Mad Technology I. Oh, H. Park, S. Yoneyama, H. Kim, 2005-01-07 At the end of the Cold War the global economic system encountered a new phenomenon in the field of knowledge creation and technological innovation the birth of mad technologies This book analyses major changes in the national innovation systems NIS due to the introduction of mad technologies in East Asia The authors find that mad technologies were the cause of stock market crashes and economic uncertainties in the region and conclude that successful corporations use various measures to neutralize mad technologies and or incorporate them into the NIS Routledge Handbook of Modern Korean History Michael Seth, 2016-01-29

Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea's partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher of Korean History

Revolution of Innovation Management Alexander Brem, Eric Viardot, 2017-01-31 This edited volume explores how the rapid development of business model innovation changes innovation management at an international level It discusses the next phases in its development and the impact that this could have on the field The authors identify and examine recent trends which have the potential to disrupt the traditional way of managing innovation notably in terms of creativity product development and process change In line with the constant globalization of innovation the second volume of Revolution of Innovation Management offers a variety of international perspective on these topics with illustrations and analysis coming from Asia America and Europe *Guanxi in Contemporary Chinese Business* Jane Nolan, Chris Rowley, 2020-12-30 Does guanxi still matter in 21st century Chinese business and management Is it really still a culturally distinct form of social interaction impenetrable by outsiders Or does it simply resemble the countless other elite networks embedded in business and political spheres across the globe This book answers these questions through a combination of new empirical insight and nuanced conceptual development Research examples include investigations of multinational enterprise corporate performance governance structures in Chinese private firms organisational justice in Chinese banks entrepreneurial learning and knowledge acquisition and the gendered and sexualized nature of guanxi in the workplace In terms of firm performance there is still much to be gained by MNE and Chinese firms through cultivating guanxi in different domains including the political sphere at both the local and national level However in terms of employee performance there is evidence that some younger employees have a strong desire to move towards more merit based systems and resent being judged on guanxi connections Similarly some women may find themselves shut out when attempting to

navigate conventional guanxi relationships based on Confucian paternalism In brief these practices may also exclude a large pool of emerging talent This book clearly shows that guanxi is a complex concept that holds a persistent power in Chinese societies To understand it fully we must acknowledge the dynamic nature of both its dark and light sides The chapters in this book were originally published in a special issue of the Asia Pacific Business Review Theory and Practice of the Triple Helix Model in Developing Countries Mohammed Saad,Girma Zawdie,2011-02-25 Theory and Practice of Triple Helix Model in Developing Countries contributes to the expanding literature on triple helix innovation focusing on developing countries The book is based on practical cases and experiences from Africa Latin America and Asia Relevant experiences and best practices from developed countries are also examined The book is presented as a response to the growing awareness about the need for policy shift from the traditional technology transfer practice to a policy position that is capable of providing a sustainable basis for innovation and technological progress in developing countries The book explores the triple helix system of innovation based on the dynamics of the interactive relationships between government industry and universities in the creation dissemination and sharing of knowledge in developing countries A major point addressed by the book is the extent to which the triple helix system of relationships between university industry and government can enhance the effectiveness of universities in developing countries as agents of innovation industrialization and sustainable development **Evolution of Innovation Management** A. Brem,E. Viardot,2013-01-30 Uses new approaches and solutions to tackle innovations in an international context Some of the challenges of innovating are remarkably consistent and recent times have shown the emergence of new ways for stimulating and managing the innovation process The authors explore these new routes and assess their value for markets and companies **Korean Studies Forum** ,2008 *The British National Bibliography* Arthur James Wells,2005 *Tech Titans of China* Rebecca Fannin,2019-09-03 Sliver award winner in International Business Globalization 2020 Axiom Business Book Awards The rise of China s tech companies and intense competition from the sector is just beginning This will present an ongoing management and strategy challenge for companies for many years to come Tech Titans of China is the go to guide for companies and those interested in competition from China seeking to understand China s grand tech ambitions who the players are and what their strategy is Fannin an expert on China is an internationally recognized journalist author and speaker She hosts 12 live events annually for business leaders venture capitalists start up founders and others impacted by or interested in cashing in on the Chinese tech industry In this illuminating book she provides readers with the ammunition they need to prepare and compete Featuring detailed profiles of the Chinese tech companies making waves the tech sectors that matter most in China s grab for super power status and predictions for China s tech dominance in just 10 years **The Digital War** Winston Ma,2021-01-19 What new directions in China s digital economy mean for us all China is the largest homogenous digital market on Earth unified by language culture and mobile payments Not only a consumer market of unrivaled size it s also a vast and hyperactive innovation ecosystem for new
