resort to these methods without realizing the spiritual danger involved For Christians who want to live consistently with their faith this book is intended to raise awareness of the hidden beliefs of alternative medicine

Danzar con el yin y el yang John Chitty, En esta obra John Chitty integra conceptos de la antigua sabidur a tao sta con nuevos descubrimientos de la neurociencia y t cnicas terap uticas de probada eficacia en un todo din mico y cohesionado Entre sus principales aportaciones est el mapa de la jerarqu a relaciones o jerarqu a de los campos de acci n que produce una honda resonancia porque refleja directamente nuestra experiencia interna lo que nos mueve y c mo nos mueve Tambi n incluye una explicaci n simple y coherente de la novedosa Teor a Polivagal de Stephen Porges en la que se expone que el desarrollo de la vida social entre los primates superiores y los seres

humanos tiene su reflejo en el desarrollo de un sistema nervioso social. Ante las situaciones estresantes el sistema nervioso social nos capacita para superar la respuesta de lucha o huida instintiva y estrictamente animal recurriendo al vínculo con nuestros allegados. Todo un destello de esperanza para nuestra humanidad. Además describe detenidamente el uso de la poderosa técnica terapéutica de la silla vacía que puso de moda Fritz Perls, el fundador de la Terapia Gestalt, de comprobada eficacia práctica para integrar distintas percepciones, puntos de vista y fragmentos de nuestra psique. Por último cabe añadir que estos conceptos del yin y el yang resultan familiares y cercanos, son intuitivos y fáciles de captar porque están pegados a nuestra experiencia de cada día y facilitan mucho la descripción de las energías y la comunicación terapeuta-cliente.
