Manuelle Gautrand Architecture Manuelle Gautrand Architect (Firm), 2017 Manuelle Gautrand Architecture is a Parisian based architecture firm founded by Manuelle Gautrand in 1991, sited in the Bastille neighbourhood of this exquisite European city. The firm's key aim is to re-enchant the city of Paris by evoking emotion, reinventing spaces and garnering renewal and innovation to be bold and definitive. At the core of Gautrand's creativity lies the approach to each new project through the spirit of a blank canvas with no a priori. Yet each of the projects that this firm produces expresses a specific relationship to the site, a desire to revive it and enchant, a deep commitment to working on programs entrusted to the firm, ensuring efficiency, flexibility and surprise. Each project is a unique and symbolic encounter. Fuelled by shared ideas and prominent for its breadth of practice, this book documents the comprehensive collection of Manuelle Gautrand Architecture's design solutions. It celebrates the intuitive and stunning designs and the firm's commitment to beauty, revival, boldness and precision.

Manuelle Gautrand a créé l'agence Manuelle Gautrand en 1991. Il y a vingt ans à l'occasion de cet anniversaire, l'ouvrage *Ceux que j'ai déjà construits* propose de revenir sur le parcours de cette architecte, de ses premières réalisations à aujourd'hui. Préface par Paul Finch, critique d'architecture anglais et directeur du WAF, cette monographie est divisée en deux parties: la première donne à voir

de manière synthétique les premières réalisations de Manuelle Gautrand de 1991 à 2001 et la deuxième nous présente de manière plus développée ses bâtiments livrés ces dix dernières années de 2002 à 2011 soit vingt ans d'un travail architectural inventif marqué d'une identité forte se confirmant au fil des années et des projets *The Manuelle Gautrand Architecture*, 2021 Entretien avec Manuelle Gautrand Gauthier Bolle, Maxime Decommer, Manuelle Gautrand, 2024-03-06

Née en 1961 à Marseille, l'architecte Manuelle Gautrand est notamment connue pour l'extension du LaM Villeneuve d'Ascq 2010, le showroom Citroën sur les Champs-Élysées 2007 ou la transformation de la Gaîté Lyrique à Paris 2011. Son œuvre caractérisée par une forme de positivisme même lorsqu'elle prend place dans des contextes où l'optimisme semble se tenir sur cette ligne de crête entre sobriété et spectaculaire, discrétion et ostentation réelle et imaginaire. Mais au-delà de l'œuvre, le parcours accompli de Manuelle Gautrand est celui d'une femme architecte de la génération des années 1990. Loin de tout dogmatisme, sa position sans a priori assume tout autant l'adoption de méthodes rationnelles qu'une posture artistique accordant une place prépondérante au projet. Deuxième opus de la collection Confidences sur l'architecture, cet ouvrage met en lumière le parcours de l'architecte française à travers un long entretien mené par Gauthier Bolle et Maxime Decommer. Les échanges ont eu lieu en septembre 2022 au sein de l'agence de Manuelle Gautrand à Paris. Ils sont structurés en trois parties : la première est celle de la construction du regard de l'architecte au cours de son enfance, sa formation et ses débuts professionnels ; la deuxième retrace le panouissement et l'affirmation de sa méthode de conception et d'organisation de son travail ; la troisième est consacrée aux questions de la transmission et de la transformation de l'existant, inscrivant sa pratique dans des enjeux actuels. **24h Architecture** Boris Zeisser, 24H architecture (Firm), Maartje Lammers, 2007. In the long period of adapting to social development, museums have become cultural complexes with multiple functions. With the development of society, the functions of museums are also changing with new functions, forms and solutions continually emerging. The projects featured in this book are focusing on architecture and interior light and indoor climate and sustainable features in art museums, supported with case studies, full-colour photographs and architectural plans throughout. **MoMoWo. European Women in Architecture and Design · 1918-2018 Ana Fernandez Garcia, Helena Seražin, Emilia Maria Garda, Caterina Franchini, 2016-09-01. This publication is aimed to support two MoMoWo traveling exhibitions which will be presented in six European countries in two years 2016-2017: indoor exhibition catalogue *100 Works in 100 Years European Women in Architecture and Design 1918-2018* and outdoor exhibition *Women's Tale: A Reportage on Women Designers*. Exhibition catalogue *100 Works in 100 Years European Women in Architecture and Design 1918-2018* brings together a selection of some of the most significant and representative examples of European architecture and design created by 100 women from the end of the First World War up until today. The number of works is symbolic as one hundred could also mean countless as in the Latin word *centium*. While the number of authors each work has a different author, it derives from MoMoWo's choice to represent many different creators consequently popularising lesser known figures too. It includes biographies of women architects, civil engineers, furniture and industrial designers, urban planners, interior and landscape designers. It represents the main trends and major schools of architecture and design all over Europe. The biographical data covers education and training, professional histories, networks women have operated in, including informal societies, memberships in trade bodies and associations, their profile as international, national, local and regional designers as well as looking at how women have promoted their work, i.e. in exhibitions, publications, competition entries, etc. The catalogue entries are followed by thirteen thematic essays on women architects and designers and by the outdoor exhibition catalogue *Women's Tale: A Reportage on Women Designers* where photographs by ten finalists of the MoMoWo Photo competition are presented. By seeking to identify women who worked in Europe as well as European women who worked outside Europe over last 100 years, the main aim of this catalogue is to increase the awareness of historians and the general public about their enormous contribution to architecture and design and indirectly providing accessibility to their works. _ _ _ _ _
